Extended Path List

Interface Compatibility of Storage Media and SIMATIC Panels

<https://support.industry.siemens.com/cs/ww/en/view/21847868>

This entry originates from the Siemens Industry Online Support. The conditions of use specified there apply (www.siemens.com/nutzungsbedingungen).

Security Notes

Siemens offers products and solutions with industrial security functions which support the secure operation of plants, solutions, machines, devices and/or networks. They are important components in a comprehensive industrial security concept. The Siemens products and solutions continue to be developed under this aspect. Siemens recommends that you keep yourself regularly informed about product updates.

For the safe operation of Siemens products and solutions it is necessary to take appropriate security measures (cell protection concept, for example) and to integrate each component in an overall industrial security concept which is state of the art. This should also cover the third-party products used. Additional information about industrial security is available at:

<http://www.siemens.com/industrialsecurity>.

In order to keep yourself informed about product updates, we recommend subscribing to our product-specific newsletter. Additional information about this is available at <http://support.industry.siemens.com>.

1 Interface-compatible Operator Panels for a Specific Storage Medium

Follow the specified paths.

There are several ways of accessing the same information.

At the end of a path is a list of the operator panels which have an interface for the selected storage medium.

1.1 In the [Siemens Industry Mall](#)

"Automation Technology > SIMATIC HMI operator control and monitoring systems > SIMATIC HMI accessories > [Storage media](#)" >

- Path a:
Top tab "**Ordering data**" > Click the required storage medium > Table row "Product" > Table row "**Product description**"
- Path b:
Top tab "**Product Information**" > "Technical specifications" table > Table row "**Other**" in the column of the required storage medium

1.2 In the [Siemens Industry Online Support](#)

Via the [Product Support](#)

1. Select the entry type "Technical data".
2. In the product tree you select: "Automation Technology > Operator control and monitoring systems > SIMATIC HMI accessories > [Storage media](#)"
 - a. Read the summary under the article name.
 - b. Alternatively you click the required product and in the "Technical data" table you read the **specifications on the right of the article image** and in the table row "**Other**".

1.3 In the [Catalog](#)

Via Catalog ST80 / ST PC Edition 2015

1. Filter for "ST 80".
2. Select the required language from the drop-down list at the top right.
3. Download the "Catalog ST80 / ST PC Edition 2015" or the chapter "07 – SIMATIC HMI Accessories" (PDF file).
 - [Direct download of chapter 7 "SIMATIC HMI accessories" of the ST80 catalog](#)
 - [Direct download of the ST80 catalog](#)
4. In the catalog you navigate to "Chapter 7: SIMATIC HMI accessories > Storage media" (page 651 in the PDF "Catalog ST 80", page 57 in the PDF "Chapter 7").
5. Read the specifications in the "Technical specifications" table in the table row "**Other**".

2 Interface-compatible Storage Media for a Specific Operator Panel

Follow the specified paths.

There are several ways of accessing the same information.

At the end of a path is a list of the number and type of the storage media interfaces available for the selected operator panel, sometimes with further information about properties of the interface.

2.1 In the [Siemens Industry Online Support](#)

Via the [Product Support](#)

1. Select the entry type "Technical data".
2. In the product tree you select: "Automation Technology > Operator control and monitoring systems > [Operator devices](#) > [Type of the operator panel]".
3. Click the required product.
4. Read the specifications in the "Technical data" table in the table row "**Interfaces**".
5. Read the specifications in the "Technical data" table in the table row "**Peripherals/Options**".

2.2 In the [Catalog](#)

Via Catalog ST80 / ST PC Edition 2015

1. Filter for "ST 80".
2. Select the required language from the drop-down list at the top right.
3. Download the "Catalog ST80 / ST PC Edition 2015" or the separate chapter "Chapter 02 - Operator panels" (PDF file).
 - [Direct download of chapter 2 "Operator panels" of the ST80 catalog](#)
 - [Direct download of the ST80 catalog](#)
4. In the catalog you navigate to "Chapter 2: Operator Panels > [Type of the operator panel]" (page 25 in the PDF "Catalog ST 80", page 1 in the PDF "Chapter 2").
5. Read the specifications in the "Technical specifications" table in the table row "**Interfaces**".
6. Read the specifications in the "Technical specifications" table in the table row "**Peripherals/Options**".
