

SIEMENS

Ingenuity for life

Detect. React. Benefit.

Increase the availability of your plants with
SIMATIC Notifier!

[siemens.com/simatic-notifier](https://www.siemens.com/simatic-notifier)

The old problem:

Failures are often detected too late!

The clever solution ...

Detection – immediate alerting via mobile devices

... is called SIMATIC Notifier!

Reaction – targeted control
of service calls

Benefit – maximum availability
is ensured

» *Thanks to reports directly to my smartphone
I'm able to react quicker and can increase
the availability of my production line by several
percent! «*
