

Issued by NMI Certin B.V.,
designated and notified by the Netherlands to perform tasks with respect to conformity assessment procedures mentioned in article 17 of Directive 2014/32/EU, after having established that the Measuring instrument meets the applicable requirements of Directive 2014/32/EU, to:

Manufacturer Siemens AG
Östliche Rheinbrückenstrasse 50
76187 Karlsruhe
Germany

Measuring instrument **Discontinuous Totaliser (totalising hopper weigher)**
Type : SIWAREX WP251 THW
TM SIWAREX WP351 HF THW

Manufacturer's mark : SIEMENS

Further properties are described in the annex:
– Description T12006 revision 0.

Valid until 9 November 2030

Issuing Authority **NMI Certin B.V., Notified Body number 0122**
9 November 2020

Certification Board

This document is issued under the provision that no liability is accepted and that the manufacturer shall indemnify third-party liability.

The designation of NMI Certin B.V. as Notified Body can be verified at <http://ec.europa.eu/growth/tools-databases/nando/>

Reproduction of the complete document only is permitted.

This document is digitally signed and sealed. The digital signature can be verified in the blue ribbon at the top of the electronic version of this certificate.

1 General information about the discontinuous totaliser

All properties of the discontinuous totaliser (instrument), whether mentioned or not, shall not be in conflict with the legislation.

This certificate contains references to other certificates. The properties mentioned in these certificates shall be observed in addition to the properties mentioned in this certificate.

1.1 Essential parts

Analog data processing device (ADPD):

Producer	Type	Certificate number
Siemens	SIWAREX WP251	TC10857
Siemens	TM SIWAREX WP351 HF	TC11785

Any analog passive load cell(s) may be used under this certificate for instruments as described in WELMEC 2.4 Issue 2, provided the following conditions are met:

- There is a respective certificate (EN45501) or an OIML Certificate (R 60) issued for the load cell by a Notified Body responsible for type examination under Directive 2014/32/EU or Directive 2014/31/EU.
- The load cell shall comply with humidity class **CH** or **SH**;
- The certificate contains the load cell types and the necessary load cell data required for the manufacturer's declaration of compatibility of modules (EN 45501:2015 clause F.4), and any particular installation requirements;
- The compatibility of load cells and indicator is established by the manufacturer by means of the compatibility of modules form, contained in EN 45501:2015 clause F.4, at the time of putting into use, with the adaptation that instead of the verification scale interval, the totalisation scale interval is used;
- The load transmission must conform to one of the examples shown in WELMEC 2.4 Issue 2.

The TM SIWAREX WP351 HF may be connected to the Exi-Interface, taking the conditions in the certificate into account:

Producer	Type	Certificate number
Siemens	SIWAREX IS	D09-01.38

For the SIWAREX WP251 the connection to the Exi-Interface is described in the certificate.

1.2 Essential characteristics

Destined to be used for		Weigh-in or Weigh-out	
Accuracy class		0,2 or 0,5 or 1 or 2 the actual accuracy class is determined at the time of putting into use	
Totalisation scale interval		$d_t \geq \text{Max} /$ (the number of scale intervals mentioned in the certificates involved)	
Electromagnetic environment class		E2	
Climatic environment	temperature range	-10 °C / +40 °C	
	humidity	ADPD and display	Mechanical assembly
		non-condensing	condensing
location	closed	open and closed	

1.3 Essential shapes

The inscriptions fulfil the requirements of Directive 2014/32/EU Annex I, clause 9 and OIML R 107-1 clause 3.9.

The inscriptions plate is fixed to the analog data processing device or other essential part of the instrument and secured against removal by sealing or will be destroyed when removed. The inscriptions plate may be split in several parts.

1.4 Conditional parts

Display:

Producer	Type	Certificate number	Remarks
Siemens	SIWAREX SecureDisplay	DE-14-EC-PTB004	-
Siebert	S102-W6/14/0x-00x/xB-xx	D09-04.09	Additional display

The instrument may be equipped with peripheral equipment if the peripheral equipment is certified to be connected to a weighing instrument by a Notified Body responsible for type examination under Directive 2014/31/EU or Directive 2014/32/EU taking into account the applicable electromagnetic environment class.

The instrument is fitted with a levelling device and a level indicator, unless the instrument is installed in a fixed position.

1.5 Non-essential parts

The instrument may be connected to non-essential devices, for example but not limited to bar code readers, second displays, etc. provided that:

- They do not present primary data;
- They do not lead to an instrument having other essential characteristics than those fixed by this certificate.

Other non-essential parts:

- In feed and out feed of products.

2 Seals

To secure components that may not be dismantled or adjusted by the user, the automatic weighing instrument has to be secured in a suitable manner on the locations indicated in the certificates involved:

The connecting cable of the load cell or the junction box is provided with possibility to seal.

3 Conditions for conformity assessment

The marks, facilities for the marks and the inscriptions on the instrument fulfil the requirements of Directive 2014/32/EU.

The compatibility of load cells and analog data processing device is established by the manufacturer by means of the compatibility of modules form, contained in EN 45501:2015 clause F.4, at the time of putting into use.

The instrument can be used as a control instrument.
