ORDER YOUR STARTER KIT NOW!

# Starter Kit SIMATIC RF1000

Access control to industrial panels, PCs, and controllers is becoming increasingly important in view of the growing demands on security. With the Access Control Readers of the SIMATIC RF1000 family, you can conveniently use your existing employee ID cards for this purpose. This Starter Kit enables you to test all SIMATIC RF1000 supported card formats without the need of sending them in for testing. It is also possible to create your own config cards with the config editor, which is available for download. In addition to USB, the connection to RS232 applications (PC, CMs) can also be tested immediately.

## Starter Kit SIMATIC RF1000<sup>1)</sup>

### Security information

In order to protect plants, systems, machines and networks against cyber threats, it is necessary to implement – and continuously maintain – a holistic, state-of-the-art industrial security concept. Siemens' products and solutions constitute one element of such a concept. For more information about industrial security, please visit
