Siemens License Conditions

General License Conditions for Software Products for Automation and Drives

(2011-08-01)

1. Supply of Software to Licensee and Granting of Rights to use the Software

1.1 These General License Conditions shall exclusively apply to the delivery of Software for Automation and Drives to the Licensee. General terms and conditions of the Licensee shall apply only where expressly accepted in writing by us. The scope of delivery of the Software shall be determined by the congruent mutual written declarations of both parties. We shall grant the Licensee rights to use the software specified in the Confirmation of Order or, if the Licensee does not receive a Confirmation of Order, the software specified in the Certificate of License or that specified in the Software Product Sheet, if the Licensee is instead submitted a Software Product Sheet (hereinafter referred to as "SW"). The Certificate of License and the Software Product Sheet shall be collectively referred to as "CoL" hereinafter. The Licensee shall be submitted the CoL when the SW is supplied or in conjunction with the delivery bill. The way in which the SW is supplied is also derived directly from the Confirmation of Order or from the SW purchase order number contained in the Confirmation of Order, in conjunction with the associated order data of our catalog valid at the time of the Confirmation of Order (hereinafter collectively referred to as "Order Data"), or from the CoL. If the Licensee does not receive a data medium, it shall be authorized to copy the SW already available to it to the extent necessary to exercise the rights to use the SW granted to it. The aforesaid shall apply, mutatis mutandis, to electronic supply of the software (downloading). Where reference is made to the Order Data or the CoL in these General License Conditions, the reference to the CoL is of significance if the Licensee has not received a Confirmation of Order. In any case, the data contained in the Order Data is also contained in the CoL.

1.2 The Documentation relating to the SW (hereinafter referred to as "Documentation") shall be purchased separately, unless either the Order Data or CoL contains a stipulation stating that it belongs to the scope of delivery. If the Licensee is authorized to copy the SW in accordance with Clause 1.1, this shall also apply to the Documentation provided that it is included in the scope of delivery.

1.3 In the event that we submit a License Key to the Licensee, which unlocks the SW (hereinafter referred to as "License Key"), this License Key must also be installed.

1.4 The rights granted to the Licensee with respect to the SW are based on the License Type (see Section 2) and the Software Type (see Section 3). The license and Software Types are detailed in the Order Data or CoL. If the SW is supplied electronically or if copying rights are granted for it, the rights and duties specified in these General License Conditions shall apply to the legitimately generated copies.

1.5 If the Licensee is legitimately in possession of a previous SW version/release (hereinafter referred to as "Previous Version"), the

Licensee shall be authorized to exercise the rights to use the SW granted to it either with respect to the SW or - if this is intended from a technical point of view - to the Previous Version, at its own discretion (downgrading). If the SW is an Upgrade or PowerPack in accordance with Section 4, Section 4 shall apply additionally.

1.6 If Previous Versions are listed in the Readme file of the SW under the category "parallel use", the Licensee has the right to exercise, alternatively to the user rights granted to him for the SW, the user rights for the listed Previous Versions in one (1) Instance. If the "Type of use" named in the Order Data or the CoL is: "Installation" or "User", the Licensee is entitled to the previously described right additionally to and at the same time as the Previous Versions listed in one Instance. An "Instance" in the context of these General License Conditions is either an instance in a physical operating system environment or an instance in a virtual operating system environment. The transferability of the user rights onto Previous Versions is only permissible in conjunction with the user rights for the SW in accordance with Clause 5.3.

1.7 In case the Licensee obtains only the data media but no license as per the Order Data or the CoL, any use of the SW by the Licensee is subject to the acquisition of a license according to Section 2. Up to the acquisition of the license, the Licensee is not entitled to supply the SW to third parties.

1.8 In case the SW contains Open Source Software or any similar software of a third party (hereinafter referred to as "OSS") the OSS is listed in the Readme_OSS-file of the SW. The Licensee is entitled to use the OSS in accordance with the respective license conditions of the OSS. The license conditions are provided on the same data carrier as the SW. The license conditions of the respective OSS shall prevail over these General License Conditions with respect to the OSS. If the license conditions of the OSS require the distribution of the source code of such OSS we shall provide such source code on request against payment of the shipping and handling charges.

1.9 The SW may be or contain licensed software other than OSS, i.e. software which has not been developed by us itself but which has been licensed to us by a third party (hereinafter referred to as the "Licensor"), e.g. Microsoft Licensing Inc. If the Licensee receives the terms and conditions stipulated by the relevant Licensor together with the SW in the Readme_OSS file in this case, such terms and conditions shall apply with respect to the Licensor's liability vis-à-vis the Licensee. Our own liability vis-à-vis the Licensee shall be governed in any case by these General License Conditions.

2. License Type

Depending on the License Type, the Licensee shall be granted the following rights to the SW:

2.1 Single License (One Off License, Copy License)

The term "One Off License" or "Copy License" which may be used in the Software Product Sheet corresponds to the term "Single License". The following regulation shall apply to the full scope of the One Off License / Copy License. The Licensee shall be granted the non-exclusive right, transferable in accordance with Clause 5.3 and valid for an unlimited period of time, to install the SW in one (1) Instance and to utilize the SW thus installed in the manner specified in the Order Data or CoL (see "Type of Use").

2.2 Floating License

The Licensee shall be granted the non-exclusive right, transferable in accordance with Clause 5.3 and valid for an unlimited period of time, to install the SW on any desired number of the Licensee's hardware devices. The number of objects (for example, users or devices) permitted to utilize the SW at the same time can be derived from the Order Data or CoL (see "Type of Use").

2.3 Rental License

The Licensee shall be granted the non-exclusive right, transferable in accordance with Clause 5.3 and limited in time as stipulated in the Order Data or CoL (see "Type of Use"), to install and use the SW in one (1) Instance. If the period of use is specified in hours, the usage decisive for the calculation of the time limit commences with the software start-up and finishes with its shut-down. If the period of usage is specified in days, weeks or months, the specified period, which commences in conjunction with the first SW start-up, shall apply independently of the actual time of usage. If the period of use is specified with a date, the right of use ends on this date – regardless of the actual period of use.

2.4 Rental Floating License

The Licensee shall be granted the non-exclusive right, transferable in accordance with Clause 5.3 and limited in time as stipulated in the Order Data or the CoL (s. "Type of use"), to install the SW on any desired number of the Licensee's hardware devices. The number of objects (for example, users or devices) permitted to utilize the SW at the same time can be derived from the Order Data or CoL (see "Type of Use") as well. If the period of use is specified in hours, the usage decisive for the calculation of the time limit commences with the software start-up and finishes with its shut-down. If the period of usage is specified in days, weeks or months, the specified period, which commences in conjunction with the first SW start-up, shall apply independently of the actual time of usage. If the period of use is specified with a date, the right of use ends on this date – regardless of the actual period of use.

2.5 Demo License

The Licensee shall be granted the non-exclusive right, transferable in accordance with Clause 5.3 and limited in time as stipulated in the Order Data or the CoL (s. "Type of use"), to install the SW in one (1) Instance and to use it for validation purposes. If the period of usage is specified in days, weeks or months, the specified period, which commences in conjunction with the first SW start-up, shall apply independently of the actual time of usage. If the period of use is specified with a date, the right of use ends on this date – regardless of the actual period of use.

2.6 Demo Floating License

The Licensee shall be granted the non-exclusive right, transferable in accordance with Clause 5.3 and limited in time as stipulated in the Order Data or the CoL (s. "Type of use"), to install the SW on any desired number of the Licensee's hardware devices. The number of objects (for example, users or devices) permitted to utilize the SW at the same time can be derived from the Order Data or CoL (see

"Type of Use) as well. If the period of usage is specified in days, weeks or months, the specified period, which commences in conjunction with the first SW start-up, shall apply independently of the actual time of usage. If the period of use is specified with a date, the right of use ends on this date – regardless of the actual period of use.

2.7 Trial License

The Licensee shall be granted the non-exclusive and non-transferable right to install the SW in one (1) Instance and to use it for validation purposes in the manner specified in the Order Data or CoL (see "Type of Use"). The period of usage is limited to 14 days and commences with the SW start-up, unless a different period of usage is specified in the Order Data or CoL.

3. Software Type

If the Software Type is not specified in the Order Data or CoL, the rights specified in Clause 3.2 (Runtime Software) shall apply to the SW.

3.1 Engineering Software (hereinafter referred to as "E-SW")

In the event that the Licensee uses E-SW to generate its own programs or data containing parts of the E-SW, the Licensee shall have the right, without having to pay any license fee, to copy and to use these parts of the E-SW as a part of its own programs or data, or to supply them to third parties for use. In the event that such parts are supplied to third parties for use, these parties shall be bound in writing to comply with stipulations corresponding to those in Clauses 5.1 and 5.2 with respect to the above parts of the E-SW.

3.2 Runtime Software (hereinafter referred to as "R-SW")

If the Licensee incorporates R-SW or any parts thereof into its own programs or data, it shall purchase a license with respect to the R-SW each time it installs or copies - depending on what is done first - its own programs or data containing R-SW or parts thereof, in accordance with the relevant intended Type of Use and on the basis of the Siemens catalog valid at that time. In the event that the Licensee supplies the specified programs or data to third parties for their use, these parties shall be bound in writing to adhere to stipulations corresponding to those in Section 5, with respect to the R-SW parts contained therein. The aforesaid shall not affect the Licensee's obligation to purchase a license for the R-SW if the R-SW original is copied. If the R-SW contains tools for parameterization/configuration and extended rights have been granted in this regard, this will be detailed in the readme file of the R-SW.

4. Upgrade and PowerPack

If it is apparent from the Order Data or CoL, e.g. by the addition "Upgrade" or "PowerPack" after the SW product name, that the SW is an upgrade for another software item (hereinafter referred to as "Source License"), the rights originally granted to the Licensee to use the Source License end in conjunction with the upgrade measure. The rights of use in accordance with Clause 1.6 remain unaffected by this. However, the Licensee is entitled to undo the upgrading (downgrading) - if this is intended from a technical point of view - and to exercise the rights to use the SW granted to it with respect to the Source Version in accordance with Clause 1.5.

5. Further Rights and Duties of the Licensee

5.1 Unless a stipulation to the contrary relating to a specific number of copies is contained on the data medium or in the readme file of the SW, the Licensee may generate an appropriate number of copies of every item of SW which it is authorized to use in accordance with these General License Conditions, where such copies shall be used exclusively for data backup purposes. Furthermore the Licensee may only copy the SW if and insofar as it has been granted copying rights by us in writing.

5.2 The Licensee shall not be entitled to modify, decompile or reverse engineer the SW. Nor may it extract any individual parts unless this is permitted by mandatory copyright law. Furthermore, the Licensee shall not be entitled to remove any alphanumeric identifiers, trademarks or copyright notices from the SW or the data medium and, insofar as it is entitled to make copies of the SW, shall copy them without alteration. The aforementioned regulation shall apply accordingly to the Documentation supplied in accordance with Section 1.

5.3 The Licensee shall be entitled to completely transfer the right to use the SW granted to it to a third party, provided that it concludes a written agreement with the third party in conformance with all of the conditions contained in this Section 5 and on the proviso that it does not retain any copies of the SW. If the Licensee has received a License Key for the SW, this key shall be supplied to the third party together with the SW. Furthermore, the third party shall be submitted the CoL together with these General License Conditions. The Licensee shall submit the CoL received for the SW to us at any time, if requested.

5.4 If the SW is a PowerPack or an Upgrade, the Licensee shall keep the CoL of the Source License and submit it to us at any time, if requested, together with the CoL for the SW. In the event that the Licensee transfers its right to use the PowerPack SW or Upgrade SW in accordance with Clause 5.3, it shall also submit the CoL of the Source License to the third party.

5.5 If the Licensee receives a data medium which, in addition to the SW, contains further software products which are released for use, then it shall have the right to use these released software products exclusively for validation purposes, for a limited period of time and free of charge. The period of use shall be limited to 14 days, commencing with the first start-up of the relevant software program unless a different period is specified e.g. in the readme file of the relevant software product. These software products supplied exclusively for validation purposes shall be governed, mutatis mutandis, by the stipulations contained in these General License Conditions. The Licensee shall not be authorized to pass on these software products separately, i.e. without the SW, to a third party.

The conditions of the purchase contract apply if not otherwise stipulated hereafter for the Open Source Software.

License Conditions and Disclaimers for Open Source Software and other Licensed Software

In the product (Copyright Siemens AG, 2016) the following Open Source Software is used either unchanged or in a form that we have modified, and additionally the other License Software noted below:

You are entitled to use the Open Source Software in accordance with the respective applicable license conditions of the Open Source Software. These Open Source Software license conditions are included in the ReadMe_OSS file and shall have priority over the General Conditions for the respective Open Source Software. The Open Source Software license conditions shall also have priority in the event that they grant you certain rights also in relation to the proprietary components due to the connection of OSS components with proprietary components.

Liability for Open Source Software

Open Source Software is provided free of charge. We are liable for the Product including Open Source Software contained in accordance with the license conditions applicable to the Product. Any liability for use of Open Source Software beyond the program flow intended for the Product is explicitly excluded. Furthermore, any liability for defects resulting from modifications to the Open Source Software by you or third parties is excluded.

We do not provide any technical support for the Product if it has been modified.

Availability of Source Code

Certain license conditions of third-party software components used in this product may require Siemens to provide you with the source code and additional information for such components. If the source code and the information are not provided with the product/software package (e.g. on mass storage, DVD), you can obtain a copy from Siemens against payment of shipping and handling charges. Please send your request to the address stated at the end of this section.

Siemens Lizenzbedingungen

Allgemeine Bedingungen zur Überlassung von Software für Automatisierungs- und Antriebstechnik

(2011-08-01)

1. Überlassung der Software an Lizenznehmer und Einräumung von Nutzungsrechten an der Software

1.1 Für die Überlassung von Software für Automatisierungs- und Antriebstechnik durch uns an den Lizenznehmer gelten ausschließlich diese Allgemeinen Bedingungen. Allgemeine Geschäftsbedingungen des Lizenznehmers gelten nur insoweit, als wir ihnen ausdrücklich schriftlich zugestimmt haben. Für den Umfang der Überlassung der Software sind die beiderseitigen übereinstimmenden schriftlichen Erklärungen maßgebend. Wir räumen dem Lizenznehmer Nutzungsrechte an der in der Auftragsbestätigung oder - falls der Lizenznehmer keine Auftragsbestätigung erhält - an der im Certificate of License oder - falls der Lizenznehmer anstelle des Certificate of License einen Softwareproduktschein erhält - an der im Softwareproduktschein genannten Software (nachfolgend "SW" genannt) ein. Das Certificate of License und der Softwareproduktschein werden nachfolgend zusammenfassend "CoL" genannt. Der Lizenznehmer erhält das CoL mit der Überlassung der SW bzw. des Lieferscheins. Die Form der Überlassung der SW ergibt sich ebenfalls direkt aus der Auftragsbestätigung oder aus der in der Auftragsbestätigung enthaltenen Bestellnummer der SW in Verbindung mit den dazugehörigen Bestelldaten unseres zum Zeitpunkt der Auftragsbestätigung gültigen Katalogs (nachfolgend zusammenfassend "Auftragsdaten" genannt) bzw. aus dem CoL. Erhält der Lizenznehmer keinen Datenträger, ist er berechtigt, die bei ihm bereits vorhandene SW in dem zur Ausübung der ihm eingeräumten Nutzungsrechte erforderlichen Umfang zu vervielfältigen. Dies gilt entsprechend bei elektronischer Überlassung der SW (downloading). Soweit in diesen Allgemeinen Bedingungen auf die Auftragsdaten bzw. das CoL verwiesen wird, ist der Verweis auf das CoL dann von Bedeutung, wenn der Lizenznehmer keine Auftragsbestätigung

erhält. In jedem Fall sind die in den Auftragsdaten enthaltenen Daten auch im CoL enthalten.

1.2 Die zu der SW gehörende Dokumentation (nachfolgend "Dokumentation" genannt) ist getrennt zu erwerben, es sei denn, es ergibt sich aus den Auftragsdaten bzw. dem CoL, dass diese zum Lieferumfang gehört. Ist der Lizenznehmer nach Ziffer 1.1 zum Vervielfältigen der SW berechtigt, so gilt dies entsprechend für die Dokumentation, soweit diese zum Lieferumfang gehört.

1.3 Erhält der Lizenznehmer von uns für die SW einen License Key, der zur technischen Freischaltung der SW dient (nachfolgend "License Key" genannt), so ist dieser mit zu installieren.

1.4 Die dem Lizenznehmer an der SW eingeräumten Rechte ergeben sich aus dem Lizenz-Typ (siehe Abschnitt 2) und dem Software-Typ (siehe Abschnitt 3). Lizenz-Typ und Software-Typ ergeben sich aus den Auftragsdaten bzw. aus dem CoL. Erfolgt die Überlassung der SW elektronisch oder durch die Einräumung von Vervielfältigungsrechten, beziehen sich die in diesen Allgemeinen Bedingungen genannten Rechte und Pflichten auf die rechtmäßig erstellten Kopien.

1.5 Ist der Lizenznehmer berechtigt im Besitz einer früheren Version/Release der SW (nachfolgend "Frühere Version" genannt), hat der Lizenznehmer das Recht, die an der SW eingeräumten Nutzungsrechte nach seiner Wahl entweder an der SW oder - soweit dies technisch vorgesehen ist - an der Früheren Version auszuüben (downgrading). Wenn die SW ein Upgrade oder PowerPack gemäß Abschnitt 4 ist, gilt ergänzend Abschnitt 4.

1.6 Sofern in der Readme-Datei der SW unter der Rubrik "Parallele Nutzung" Frühere Versionen aufgeführt sind, hat der Lizenznehmer das Recht, die an der SW eingeräumten Nutzungsrechte alternativ auch an den dort aufgelisteten Früheren Versionen in einer (1) Instanz auszuüben. Lautet die in den Auftragsdaten bzw. im CoL genannte "Art der Nutzung": "Installation" oder "User", so steht dem Lizenznehmer das zuvor beschriebene Recht zusätzlich und gleichzeitig an den dort aufgelisteten Früheren Versionen in einer Instanz zu. Eine "Instanz" im Sinne dieser Allgemeinen Bedingungen ist entweder eine Instanz in einer physischen Betriebssystem-Umgebung oder eine Instanz in einer virtuellen Betriebssystem-Umgebung. Die Übertragbarkeit der Nutzungsrechte an den Früheren Versionen ist nur gemeinsam mit den Nutzungsrechten an der SW gem. Ziffer 5.3 zulässig.

1.7 Ergibt sich aus den Auftragsdaten bzw. dem CoL, dass der Lizenznehmer nur den Datenträger aber keine Lizenz erhält, so ist der Lizenznehmer zur Nutzung der SW erst berechtigt, wenn er eine Lizenz entsprechend Abschnitt 2 erwirbt. Bis zum Erwerb der Lizenz ist der Lizenznehmer auch nicht zur Weitergabe der SW an Dritte berechtigt.

1.8 Soweit die SW Open Source Software oder ähnliche Software Dritter (nachfolgend "OSS" genannt) enthält, ist diese in der Readme_OSS-Datei der SW aufgeführt. Der Lizenznehmer ist berechtigt, die OSS gemäß den jeweils einschlägigen, für die OSS geltenden Lizenzbedingungen zu nutzen. Diese sind auf dem Datenträger, mit dem der Lizenznehmer die SW erhält, enthalten. Für OSS gelten vorrangig vor den vorliegenden Allgemeinen Bedingungen die Lizenzbedingungen, denen die jeweilige OSS unterliegt. Soweit die Lizenzbedingungen für die OSS eine Herausgabe des Quellcodes vorsehen, werden wir diesen auf Verlangen des Lizenznehmers gegen entsprechenden Aufwendersersatz zur Verfügung stellen.

1.9 Die SW kann neben OSS auch andere Lizenzsoftware sein oder enthalten, d. h. Software, die nicht von uns selbst entwickelt wurde, sondern die wir von Dritten (nachfolgend "Lizenzgeber" genannt), z. B. Microsoft Licensing Inc., lizenziert bekommen haben. Erhält der Lizenznehmer in diesem Fall mit der SW in der Readme_OSS-Datei Bedingungen des jeweiligen Lizenzgebers, so gelten diese im Hinblick auf die Haftung des Lizenzgebers dem Lizenznehmer gegenüber. Für unsere Haftung dem Lizenznehmer gegenüber gelten in jedem Fall diese Allgemeinen Bedingungen.

2. Lizenz-Typ

Je nach Lizenz-Typ werden dem Lizenznehmer an der SW die folgenden Rechte eingeräumt:

2.1 Single License (One Off License, Copy License)

Der etwaig im Softwareproduktschein verwendete Begriff One Off License oder Copy License entspricht der Single License. Die folgende Regelung gilt für die One Off License/Copy License voll umfänglich. Der Lizenznehmer erhält das nicht-ausschließliche, zeitlich unbegrenzte, gemäß Ziffer 5.3 übertragbare Recht, die SW in einer (1) Instanz zu installieren und die so installierte SW auf die in den Auftragsdaten bzw. im CoL genannte Art (s. "Art der Nutzung") zu nutzen.

2.2 Floating License

Der Lizenznehmer erhält das nicht-ausschließliche, zeitlich unbegrenzte, gemäß Ziffer 5.3 übertragbare Recht, die SW auf beliebig vielen Geräten des Lizenznehmers zu installieren. Die Anzahl der Objekte (z.B. Benutzer oder Geräte), die die SW zeitgleich benutzen dürfen ergibt sich aus den Auftragsdaten bzw. dem CoL (s. "Art der Nutzung").

2.3 Rental License

Der Lizenznehmer erhält das nicht-ausschließliche, zeitlich gemäß den Auftragsdaten bzw. dem CoL (s. "Art der Nutzung") begrenzte, gemäß Ziffer 5.3 übertragbare Recht, die SW in einer (1) Instanz zu installieren und zu nutzen. Ist die Nutzungsdauer in Stunden angegeben, beginnt die für die Berechnung der zeitlichen Begrenzung maßgebliche Nutzung jeweils mit dem Starten und endet mit dem Schließen der SW. Ist die Nutzungsdauer in Tagen, Wochen oder Monaten angegeben, so gilt der angegebene Zeitraum - beginnend mit dem erstmaligen Starten der SW - unabhängig von der tatsächlichen Nutzung. Ist die Nutzungsdauer mit einem Datum angegeben, endet das Nutzungsrecht mit diesem Datum - unabhängig von der tatsächlichen Nutzung.

2.4 Rental Floating License

Der Lizenznehmer erhält das nicht-ausschließliche, zeitlich gemäß den Auftragsdaten bzw. dem CoL (s. "Art der Nutzung") begrenzte, gemäß Ziffer 5.3 übertragbare Recht, die SW auf beliebig vielen Geräten des Lizenznehmers zu installieren. Die Anzahl der Objekte (z.B. Benutzer oder Geräte), die die SW zeitgleich benutzen dürfen, ergibt sich ebenfalls aus den Auftragsdaten bzw. dem CoL (s. "Art der Nutzung"). Ist die Nutzungsdauer in Stunden angegeben, beginnt die für die Berechnung der zeitlichen Begrenzung maßgebliche Nutzung jeweils mit dem Starten und endet mit dem Schließen der SW. Ist die Nutzungsdauer in Tagen, Wochen oder Monaten angegeben, so gilt der angegebene Zeitraum - beginnend mit dem erstmaligen Starten der SW - unabhängig von der tatsächlichen Nutzung. Ist die Nutzungsdauer mit einem Datum angegeben, endet das Nutzungsrecht mit diesem Datum - unabhängig von der tatsächlichen Nutzung.

2.5 Demo License

Der Lizenznehmer erhält das nicht-ausschließliche, zeitlich gemäß den Auftragsdaten bzw. dem CoL (s. "Art der Nutzung") begrenzte, gemäß Ziffer 5.3 übertragbare Recht, die SW in einer (1) Instanz zu installieren und zu Validierungszwecken zu nutzen. Ist die Nutzungsdauer in Tagen, Wochen oder Monaten angegeben, so gilt der angegebene Zeitraum – beginnend mit dem erstmaligen Starten der SW – unabhängig von der tatsächlichen Nutzung. Ist die Nutzungsdauer mit einem Datum angegeben, endet das Nutzungsrecht mit diesem Datum - unabhängig von der tatsächlichen Nutzung.

2.6 Demo Floating License

Der Lizenznehmer erhält das nicht-ausschließliche, zeitlich gemäß den Auftragsdaten bzw. dem CoL (s. "Art der Nutzung") begrenzte, gemäß Ziffer 5.3 übertragbare Recht, die SW auf beliebig vielen Geräten des Lizenznehmers zu installieren. Die Anzahl der Objekte (z.B. Benutzer oder Geräte), die die SW zeitgleich zu Validierungszwecken benutzen dürfen, ergibt sich ebenfalls aus den Auftragsdaten bzw. dem CoL (s. "Art der Nutzung"). Ist die Nutzungsdauer in Tagen, Wochen oder Monaten angegeben, so gilt der angegebene Zeitraum – beginnend mit dem erstmaligen Starten der SW – unabhängig von der tatsächlichen Nutzung. Ist die Nutzungsdauer mit einem Datum angegeben, endet das Nutzungsrecht mit diesem Datum - unabhängig von der tatsächlichen Nutzung.

2.7 Trial License

Der Lizenznehmer erhält das nicht-ausschließliche, nicht-übertragbare Recht, die SW in einer (1) Instanz zu installieren und zu Validierungszwecken auf die in den Auftragsdaten bzw. im CoL genannte Art (s. "Art der Nutzung") zu nutzen. Die Nutzungsdauer ist auf 14 Tage - beginnend mit dem erstmaligen Starten der SW - begrenzt, es sei denn, aus den Auftragsdaten bzw. dem CoL ergibt sich eine andere Nutzungsdauer.

3. Software-Typ

Ist der Software-Typ weder in den Auftragsdaten, noch im CoL angegeben, so gelten für die SW die Rechte nach Ziffer 3.2 (Runtime Software).

3.1 Engineering Software (nachfolgend "E-SW" genannt)

Erzeugt der Lizenznehmer mit E-SW eigene Programme oder Daten, die Teile der E-SW enthalten, so hat der Lizenznehmer das lizenzgebührenfreie Recht, diese Teile der E-SW als Bestandteil seiner eigenen Programme oder Daten zu vervielfältigen, zu nutzen oder Dritten zur Nutzung zu überlassen. Bei der Überlassung an Dritte sind diesen hinsichtlich der o.g. Teile der E-SW den Ziffern 5.1. und 5.2. entsprechende Bestimmungen schriftlich aufzuerlegen.

3.2 Runtime Software (nachfolgend "R-SW" genannt)

Bindet der Lizenznehmer R-SW oder Teile davon in eigene Programme oder Daten ein, so muss der Lizenznehmer vor jeder Installation oder Vervielfältigung - je nachdem, was früher erfolgt - der eigenen Programme oder Daten, die R-SW oder Teile davon enthalten, eine Lizenz an der R-SW entsprechend der beabsichtigten Nutzungsart gemäß dem dann gültigen Siemens-Katalog erwerben. Überlässt der Lizenznehmer die genannten Programme oder Daten Dritten zur Nutzung, so sind diesen hinsichtlich der darin enthaltenen Teile der R-SW dem Abschnitt 5 entsprechende Bestimmungen schriftlich aufzuerlegen. Davon unberührt bleibt die Verpflichtung des Lizenznehmers, eine Lizenz an der R-SW zu erwerben, wenn diese im Original vervielfältigt wird. Sofern in der R-SW Tools zur Parametrierung/Konfiguration enthalten und für diese erweiterte Rechte eingeräumt sind, ergibt sich dies aus der Readme-Datei der R-SW.

4. Upgrade und PowerPack

Ergibt sich aus den Auftragsdaten bzw. dem CoL, z.B. durch den Zusatz "Upgrade" oder "PowerPack" beim Produktnamen der SW, dass die SW der Hochrüstung einer anderen Software dient (nachfolgend "Ursprungslizenz" genannt), enden mit der Hochrüstung die dem Lizenznehmer an der Ursprungslizenz ursprünglich eingeräumten Nutzungsrechte. Die Nutzungsrechte gem. Ziffer 1.6 bleiben hiervon unberührt. Der Lizenznehmer ist jedoch berechtigt, jederzeit die Hochrüstung - soweit dies technisch vorgesehen ist - rückgängig zu machen (downgrading) und die ihm eingeräumten Nutzungsrechte an der SW an der Ursprungslizenz in entsprechender Anwendung von Ziffer 1.5 auszuüben.

5. Weitere Rechte und Pflichten des Lizenznehmers

5.1 Wenn auf dem Datenträger oder der Readme-Datei der SW kein gegenteiliger Vermerk über eine bestimmte Anzahl von Kopien enthalten ist, darf der Lizenznehmer von jedem Exemplar der SW, zu dessen Nutzung er nach diesen Allgemeinen Bedingungen berechtigt ist, eine angemessene Anzahl von Kopien anfertigen, die ausschließlich für Datensicherungszwecke verwendet werden dürfen. Im Übrigen darf der Lizenznehmer die SW nur vervielfältigen, wenn und soweit ihm von uns schriftlich Vervielfältigungsrechte eingeräumt sind.

5.2 Der Lizenznehmer darf die SW nicht ändern, nicht zurückentwickeln oder übersetzen und er darf keine Teile herauslösen, soweit dies nicht nach den Bestimmungen des Urheberrechtsgesetzes zwingend erlaubt ist. Der Lizenznehmer darf ferner alpha-numerische Kennungen, Marken und Urheberrechtsvermerke von der SW oder dem Datenträger nicht entfernen und wird sie, soweit er zur Vervielfältigung berechtigt ist, bei dieser unverändert mit vervielfältigen. Die vorstehende Regelung gilt entsprechend für die gemäß Abschnitt 1 überlassene Dokumentation.

5.3 Der Lizenznehmer ist berechtigt, das ihm eingeräumte Nutzungsrecht komplett auf einen Dritten zu übertragen, vorausgesetzt er trifft mit dem Dritten eine schriftliche Vereinbarung, die allen Bestimmungen dieses Abschnitts 5 entspricht und er keine Kopien der SW behält. Hat der Lizenznehmer für die SW einen License Key erhalten, so ist dieser dem Dritten zusammen mit der SW zu überlassen.

Ferner ist dem Dritten das CoL zusammen mit diesen Allgemeinen Bedingungen zu übergeben. Der Lizenznehmer wird uns auf unseren Wunsch jederzeit das für die SW erhaltene CoL vorlegen.

5.4 Ist die SW ein PowerPack oder ein Upgrade, wird der Lizenznehmer das CoL der Ursprungslizenz aufbewahren und auf Wunsch von uns jederzeit zusammen mit dem CoL der SW vorlegen. Überträgt der Lizenznehmer sein Nutzungsrecht an der PowerPack SW bzw. Upgrade SW gemäß Ziffer 5.3, wird er dem Dritten auch das CoL der Ursprungslizenz übergeben.

5.5 Erhält der Lizenznehmer einen Datenträger, der neben der SW weitere Software-Produkte enthält, die zur Nutzung freigeschaltet sind, so hat er an diesen freigeschalteten Software-Produkten ein zeitlich begrenztes, unentgeltliches Recht, sie ausschließlich für Validierungszwecke zu nutzen. Die zeitliche Begrenzung beträgt 14 Tage, beginnend mit dem erstmaligen Starten des jeweiligen Software-Programms, soweit nicht, z.B. in der Readme-Datei des jeweiligen Software-Produkts, ein anderer Zeitraum genannt ist. Für diese ausschließlich zu Validierungszwecken überlassenen Software-Produkte gelten die Bestimmungen dieser Allgemeinen Bedingungen entsprechend. Der Lizenznehmer ist nicht berechtigt, diese Software-Produkte getrennt, d.h. ohne die SW an einen Dritten weiterzugeben.

Es gelten die Bedingungen des Kaufvertrags, soweit nachfolgend für die Open Source Software nicht anders geregelt.

Lizenzbedingungen und Haftungsausschlüsse für Open Source Software sowie andere Lizenzsoftware

Im Produkt (Copyright Siemens AG, 2016) kommt die unten aufgelistete Open Source Software in unveränderter oder von uns geänderter Form sowie die unten aufgelistete andere Lizenzsoftware zum Einsatz.

Sie sind berechtigt, die Open Source Software gemäß den jeweils geltenden Open Source Software-Lizenzbedingungen zu nutzen. Diese sind in der LiesMich_OSS-Datei beigefügt und gelten für die jeweilige Open Source Software vorrangig vor den vorliegenden Allgemeinen Bedingungen. Die Open Source Softwarelizenzbedingungen gelten auch vorrangig, soweit diese Ihnen aufgrund der Verbindung von OSS-Komponenten mit proprietären Komponenten bestimmte Rechte auch in Bezug auf die proprietären Komponenten einräumen.

Haftung für Open Source Software

Die Open Source Software wird unentgeltlich überlassen. Wir haften für das Produkt einschließlich der darin enthaltenen Open Source Software entsprechend den für das Produkt gültigen Lizenzbestimmungen. Jegliche Haftung für die Nutzung der Open Source Software über den von uns für das Produkt vorgesehenen Programmablauf hinaus sowie jegliche Haftung für Mängel, die durch Änderungen der Open Source Software verursacht werden, ist ausgeschlossen.

Wir leisten keine technische Unterstützung für das Produkt, wenn dieses geändert wurde.

Verfügbarkeit Source Code

Einige Lizenzbedingungen von in diesem Produkt verwendeten Fremdsoftwarekomponenten verpflichten uns möglicherweise, Ihnen für diese Komponenten den Quelltext und weitere Informationen zur Verfügung zu stellen. Soweit der Quelltext und diese Informationen nicht dem Produkt/Software-Paket beiliegen (z.B. auf Massenspeicher, DVD), können Sie den Quelltext und diese Informationen gerne bei Siemens gegen Erstattung der Bearbeitungskosten anfordern. Bitte wenden Sie sich dafür an die am Ende dieses Abschnitts angegebene Adresse.

Conditions de licence Siemens

Conditions générales de licence pour logiciels de systèmes d'automatisation et d'entraînement

(2011-08-01)

1. Cession du logiciel au preneur de licence et concession de droits d'utilisation du logiciel

1.1 Seules les présentes conditions générales sont valables pour la cession de notre part de licences pour logiciels de systèmes d'automatisation et d'entraînement. Les Conditions Générales du preneur de licence ne seront toutefois applicables que dans la mesure où nous les aurons expressément acceptées par écrit. Les déclarations écrites concordantes des deux parties sont déterminantes pour le nombre de licences pour logiciels accordées. Nous concédons au preneur de licence des droits d'utilisation sur le logiciel (dénommé ci-après « SW ») mentionné dans la confirmation de commande ou dans le certificat de licence (si le preneur ne reçoit pas de confirmation de commande) ou sur la carte d'identification du produit logiciel (si le preneur de licence reçoit une carte d'identification du produit logiciel au lieu du certificat de licence). Le certificat de licence et la carte d'identification du produit logiciel sont regroupés ci-après sous la dénomination « CoL ». Le preneur de licence reçoit le CoL à la remise du SW ou du bordereau de livraison. De même, la forme de la cession du SW ressortira directement de la confirmation de commande ou du numéro de commande du SW figurant sur la confirmation de commande en liaison avec les références de commande correspondantes de notre catalogue en vigueur au moment de la confirmation de commande (désignées ci-après en abrégé par « Références de commande »), ou encore du CoL. Si le preneur de licence ne reçoit pas de support de données, il sera en droit de copier le SW déjà en sa possession et ce, dans l'étendue nécessaire à l'exercice des droits d'utilisation qui lui ont été accordés. Cette règle s'appliquera mutatis mutandis en cas de remise du SW par voie électronique (téléchargement). Dans la mesure où les présentes Conditions Générales renvoient aux références de commande ou au CoL, le renvoi au CoL ne sera important que si le preneur de licence ne reçoit pas de confirmation de commande. Dans tous les cas, les données incluses dans les références de commande seront également incluses dans le CoL.

1.2 La documentation associée au SW (appelée par la suite « Documentation ») devra être acquise séparément, sauf s'il est indiqué dans les références de commande ou dans le CoL qu'elle ferait partie intégrante de la livraison. Si le preneur de licence est en droit de copier le SW comme indiqué au paragraphe 1.1, ce droit sera applicable mutatis mutandis à la documentation, si tant est qu'elle fasse partie intégrante de la livraison.

1.3 Si le preneur de licence reçoit de notre part une clé de licence (License Key) servant à la validation technique du logiciel (appelée par la suite « Clé de licence ») pour le SW, il devra l'installer conjointement.

1.4 Les droits concédés sur le SW au preneur de licence découlent du type de licence (voir paragraphe 2) et du type de logiciel (voir paragraphe 3). Le type de licence et le type de logiciel découlent des références de commande ou du CoL. Si la cession du SW a lieu par voie électronique ou par la concession de droits de reproduction, les droits et les obligations cités dans les présentes Conditions Générales s'étendront aux copies exécutées de manière légale.

1.5 Si le preneur de licence détient à juste titre une ancienne version (release) du SW (dénommée ci-après « Version antérieure »), il pourra choisir d'exercer les droits d'utilisation concédés pour le SW soit sur le SW, soit (si tant est que ceci soit techniquement prévu) sur la Version antérieure (downgrading). Si le SW est un Upgrade ou un PowerPack comme indiqué au paragraphe 4, le paragraphe 4 sera applicable en complément.

1.6 Dans la mesure où les versions antérieures figurent dans le fichier Readme du SW sous la rubrique « Utilisation conjointe », le preneur de licence peut également exercer au sein d'une (1) instance les droits d'utilisations concédés pour le SW sur les versions antérieures reprises dans ledit fichier. Si le « type d'utilisation » mentionné dans les références de commande ou dans le CoL s'avère être « Installation » ou « User/Utilisateur », le preneur de licence peut jouir de manière simultanée et complémentaire du droit d'utilisation dont il est question ci-dessus sur les versions antérieures figurant dans ces documents, et ce, au sein d'une instance. Une " Instance " au vu de ces conditions générales représente soit une instance au sein d'un système d'exploitation s'exécutant dans un environnement physique, soit une instance au sein d'un système d'exploitation s'exécutant dans un environnement virtuel. La cessibilité des droits d'utilisation sur les versions antérieures n'est autorisée que conjointement avec les droits d'utilisation sur le SW aux termes du paragraphe 5.3.

1.7 S'il résulte des références de commande ou du CoL que le preneur de licence ne reçoit que le support de données mais aucune licence, le preneur de licence ne sera en droit d'utiliser le SW que s'il fait l'acquisition d'une licence conformément au paragraphe 2. Jusqu'à l'acquisition de ladite licence, le preneur de licence ne sera pas non plus habilité à transférer le SW à des tiers.

1.8 Si le logiciel contient un Open Source Software ou un logiciel tiers similaire (appelé par la suite « OSS »), il figure dans le fichier Readme_OSS du logiciel. Le preneur de licence est autorisé à utiliser l'OSS selon les conditions de licence correspondantes valables pour l'OSS. Elles figurent sur le support de données sur lequel le preneur de licence reçoit le logiciel. Les conditions de licence respectives de l'OSS sont prépondérantes par rapport aux présentes conditions générales. Dans la mesure où les conditions de licence prévoient une impression du code source de l'OSS, nous vous mettrons celui-ci à disposition sur demande du preneur de licence contre rétribution.

1.9 Outre l'OSS, le logiciel peut constituer ou contenir un autre logiciel sous licence, c'est-à-dire un logiciel que nous n'avons pas développé nous-mêmes mais dont nous avons reçu la licence par un tiers (appelé par la suite « Donneur de licence »), par ex. Microsoft Licensing Inc. Le cas échéant, si le preneur de licence reçoit dans le fichier Readme_OSS la licence avec les conditions de logiciel du donneur de licence respectif, celles-ci règlent la responsabilité du donneur de licence vis-à-vis du preneur de licence. Les conditions générales s'appliquent systématiquement pour ce qui est de notre responsabilité vis-à-vis du preneur de licence.

2. Type de licence

Selon le type de la licence, le preneur de licence se voit concéder sur le SW les droits suivants :

2.1 Single License (One Off License, Copy License)

Le terme « One Off License » ou « Copy License » éventuellement utilisé dans la carte d'identification du produit logiciel correspond à la Single License. La disposition suivante est applicable dans toute son étendue à la One Off License/Copy License. Le preneur de licence obtient le droit non exclusif, non limité dans le temps et cessible aux termes du paragraphe 5.3, d'installer le SW dans une (1) instance et

d'utiliser le SW ainsi installé de la manière indiquée dans les références de commande ou dans le CoL (voir « Type d'utilisation »).

2.2 Floating License

Le preneur de licence obtient le droit non exclusif, non limité dans le temps et cessible comme indiqué au paragraphe 5.3, d'installer le SW sur un nombre quelconque d'appareils lui appartenant. Le nombre d'objets, par exemple des personnes ou des appareils, autorisés à utiliser simultanément le SW découle des références de commande ou du CoL (voir « Type d'utilisation »).

2.3 Rental License

Le preneur de licence obtient le droit non exclusif, limité dans le temps comme indiqué dans les références de commande ou dans le CoL (voir « Type d'utilisation ») et cessible aux termes du paragraphe 5.3, d'installer et d'utiliser le SW dans une (1) instance. Si la durée d'utilisation est indiquée en heures, l'utilisation déterminante pour le calcul de la limite horaire débutera avec le démarrage et se terminera avec la fermeture du SW. Si la durée d'utilisation est indiquée en jours, en semaines ou en mois, la période indiquée prendra effet à dater du premier démarrage du SW, indépendamment de l'utilisation effective. Si la durée d'utilisation est indiquée par une date, le droit d'utilisation prendra fin à cette date, indépendamment de l'utilisation effective.

2.4 Rental Floating License

Le preneur de licence obtient le droit non exclusif, limité dans le temps comme indiqué dans les références de commande ou dans le CoL (voir « Type d'utilisation ») et cessible aux termes du paragraphe 5.3, d'installer le SW sur un nombre illimité d'appareils appartenant au preneur de licence. Le nombre d'objets, par exemple des personnes ou des appareils, autorisés à utiliser simultanément le SW découle également des références de commande ou du CoL (voir « Type d'utilisation »). Si la durée d'utilisation est indiquée en heures, l'utilisation déterminante pour le calcul de la limite horaire débutera avec le démarrage et se terminera avec la fermeture du SW. Si la durée d'utilisation est indiquée en jours, en semaines ou en mois, la période indiquée prendra effet à dater du premier démarrage du SW, indépendamment de l'utilisation effective. Si la durée d'utilisation est indiquée par une date, le droit d'utilisation prendra fin à cette date, indépendamment de l'utilisation effective.

2.5 Demo License

Le preneur de licence obtient le droit non exclusif, limité dans le temps comme indiqué dans les références de commande ou dans le CoL (voir « Type d'utilisation ») et cessible aux termes du paragraphe 5.3, d'installer et d'utiliser le SW dans une (1) instance à des fins de validation. Si la durée d'utilisation est indiquée en jours, en semaines ou en mois, la période indiquée prendra effet à dater du premier démarrage du SW, indépendamment de l'utilisation effective. Si la durée d'utilisation est indiquée par une date, le droit d'utilisation prendra fin à cette date, indépendamment de l'utilisation effective.

2.6 Demo Floating License

Le preneur de licence obtient le droit non exclusif, limité dans le temps comme indiqué dans les références de commande ou dans le CoL (voir « Type d'utilisation ») et cessible aux termes du paragraphe 5.3, d'installer le SW sur un nombre illimité d'appareils appartenant au preneur de licence. Le nombre d'objets, par exemple des personnes ou des appareils, autorisés à utiliser simultanément le SW à des fins de validation découle également des références de commande ou du CoL (voir « Type d'utilisation »). Si la durée d'utilisation est indiquée en jours, en semaines ou en mois, la période indiquée prendra effet à dater du premier démarrage du SW, indépendamment de l'utilisation effective. Si la durée d'utilisation est indiquée par une date, le droit d'utilisation prendra fin à cette date, indépendamment de l'utilisation effective.

2.7 Trial License

Le preneur de licence obtient le droit non exclusif et non cessible d'installer le SW dans une (1) instance et de l'utiliser à des fins de validation de la manière indiquée dans les références de commande ou dans le CoL (voir « Type d'utilisation »). La durée d'utilisation est limitée à 14 jours à dater du premier démarrage du SW, sauf si une autre durée d'utilisation ressort des références de commande ou du CoL.

3. Type de logiciel

Si le type de logiciel n'est indiqué ni dans les références de commande ni dans le CoL, les droits concernant le SW sont ceux cités au paragraphe 3.2 (Runtime Software).

3.1 Engineering Software (ci-après dénommé « E-SW »)

Si le preneur de licence crée ses propres programmes ou ses propres données incluant des éléments du E-SW, il aura le droit, sans avoir à affranchir de droits de licence, de copier, d'utiliser ou de laisser utiliser par des tiers lesdits éléments du E-SW au titre de partie intégrante de ses propres programmes ou données. En cas de remise à des tiers, il devra imposer à ceux-ci, pour les éléments susvisés du E-SW, des dispositions écrites conformes à celles des paragraphes 5.1 et 5.2.

3.2 Runtime Software (ci-après dénommé « R-SW »)

Si le preneur de licence intègre le R-SW ou des éléments du R-SW dans ses propres programmes ou données, il devra, avant toute installation ou copie (selon l'ordre chronologique) de ses propres programmes ou données incluant le R-SW ou des éléments du R-SW, acquérir une licence sur le R-SW en fonction du type d'utilisation prévu, conformément au catalogue Siemens alors en vigueur. Si le preneur de licence remet lesdits programmes ou données à des tiers à des fins d'utilisation, il devra imposer à ceux-ci, pour les éléments susvisés du R-SW, des dispositions écrites conformes à celles du paragraphe 5. L'obligation du preneur de licence d'acquérir une licence pour le R-SW en cas de copie de l'original n'en sera pas affectée. Dans la mesure où des outils de paramétrage ou de configuration sont inclus dans le R-SW et où ceux-ci bénéficient de droits élargis, ceci est signalé dans le fichier Readme du R-SW.

4. Upgrade et PowerPack

S'il ressort des références de commande ou du CoL, par exemple du fait de l'ajout de la mention « Upgrade » ou « Powerpack » au nom de produit du SW, que le SW sert à la mise à niveau d'un autre logiciel (dénommé ci-après " Licence d'origine "), la mise à niveau met fin aux droits d'utilisation concédés initialement au preneur de licence sur la licence d'origine. Les droits d'utilisation aux termes du paragraphe 1.6 n'en sont pas affectés. Le preneur de licence sera toutefois en droit de ramener la mise à niveau à la version antérieure (downgrading), si tant est que ceci soit techniquement prévu, et d'exercer sur la licence d'origine les droits d'utilisation qui lui auront été concédés sur le SW en application mutatis mutandis du paragraphe 1.5.

5. Autres droits et devoirs du preneur de licence

5.1 Sauf indication contraire figurant sur le support de données ou le fichier Readme du SW qui limiterait le nombre de copies, le preneur de licence sera autorisé à faire un nombre raisonnable de copies de chaque exemplaire du SW pour lequel il dispose d'un droit d'utilisation aux termes des présentes Conditions Générales, ces copies étant exclusivement réservées aux fins de sauvegarde des données. Par ailleurs, le preneur de licence ne pourra copier le SW que si et dans la mesure où nous lui aurons octroyé par écrit des droits de reproduction.

5.2 Le preneur de licence n'est pas autorisé à modifier le SW, ni à le rétroconcevoir, ni à le traduire, ni à en détacher aucun élément, si tant est que ceci ne soit pas obligatoirement permis aux termes de la législation sur les droits d'auteur. D'autre part, le preneur de licence n'est autorisé à supprimer aucun repère alphanumérique, aucune marque, ni aucune mention de copyright apposés sur le SW ou sur le support de données. S'il bénéficie du droit de reproduction, il devra impérativement copier ces éléments conjointement sans les modifier. La disposition susvisée s'appliquera mutatis mutandis à la documentation remise conformément au paragraphe 1.

5.3 Le preneur de licence sera en droit de transférer intégralement à un tiers le droit d'utilisation qui lui a été octroyé, à condition de conclure avec ledit tiers un accord écrit conforme à toutes les dispositions du présent article 5 et de ne conserver aucune copie du SW. Si le preneur de licence a reçu une License Key, celle-ci sera remise au tiers conjointement au SW. D'autre part, le CoL sera remis au tiers, accompagné des présentes Conditions Générales. À notre demande, le preneur de licence nous présentera à tout moment le CoL obtenu pour le SW.

5.4 Si le SW est un PowerPack ou un Upgrade, le preneur de licence conservera le Certificat de licence ou la carte d'identification du produit logiciel de la licence d'origine, qu'il nous présentera à tout moment sur notre demande, accompagné(e) du CoL du SW. Si le preneur de licence transfère à un tiers son droit d'utilisation sur le PowerPack SW ou sur l'Upgrade SW aux termes du paragraphe 5.3, il remettra également au tiers le Certificat de licence ou la carte d'identification du produit logiciel de la licence d'origine.

5.5 Si le preneur de licence reçoit un support de données contenant, outre le SW, d'autres produits logiciels activés pour l'utilisation, il disposera d'un droit gratuit et limité dans le temps d'utiliser lesdits produits logiciels activés et ce, uniquement à des fins de validation. La durée d'utilisation est limitée à 14 jours, à dater du premier démarrage du programme logiciel concerné si tant est qu'un autre laps de temps ne figure pas, par exemple, dans le fichier Readme du produit en question. Les dispositions des présentes Conditions Générales s'appliqueront mutatis mutandis auxdits produits logiciels remis exclusivement à des fins de validation. Le preneur de licence n'est pas autorisé à transférer ces produits logiciels à des tiers sous forme séparée, c.-à-d. sans le SW.

Les conditions du contrat de vente sont, par ailleurs, réputées applicables.

Conditions de licence et clause de non-responsabilité des logiciels Open Source et autres logiciels sous licence

Le produit (Copyright Siemens AG, 2016) met en œuvre les logiciels Open Source listés ci-dessous, inchangés ou modifiés par nos soins, ainsi que les autres logiciels sous licence listés ci-dessous.

Vous êtes en droit d'utiliser le logiciel ouvert conformément aux conditions de licence actuellement en vigueur du logiciel ouvert. Celles-ci figurent dans le fichier Lisezmoi_OSS et priment, pour le logiciel ouvert sur les présentes Conditions générales. Les conditions de licence du logiciel ouvert sont également prioritaires si elles vous accordent certains droits sur des constituants brevetés du fait de la connexion des constituants OSS avec des constituants brevetés.

Responsabilité pour les logiciels Open Source

Les logiciels Open Source sont mis à disposition gratuitement. Nous assumons la responsabilité pour le produit ainsi que pour les logiciels Open Source qu'il contient, dans les limites des dispositions de licence applicables au produit. Nous déclinons toute responsabilité en cas d'utilisation des logiciels Open Source hors du cadre d'exécution du programme que nous avons prévu pour le produit ainsi que toute responsabilité pour les vices qui résulteraient d'une modification des logiciels Open Source.

Nous ne fournissons aucune assistance technique pour le produit si ce dernier a été modifié.

Disponibilité du code source

Certaines conditions de licence de constituants logiciels tiers utilisés dans ce produit pourraient nous obliger à vous remettre le code source et d'autres informations de ces constituants. Si ces informations ne sont pas fournies le produit/pack logiciel i (par exemple sur sa mémoire de masse ou sur un DVD), Siemens vous enverra volontiers ces informations contre remboursement des frais de traitement. Dans ce cas, veuillez-vous adresser à l'adresse figurant à la fin de la présente section.

Condiciones Generales para la Cesión de Software de Automatización y Accionamientos

(2011-08-01)

1. Cesión del software al titular de una licencia y otorgamiento de derechos de uso del software

1.1 Para la cesión por nuestra parte de software de automatización y accionamientos al titular de la licencia son aplicables únicamente estas condiciones generales. Las Condiciones Generales de Contrato del titular de una licencia regirán solamente en caso de que las hayamos aceptado expresamente por escrito. En lo referente al alcance de la cesión del software son determinantes las aclaraciones escritas y acordadas por ambas partes. Otorgamos al titular de la licencia derechos de uso del software (en adelante "SW") especificado en la confirmación del pedido o -si el titular de la licencia no ha recibido ninguna- en el Certificate of License o en el comprobante de producto -si el titular de la licencia recibe tal comprobante en lugar de un Certificate of License. El Certificate of License y el comprobante de producto de software se resumen en adelante con la abreviatura "CoL". El titular de la licencia recibirá el CoL al serle entregado el SW y/o el talón (nota, albarán) de entrega. La modalidad de cesión del SW resulta también en forma inmediata de la confirmación del pedido o de la referencia del SW consignado en la confirmación del pedido en conexión con los datos de pedido pertinentes que provienen de nuestro catálogo vigente al confirmarse el pedido (resumidos en adelante como "Datos del pedido") y/o del CoL. Si el titular de la licencia no recibe ningún soporte de datos, tendrá derecho a copiar el SW que ya obra en su poder en la medida necesaria para ejercer los derechos de uso que se le han otorgado. Lo mismo rige por analogía para la cesión del SW por vía electrónica (downloading). Siempre que en las presentes Condiciones Generales de Contrato se haga referencia a los datos del pedido o al CoL, la referencia al CoL será relevante en caso de que el titular de la licencia no reciba una confirmación del pedido. En cualquier caso, los datos incluidos en los datos del pedido lo están igualmente en el CoL.

1.2 La documentación perteneciente al SW (en adelante "documentación") deberá adquirirse por separado, salvo que los datos del pedido o el CoL indiquen que la misma forma parte del volumen de suministro. En caso de que el titular de la licencia definido en el apartado 1.1 esté autorizado a copiar el SW, podrá hacer lo mismo con la documentación siempre que ésta forme parte del volumen de suministro.

1.3 Si el titular de la licencia recibe de nuestra parte una License Key (clave de licencia) para el SW para la validación técnica del SW (en adelante "License Key"), será imprescindible instalar esta última junto con los demás componentes.

1.4 Los derechos sobre el SW otorgados al titular de la licencia se desprenden del tipo de licencia (véase el apartado 2) y del tipo de software (ver apartado 3). El tipo de licencia y el tipo de software se desprenden de los datos del pedido o del CoL. En caso de que la cesión del SW se efectúe por vía electrónica o por concesión de derechos de copia, los derechos y obligaciones consignados en estas Condiciones Generales de Contrato se referirán a las copias realizadas legítimamente.

1.5 Si el titular de la licencia tiene en su poder una versión/release anterior del SW (en adelante "Versión anterior"), el titular de la licencia tendrá derecho a ejercer los derechos de uso otorgados para el SW optando por hacerlo o bien con el SW o con la versión anterior (downgrading), si ello estuviera técnicamente previsto. Si el SW es un Upgrade o un PowerPack de conformidad con lo estipulado en el apartado 4, se aplicará el apartado 4.

1.6 Si bajo la rúbrica "Uso paralelo" del archivo Léame del SW se indican versiones anteriores, el titular de la licencia tendrá derecho a ejercer los derechos de uso otorgados para el SW opcionalmente sobre las versiones anteriores indicadas allí en una (1) instancia. Si la "Modalidad de uso" mencionada en los datos del pedido o en el CoL ES fuera "Installation" o "User", el titular podrá ejercer además el derecho anteriormente descrito simultáneamente sobre las versiones anteriores ahí listadas en una instancia. En el sentido de las Condiciones Generales, una "instancia" es o bien una instancia en un entorno de sistema operativo físico, o bien una instancia en un entorno de sistema operativo virtual. La posibilidad de transferir los derechos de uso a las versiones anteriores sólo está permitida junto con los derechos de uso otorgados para el SW según lo estipulado en el apartado 5.3.

1.7 Si de los datos del pedido o el CoL se desprende que el titular de la licencia recibirá sólo el soporte de datos desprovisto de licencia, el titular quedará facultado para usar el SW sólo en caso de adquirir una licencia tal y como lo estipula el apartado 2. Mientras no adquiera la licencia, el titular de la licencia tampoco tendrá derecho a transmitir el SW a terceros.

1.8 Si el SW contiene Open Source Software o un software similar de terceros (en adelante "OSS"), éste aparecerá especificado en el archivo Readme_OSS del SW. El titular de la licencia podrá utilizar el OSS dentro de las condiciones de licencia pertinentes y vigentes para el OSS. Dichas condiciones están recogidas en el soporte de datos en el que el titular de la licencia recibe el SW. Para OSS rigen en primera instancia las condiciones de la licencia aplicables al OSS en cuestión, que tendrán prioridad ante las presentes Condiciones

Generales. Si las condiciones de licencia del OSS incluyen la entrega del código fuente, lo pondremos a disposición del titular a cambio del correspondiente importe cuando éste lo solicite.

1.9 Además de OSS, el SW puede ser o contener otro software con licencia, es decir, software que no haya sido desarrollado por nosotros, sino que hayamos recibido de terceros (en adelante "concesor"), como p. ej. Microsoft Licensing Inc., bajo la correspondiente licencia. En ese caso, si el titular recibe con el SW condiciones del correspondiente concesor en el archivo Readme_OSS, éstas se aplicarán en lo que respecta a la responsabilidad del concesor frente al titular. En cuanto a nuestra responsabilidad frente al titular de la licencia, rigen en cualquier caso las presentes Condiciones Generales.

2. Tipo de licencia

Según el tipo de licencia, al titular de la misma se le otorgarán los siguientes derechos sobre el SW:

2.1 Single License (One Off License, Copy License)

Los términos One Off License o Copy License que pudieran figurar en el certificado de producto de software equivalen a la Single License. La siguiente regulación rige en toda su extensión para la One Off License/Copy License. El titular de la licencia obtendrá el derecho no exclusivo y de duración ilimitada que se estipula en el apartado 5.3 para instalar el SW en una (1) instancia y utilizar el SW así instalado del modo especificado en los datos del pedido o en el CoL (v. "Modalidad de uso").

2.2 Floating License

El titular de la licencia obtiene el derecho no exclusivo, de duración ilimitada y transferible conforme al apartado 5.3 para instalar el SW en cualquier cantidad de equipos de su propiedad. El número de objetos (p. ej. usuarios o equipos) facultados para usar el SW al mismo tiempo se desprende de los datos del pedido o del CoL (v. "Modalidad de uso").

2.3 Rental License

El titular de la licencia obtiene el derecho no exclusivo, de duración limitada c los datos del pedido o del CoL (v. "Modalidad de uso") y transferible de conformidad con el apartado 5.3 de instalar y utilizar el SW en un (1) equipo. Si la duración del uso se especifica en horas, el uso determinante para calcular el tiempo limitado empezará a contar siempre con el inicio del SW y termina con su finalización. Si la duración del uso se especifica en días, semanas o meses, el período indicado empezará a contarse desde el primer inicio del SW, independientemente del uso efectivo de este último. Si la duración del uso se especifica con una fecha, el derecho de uso finalizará en esta fecha, independientemente del uso efectivo.

2.4 Rental Floating License

El titular de la licencia obtiene el derecho no exclusivo, de duración limitada conforme a los datos del pedido o al CoL (v. "Modalidad de uso") y transferible de conformidad con el apartado 5.3, de instalar el SW en cualquier cantidad de equipos del titular. El número de objetos (p. ej. usuarios o equipos) facultados para usar el SW al mismo tiempo para fines de validación, se desprende asimismo de los datos del pedido o del CoL (v. "Modalidad de uso"). Si la duración de uso se especifica en horas, el uso determinante para calcular el plazo limitado se empieza a contar desde el inicio del SW y finaliza al cerrar el SW. Si la duración de uso se especifica en días, semanas o meses, el período indicado se aplicará, empezando a contar desde el primer inicio del SW, independientemente del uso efectivo. Si la duración de uso se especifica con una fecha, el derecho de uso finalizará en esta fecha, independientemente del uso efectivo.

2.5 Demo License

El titular de la licencia obtiene el derecho no exclusivo, de duración limitada conforme a los datos del pedido o al CoL (v. "Modalidad de uso") y transferible de conformidad con el apartado 5.3, de utilizar el SW en una (1) instancia y para fines de validación. Si la duración de uso se especifica en días, semanas o meses, el período indicado se aplicará, empezando a contar desde el primer inicio del SW, independientemente del uso efectivo. Si la duración de uso se especifica con una fecha, el derecho de uso finalizará en esta fecha, independientemente del uso efectivo.

2.6 Demo Floating License

El titular de la licencia obtiene el derecho no exclusivo, de duración limitada conforme a los datos del pedido o al CoL (v. "Modalidad de uso") y transferible de conformidad con el apartado 5.3, de instalar el SW en cualquier cantidad de equipos del titular. El número de objetos (p. ej. usuarios o equipos) facultados para usar el SW al mismo tiempo para fines de validación, se desprende asimismo de los datos del pedido o del CoL (v. "Modalidad de uso"). Si la duración de uso se especifica en días, semanas o meses, el período indicado se aplicará, empezando a contar desde el primer inicio del SW, independientemente del uso efectivo. Si la duración de uso se especifica con una fecha, el derecho de uso finalizará en esta fecha, independientemente del uso efectivo.

2.7 Trial License

El titular de la licencia obtiene el derecho no exclusivo y no transferible de instalar el SW en una (1) instancia y de utilizar el SW así instalado con fines de validación tal y como lo especifican los datos del pedido o del CoL (v. "Modalidad de uso"). La duración del uso se limita a 14 días empezando por la primera inicialización del SW, salvo que los datos del pedido o el CoL especifiquen una duración distinta.

3. Tipo de software

Si el tipo de software no está especificado ni en los datos del pedido ni en el CoL, los derechos vigentes para el SW serán los que figuran en el apartado 3.2 (Runtime Software).

3.1 Engineering Software (en adelante "E-SW")

Si el titular de una licencia genera con el E-SW programas o datos propios que incluyen componentes del E-SW, tendrá el derecho exento de regalías o cánones a copiar esos componentes como parte integrante de sus propios programas o datos, a utilizarlos o a cederlos a terceros para su utilización. Al efectuar la cesión a terceros es imprescindible imponerles por escrito las disposiciones de los apartados 5.1 y 5.2 en relación con los citados componentes del E-SW.

3.2 Runtime Software (en adelante "R-SW")

En caso de integrar el R-SW completo o en parte a sus propios programas o datos, el titular de la licencia deberá adquirir una licencia para el R-SW conforme a la modalidad de uso prevista y al catálogo Siemens vigente en ese momento. La adquisición la efectuará antes de cada instalación o copiado -según lo que haga primero- de sus programas o datos propios que contengan el R-SW completo o en parte. En caso de que el titular de la licencia ceda los citados programas o datos a terceros para su utilización, deberá imponer por escrito las disposiciones incluidas en el apartado 5 con respecto a los componentes incorporados del R-SW. Esto no invalida la obligación del titular de la licencia de adquirir una licencia para el R-SW en caso de que éste sea copiado en su versión original. En caso de que el R-SW contenga herramientas de parametrización o configuración y para los que se haya otorgado derechos suplementarios, la información respectiva figura en el archivo Léame del R-SW.

4. Upgrade y PowerPack

Si de los datos del pedido o del CoL se desprende, p. ej. por el indicativo "Upgrade" o "Power Pack" junto al nombre del producto del SW, que el SW sirve para ampliar las características de otro software (en adelante "Licencia de origen"), los derechos de uso de la licencia de origen concedidos previamente al titular expirarán con la ampliación. Los derechos de uso concedidos de conformidad con el apartado 1.6 no se ven afectados. El titular de la licencia, no obstante, está facultado para anular la ampliación en cualquier momento (downgrading) -si tal cosa está prevista técnicamente hablando- y ejercer los derechos de uso del SW a él concedidos sobre la licencia de origen análogamente a lo estipulado en el apartado 1.5.

5. Demás derechos y obligaciones del titular de la licencia

5.1 En caso de que el soporte de datos o el archivo Léame del SW no estipulen un número determinado de copias, el titular de la licencia podrá sacar un número prudencial de copias de cada ejemplar del SW cuyo uso le estuviera permitido por estas Condiciones Generales, copias que servirán exclusivamente para asegurar los datos. Por lo demás, el titular de la licencia sólo podrá copiar el SW en caso de que le hubiéramos concedido los derechos pertinentes por escrito.

5.2 El titular de la licencia no deberá modificar el SW, decompilarlo ni aplicarle ingeniería inversa ni traducirlo ni separar sus componentes salvo que lo permita la Ley de derechos de autor. El titular de la licencia tampoco debe quitar códigos alfanuméricos, marcas o notas de propiedad del SW o del soporte de datos y si está autorizado a copiar el SW, deberá copiar también esos componentes sin alteración alguna. La regulación antedicha vale por analogía para la documentación cedida de conformidad con el apartado 1.

5.3 El titular de la licencia está facultado para transferir en su totalidad a un tercero el derecho de uso que se le ha concedido, siempre que suscriba con éste un acuerdo escrito que recoja todas las disposiciones del apartado 5 y que conserve en su poder una copia del SW. Si el titular de la licencia ha recibido una License Key para el SW, tendrá que cederla al tercero junto con el SW. El tercero ha de recibir también el CoL junto con las presentes Condiciones Generales. El titular de la licencia nos ha de presentar el CoL recibido en relación con el SW siempre que lo solicitemos.

5.4 En caso de que el SW sea un PowerPack o un Upgrade, el titular de la licencia ha de guardar el Certificate of License o el certificado de producto de software de la licencia de origen, para poder presentarlos junto al CoL del SW cuando Siemens se lo exija. Si el titular de la licencia transfiere su derecho de uso al PowerPack SW o Upgrade SW conforme al apartado 5.3, cederá también al tercero el Certificate of License o el certificado de producto de software de la licencia de origen.

5.5 En caso de que el titular de la licencia reciba un soporte de datos conteniendo no sólo el SW sino otros productos de software liberados para su uso, tendrá derecho gratuito y de duración limitada para utilizar estos últimos con fines de validación exclusivamente. La limitación será de 14 días contados desde la primera inicialización del programa correspondiente al software a no ser que, p. ej., el archivo Léame del mismo especifique un plazo diferente. Para estos productos cedidos exclusivamente con fines de validación regirán por analogía las estipulaciones de estas Condiciones Generales. El titular de la licencia no tiene permiso para pasar a un tercero estos productos de software separados del SW.

Por lo demás, rigen las condiciones del contrato de compra.

Términos de licencia y exclusión de responsabilidades del software de código abierto y demás software de licencia

En el producto (Copyright Siemens AG, 2016) se aplica el software de código abierto, ya sea sin modificar o modificado por nosotros, y el software de licencia expuestos más abajo.

El usuario está autorizado a utilizar el software de código abierto según las condiciones de licencia válidas para software de código abierto. Dichas condiciones están incluidas en el archivo Léame_OSS y tienen preferencia ante las presentes condiciones generales para el software de código abierto correspondiente. Las condiciones de licencia para software de código abierto también tienen preferencia en tanto que estas le concedan determinados derechos, también en relación a los componentes propietarios, debido a la conexión de componentes OSS con componentes propietarios.

Responsabilidad por el software de código abierto

El software de código abierto se entrega de forma gratuita. Nosotros nos responsabilizamos del producto, incluido el software de código abierto que contenga, conforme a los términos de licencia vigentes para el producto. Queda excluida toda responsabilidad por el uso del software de código abierto más allá de la ejecución del programa prevista por nosotros para el producto, así como cualquier responsabilidad relacionada con los fallos que se puedan derivar de una modificación del software de código abierto.

Igualmente queda excluido cualquier soporte técnico del producto en aquellos casos en los que éste haya sido modificado.

Disponibilidad del código fuente

De determinadas condiciones de licencia de componentes de software de terceros usados en este producto puede deducirse la obligación de entregar el código fuente y más información para estos componentes. En caso que el código fuente y dicha información no se entregaran con el producto o paquete de software (por ejemplo en su memoria de masa o en DVD), puede solicitar tal información a Siemens contra el pago de los gastos de envío y tramitación. Para solicitarla deberá dirigirse a la dirección que figura al final de la presente sección.

Condizioni di licenza Siemens

Condizioni generali per la cessione di prodotti software per la tecnica di automazione e di azionamento

(2011-08-01)

1. Cessione di prodotti software a licenziatari e conferimento dei diritti di utilizzo del software

1.1 Per la cessione da parte nostra di prodotti software per la tecnica di automazione e di azionamento al licenziatario valgono esclusivamente queste condizioni generali. Le condizioni generali del licenziatario valgono solamente se noi le abbiamo espressamente approvate in forma scritta. Ai fini dell'entità delle condizioni di cessione del software sono determinanti le dichiarazioni concordate in forma scritta di entrambe le parti. Noi conferiamo al licenziatario i diritti di utilizzo del software (in seguito denominato "SW") specificato nella conferma d'ordine o - se il licenziatario non riceve alcuna conferma d'ordine - nel Certificate of License oppure, se il licenziatario al posto del Certificate of License riceve un certificato di prodotto software, nel certificato di prodotto software. Il Certificate of License e il certificato di prodotto software sono in seguito denominati insieme "CoL". Il licenziatario riceve il CoL con la cessione del SW e del documento di consegna. La modalità di cessione del SW risulta comunque direttamente dalla conferma d'ordine o dal numero di ordinazione del SW riportato nella conferma d'ordine correlato ai rispettivi dati per l'ordinazione (in seguito denominati "dati d'ordine") del nostro catalogo valido al momento della conferma d'ordine e dal CoL. Se il licenziatario non riceve alcun supporto dei dati, egli è autorizzato a riprodurre il SW già in suo possesso nella misura necessaria consentita dai diritti di utilizzo conferiti. Ciò vale parimenti per la cessione elettronica del software (downloading). Finché in queste condizioni generali si fa riferimento ai dati d'ordine e al CoL, questo riferimento ha significato se il licenziatario non riceve alcuna conferma d'ordine. In ogni caso i dati riportati nei dati d'ordine sono anche riportati nel CoL.

1.2 La documentazione relativa al SW (in seguito denominata "documentazione") va richiesta separatamente a meno che dai dati d'ordine e dal CoL non risulti che questa fa parte della configurazione di fornitura. Se il licenziatario è autorizzato, secondo quanto indicato al paragrafo 1.1, alla riproduzione del software, ciò vale anche per la documentazione sempreché questa faccia parte della configurazione di fornitura.

1.3 Se il licenziatario riceve da noi per il SW una License Key che permette l'abilitazione tecnica del SW (in seguito denominata "License Key"), questa va installata insieme con il SW.

1.4 I diritti di utilizzo del SW conferiti al licenziatario risultano dal tipo di licenza (vedi paragrafo 2) e dal tipo di SW (vedi paragrafo 3). Tipo di licenza e tipo di SW risultano dai dati d'ordine e dal CoL. Se la cessione del SW avviene elettronicamente oppure mediante conferimento di diritti di riproduzione, i diritti e gli obblighi definiti in queste "Condizioni generali" si riferiscono alle copie legalmente prodotte.

1.5 Se il licenziatario è regolarmente in possesso di una versione/release del SW precedente (in seguito denominata "versione precedente"), egli ha facoltà di esercitare i diritti di utilizzo a scelta o del SW attuale o - finché tecnicamente possibile - della versione precedente (downgrading). Se il SW è un Upgrade o un PowerPack secondo il paragrafo 4, vale inoltre quanto indicato in questo paragrafo.

1.6 Se nella rubrica "Uso parallelo" del file Leggimi del SW vengono indicate versioni precedenti, il licenziatario ha il diritto di esercitare i diritti di utilizzo per il SW opzionalmente con le versioni precedenti indicate in una (1) istanza. Se la "Type of use" citata nei dati d'ordine e nel CoL è "Installation" o "User" il licenziatario può esercitare il diritto descritto precedentemente e simultaneamente nelle versioni precedenti elencate in una istanza. In queste condizioni generali un'"Istanza" è o un'istanza in un ambiente di sistema operativo fisico, o un'istanza in un ambiente di sistema operativo virtuale. La possibilità di trasferire i diritti di utilizzo nelle versioni precedenti è concesso solo comunemente ai diritti di utilizzo nel SW secondo il paragrafo 5.3.

1.7 Se dai dati d'ordine e dal CoL risulta che il licenziatario ha solo il supporto dei dati ma nessuna licenza, il licenziatario è autorizzato all'utilizzo del SW solamente se egli ottiene una licenza secondo il paragrafo 2. Fino all'entrata in possesso della licenza il licenziatario non è neppure autorizzato al trasferimento del SW a terzi.

1.8 Se il SW contiene "Open Source Software" o software analogo di terzi (in seguito denominato "OSS") quest'ultimo viene indicato nel file Readme_OSS del SW. Il licenziatario è autorizzato a utilizzare l'OSS secondo le rispettive condizioni di licenza valide per l'OSS. Queste sono contenute nel supporto dati con il quale il licenziatario riceve il SW. Le condizioni di licenza specifiche dell'OSS hanno priorità rispetto alle presenti condizioni generali. Se le condizioni di licenza dell'OSS prevedono la fornitura del codice sorgente, lo metteremo a disposizione su richiesta del licenziatario dietro un adeguato rimborso spese.

1.9 Oltre a OSS, il SW può essere o contenere anche altri software di licenza, ossia software che non è stato sviluppato da noi ma che abbiamo ottenuto in licenza da terzi (in seguito denominati "fornitori di licenza"), ad es. Microsoft Licensing Inc. Se in questo caso il licenziatario riceve con il SW nel file Readme_OSS le condizioni del rispettivo fornitore, tali condizioni valgono per la responsabilità del fornitore di licenza verso il licenziatario. Per quanto concerne la nostra responsabilità verso il licenziatario valgono in ogni caso le presenti condizioni generali.

2. Tipo di licenza

A seconda del tipo di licenza sono conferiti al destinatario i seguenti diritti di utilizzo del SW:

2.1 Single License (One Off License, Copy License)

Il concetto utilizzato nel certificato di prodotto software "One Off License, Copy License" corrisponde alla Single License. Il seguente regolamento vale in senso lato per la One Off License/Copy License. Il licenziatario riceve il diritto non esclusivo e illimitato nel tempo - trasferibile secondo il paragrafo 5.3 - di installare il SW in una (1) istanza e di utilizzare il SW così installato nel modo indicato nei dati d'ordine e nel CoL (vedi "Type of use").

2.2 Floating License

Il licenziatario riceve il diritto non esclusivo e illimitato nel tempo - trasferibile secondo il paragrafo 5.3 - di installare il SW su tutte le proprie apparecchiature a piacere. Il numero di oggetti (ad es. utenti o apparecchiature) che possono utilizzare il SW contemporaneamente risulta dai dati d'ordine e dal CoL (vedi "Type of use").

2.3 Rental License

Il licenziatario riceve il diritto non esclusivo e limitato nel tempo secondo i dati d'ordine ed il CoL (vedi "Type of use") - trasferibile secondo il paragrafo 5.3 - di installare il SW su una (1) apparecchiatura e di utilizzarlo. Se la durata di utilizzo è data in ore, il conteggio del tempo di utilizzo inizia con lo start del SW e finisce con la relativa chiusura. Se la durata di utilizzo è data in giorni, settimane o mesi, il conteggio del tempo di utilizzo inizia con il primo start del SW e prosegue indipendentemente dal tempo di utilizzo effettivo. Se la durata di utilizzo è specificata con un data, il diritto di utilizzo finisce con questa data, indipendentemente dall'utilizzo effettivo.

2.4 Rental Floating License

Il licenziatario riceve il diritto non esclusivo, di durata limitata conforme ai dati d'ordine o al CoL (vedi "Type of use") e trasferibile secondo il paragrafo 5.3, di installare il SW in qualsiasi numero di apparecchiature del licenziatario. Il numero di oggetti (ad es. utenti o apparecchiature) che possono utilizzare il SW contemporaneamente risulta anche dai dati d'ordine e dal CoL (vedi "Type of use"). Se la durata di utilizzo è data in ore, il conteggio del tempo di utilizzo inizia con lo start del SW e finisce con la relativa chiusura. Se la durata di utilizzo è data in giorni, settimane o mesi, il conteggio del tempo di utilizzo inizia con il primo start del SW e prosegue indipendentemente dal tempo di utilizzo effettivo. Se la durata di utilizzo è specificata con un data, il diritto di utilizzo finisce con questa data, indipendentemente dall'utilizzo effettivo.

2.5 Demo License

Il licenziatario riceve il diritto non esclusivo, di durata limitata conforme ai dati d'ordine o al CoL (vedi "Type of use") e trasferibile secondo il paragrafo 5.3, di installare il SW in una (1) istanza e di utilizzarlo a scopo di validazione. Se la durata di utilizzo è data in giorni, settimane o mesi, il conteggio del tempo di utilizzo inizia con il primo start del SW e prosegue indipendentemente dal tempo di utilizzo effettivo. Se la durata di utilizzo è specificata con un data, il diritto di utilizzo finisce con questa data, indipendentemente dall'utilizzo effettivo.

2.6 Demo Floating License

Il licenziatario riceve il diritto non esclusivo, di durata limitata conforme ai dati d'ordine o al CoL (vedi "Type of use") e trasferibile secondo il paragrafo 5.3, di installare il SW in qualsiasi numero di apparecchiature del licenziatario. Il numero di oggetti (ad es. utenti o apparecchiature) che possono utilizzare il SW contemporaneamente a scopo di validazione risulta anche dai dati d'ordine e dal CoL (vedi "Type of use"). Se la durata di utilizzo è data in giorni, settimane o mesi, il conteggio del tempo di utilizzo inizia con il primo start del SW e

prosegue indipendentemente dal tempo di utilizzo effettivo. Se la durata di utilizzo è specificata con un data, il diritto di utilizzo finisce con questa data, indipendentemente dall'utilizzo effettivo.

2.7 Trial License

Il licenziatario riceve il diritto non esclusivo e non trasferibile di installare il SW in una (1) istanza e di utilizzarlo a scopi di valutazione nel modo specificato nei dati d'ordine risp. nel CoL (vedi "Modo di utilizzo"). La durata di utilizzo è limitata a 14 giorni - a partire dal primo avvio del SW - a meno che dai dati d'ordine risp. dal CoL non risulti una durata di utilizzo differente.

3. Tipo di software

Se il tipo di software non è specificato né nei dati d'ordine né nel CoL, per l'utilizzo del SW valgono i diritti secondo il paragrafo 3.2 (Runtime Software).

3.1 Engineering Software (in seguito denominato "E-SW")

Se il licenziatario sviluppa con l'E-SW propri programmi o dati che contengono parti dell'E-SW, egli ha il diritto gratuito di riprodurre queste parti dell'E-SW come parte integrante dei propri programmi o dati, di utilizzarle e di trasferirle a terzi per l'utilizzo. In caso di cessione a terzi occorre, in riferimento alle suddette parti dell'E-SW, evidenziare in forma scritta quanto specificato ai paragrafi 5.1 e 5.2.

3.2 Runtime Software (in seguito denominato "R-SW")

Se il licenziatario integra in propri programmi o dati R-SW o parti di esso, egli deve ottenere prima di ogni installazione o riproduzione - a seconda di quanto avviene prima - dei propri programmi o dati, che contengono R-SW o parti di esso, una licenza per il R-SW corrispondente al modo di utilizzo previsto secondo l'ultimo catalogo Siemens valido. Se il licenziatario cede i suddetti programmi o dati a terzi per l'utilizzo, occorre, in riferimento alle parti del R-SW contenute, evidenziare in forma scritta quanto specificato al paragrafo 5. Rimane invariato l'obbligo del licenziatario di ottenere una licenza per il R-SW, se questo è riprodotto in originale. Se nel R-SW sono compresi tool di parametrizzazione/configurazione e se per questi sono conferiti ulteriori diritti, ciò risulta dal file Readme dell'R-SW.

4. Upgrade e PowerPack

Se dai dati d'ordine e dal CoL risulta ad es. dall'aggiunta di "Upgrade" o "PowerPack" al nome di prodotto del SW, che il SW serve per l'aggiornamento di un altro software (in seguito denominato "licenza originale") I diritti di utilizzo conferiti inizialmente al licenziatario con la licenza originale cessano con l'aggiornamento. I diritti di utilizzo secondo il paragrafo 1.6 non hanno ripercussioni. Il licenziatario è comunque autorizzato a rimuovere in ogni momento l'aggiornamento (downgrading) - sempreché ciò sia previsto tecnicamente - ed a esercitare i diritti di utilizzo del SW conferiti con la licenza originale secondo quanto specificato al paragrafo 1.5.

5. Ulteriori diritti e obblighi del licenziatario

5.1 Se sul supporto dei dati o nel file Readme del SW non è data alcuna indicazione contraria su un numero di copie definito, il licenziatario può riprodurre da ogni esemplare del SW, per il cui utilizzo è autorizzato secondo queste "Condizioni generali", un numero adeguato di copie che possono essere utilizzate esclusivamente a scopo di salvataggio dei dati. In generale il licenziatario può riprodurre il SW solo e finché sono da noi conferiti in forma scritta diritti di riproduzione.

5.2 Il licenziatario non può modificare il SW né risalire nello sviluppo a ritroso o tradurlo e non può inoltre eliminare alcuna parte nel rispetto delle normative di legge sul diritto d'autore. Il licenziatario non può rimuovere dal SW o dal supporto dei dati elementi identificatori alfanumerici, marchi e dichiarazioni di riserva del diritto d'autore e deve riprodurli immutati qualora abbia autorizzazione di riproduzione. Il presente regolamento vale parimenti per la documentazione ceduta secondo il paragrafo 1.

5.3 Il licenziatario è autorizzato a trasferire ad una terza parte il completo diritto di utilizzo acquisito, con il presupposto che venga stipulato un corrispondente accordo scritto ove si contemplino tutte le normative di questo paragrafo 5 ed egli non trattiene alcuna copia del SW. Se il licenziatario ha ricevuto per il SW una License Key, questa va trasferita alla terza parte insieme con il SW. Inoltre va trasferito il CoL insieme con queste "Condizioni generali". Il licenziatario esibirà a Siemens su richiesta in qualsiasi momento il CoL ricevuto per il SW.

5.4 Se il SW è un PowerPack o un Upgrade, il licenziatario conserverà il Certificate of License o il certificato di prodotto software della licenza originale e lo esibirà su nostra richiesta in qualsiasi momento insieme con il CoL del SW. Se il licenziatario trasferisce il suo diritto di utilizzo del SW PowerPack e del SW Upgrade secondo il paragrafo 5.3, egli deve trasferire alla terza parte anche il Certificate of License o il certificato di prodotto software della licenza originale.

5.5 Se il licenziatario riceve un supporto dei dati, contenente oltre al SW anche altri prodotti software separati, egli ha un diritto gratuito, limitato nel tempo, di utilizzare questi prodotti software esclusivamente a scopo di validazione. La durata di utilizzo è limitata a 14 giorni - a partire dal primo start del rispettivo programma software - a meno che, ad es. nel file Readme del prodotto software, non sia indicata una durata diversa. Per questi prodotti software rilasciati esclusivamente a scopo di validazione valgono le normative di queste "Condizioni generali". Il licenziatario non è autorizzato a trasferire ad una terza parte questi prodotti software separatamente, cioè senza il SW.

Per il resto valgono le condizioni del contratto d'acquisto.

Condizioni di licenza ed esclusioni di responsabilità per il software Open Source e altri software di licenza

Nel prodotto (Copyright Siemens AG, 2016) viene impiegato il Software Open Source invariato o modificato da Siemens nonché gli altri software con licenza elencati di seguito.

Siete autorizzati a utilizzare l'Open Source Software come previsto nelle rispettive condizioni di licenza applicabili. Queste sono specificate nel file Leggimi_OSS e hanno priorità rispetto alle Condizioni Generali previste per l'Open Source Software. Le condizioni di licenza dell'Open Source Software trovano applicazione in via prioritaria anche qualora, in ragione del collegamento di componenti OSS con componenti proprietari, vi conferiscano particolari diritti anche sui componenti proprietari.

Responsabilità per il software Open Source

Il software Open Source viene fornito gratuitamente. Siemens risponde del prodotto e del software Open Source in esso contenuto in conformità a quanto previsto dalle condizioni di licenza valide per il prodotto. È espressamente esclusa qualsivoglia garanzia sul software Open Source che vada oltre allo svolgimento del programma previsto da Siemens. Siemens non risponde inoltre in alcun modo degli errori causati da modifiche apportate al software Open Source.

Non viene fornito supporto tecnico per un prodotto modificato.

Disponibilità del codice sorgente

Alcune condizioni di licenza di componenti software di terzi utilizzati nel presente prodotto potrebbero obbligare Siemens a fornirvi il codice sorgente e informazioni aggiuntive. Se il codice sorgente e le informazioni non sono già in dotazione al prodotto/pacchetto software (ad es. nella memoria di massa o in un DVD) li si può richiedere a Siemens dietro pagamento delle spese di spedizione e di gestione. La richiesta può essere inviata all'indirizzo indicato alla fine della presente sezione.

西门子许可条件

自动化与驱动软件产品通用许可条件 (2011-08-01)

1. 提供软件及授予使用软件的权利

1.1 本通用许可条件排他地适用于向被许可方提供的自动化与驱动软件。被许可方的通用条款和条件仅在我方以书面形式表示接受的情况下才能适用。软件的交货范围应由双方签订书面声明加以确定。我们将授予被许可方使用订单确认书中规定的，或者（如被许可方未收到订单确认书）许可证书中规定的，或者（如被许可方收到了软件产品单）软件产品单中规定的软件（以下简称“软件”）的权利。许可证书及软件产品单以下通称为“CoL”。应当在提供软件时或者与交货单据一并将CoL提交给被许可方。提供软件的方法也直接来自于订单确认书，或者来自于订单确认书中包含的软件订单号连同订单确认书生效时届时有效的目录的相关订货信息（以下通称为“订单信息”）或来自于CoL。如果被许可方未收到有关的数据媒介，被许可方应当有权在行使授予其使用软件的权利所必须的范围内复制可以获取的软件。上述规定在经过适当调整后适用于以电子方式提供软件（下载）。在通用许可条件中提到订单信息或CoL的情况下，如果被许可方未收到订单确认书，则应参照CoL的规定。在任何情况下，订单信息中所含的信息也包含在CoL之中。

1.2 与软件相关的文档（以下简称“文档”）应当另行购买，除非订单信息或者CoL规定文档包含在交货的范围

之内。如果被许可方经授权按照第1.1条的规定复制软件，则该规定也适用于相关的文档，条件是文档已经包括在交货范围之内。

1.3 在我方向被许可方提供解锁软件的许可密钥（以下简称“许可密钥”）的情况下，必须安装该许可密钥。

1.4 就软件授予被许可方的各项权利均是根据许可类型（见第2条）和软件类型（见第3条）授予的。许可和软件类型详见订单信息或CoL。如果以电子方式提供软件或者已经授予了复制软件的权利，本通用许可条件中规定的各项权利和责任应当适用于合法生成的副本。

1.5 如果被许可方合法占有软件此前的版本（以下简称“此前版本”），则被许可方将有权自行决定是依据当前软件还是因技术需要而依据先前版本（降级）来行使所授予的使用软件的权利。如果软件是第4部分所述的升级版或加强版，则另外适用第4部分的规定。

1.6 如果先前版本列于软件Readme文件的“平行使用”类别下，则除被授予的软件用户权限外，被许可方还有权在一（1）个实例上使用所列的先前版本。如果订单信息或许可条件命名的“使用类型”是：“安装”或“用户”，则被许可方除拥有在实例中使用所列先前版本的权限外，还拥有先前所述的权限。就这些通用许可条件而言，“实例”指的是位于实际操作系统环境或虚拟操作系统环境中的实例。依据第5.3条，只有在拥有软件用户权限的情况下，才能将用户权限转移到先前版本上。

1.7 在被许可方仅获得了数据媒介，但是却未获得订单信息或CoL中规定的许可的情况下，被许可方要使用软件必须首先按照第2条的规定获得许可。在获得了该许可之前，被许可方无权向第三方提供该软件。

1.8 在软件含有开源软件或任何类似的第三方软件（以下简称“开源软件”）的情况下，该开源软件在软件的Readme_OSS-文档中列明。被许可方有权按照开源软件的许可条件使用开源软件。许可条件以与软件相同的数据载体提供。关于开源软件的通用许可条件优先于本通用许可条件。如果开源软件的许可条件要求分配此类开源软件的源代码，经要求我们将在被许可方支付了运输和处置费用之后提供此类源代码。

1.9 软件可以是许可软件，或是包含许可软件除OSS外的软件，即不是由我方自行开发，而是由如微软许可有限公司（Microsoft Licensing Inc.）等第三方（以下简称“许可方”）授予我方许可的软件。在被许可方收到与Readme_OSS-文档中的软件一道提供的，由相关许可方规定的各项条款和条件的情况下，此类条款和条件适用于该许可方针对被许可方应承担的责任。在任何情况下，我方对被许可方所承担的责任应当受本通用许可条件的管辖。

2. 许可类型

根据许可类型，被许可方应当就软件被授予下列各项权利：

2.1 单一许可（一次性许可、复制许可）

软件产品单中有可能使用的“一次性许可”或“复制许可”的字样相当于“单一许可”的字样。下列规定应当适用于所有范围的一次性许可/复制许可。被许可方应当被授予在一台硬件设备上安装软件并且以订单信息或CoL所规定的方式使用软件的权利，该权利是非独占性的，可根据第5.3条的规定转让，并且无特定的限期（详见“使用类型”）。

2.2 浮动许可

被许可方应当被授予在任意台被许可方的硬件设备上安装软件的权利，该权利是非独占性的，可根据第5.3条的规定转让，并且无特定的限期（详见“使用类型”）。允许同时使用软件的对象（例如：用户或设备）也适用订单信息或CoL的规定（详见“使用类型”）。

2.3 租赁许可

被许可方应当被授予在订单信息或CoL规定的时限内在一（1）个实例上安装并使用软件的权利，该权利是非独占性的，可根据第5.3条的规定转让（详见“使用类型”）。如果按照规定是以小时计算使用期限，那么使用时间就是自软件启动时开始，并且在软件关闭时结束。如果使用期限是按照日、周或月规定，那么自首次启动软件起算的规定期限不完全等同于实际使用时间。如果使用期限指定为某具体日期，那么无论实际使用时间长短，使用权利都将于此日期终止。

2.4 租赁浮动许可

被许可方应当被授予在订单信息或CoL规定的时限内在任意数量的被许可方的硬件设备上安装该软件的权利，该权利是非独占性的，可根据第5.3条的规定转让（详见“使用类型”）。允许同时使用软件的对象（例如：用户或设备）也适用订单信息或CoL的规定（详见“使用类型”）。如果按照规定是以小时计算使用期限，那么使用时间就是自软件启动时开始，并且在软件关闭时结束。如果使用期限是按照日、周或月规定，那么自首次启动软件起算的规定期限不完全等同于实际使用时间。如果使用期限指定为某具体日期，那么无论实际使用时间长短，使用权利都将于此日期终止。

2.5 演示许可

被许可方应当被授予在订单信息或CoL规定的时限内在（1）个实例上安装并进行验证，该权利是非独占性的，可根据第5.3条的规定转让（详见“使用类型”）。如果使用期限是按照日、周或月规定，那么自首次启动软件起算的规定期限不完全等同于实际使用时间。如果使用期限指定为某具体日期，那么无论实际使用时间长短，使用权利都将于此日期终止。

2.6 演示浮动许可

被许可方应当被授予在订单信息或CoL规定的时限内在任意数量的被许可方的硬件设备上安装该软件的权利，该权利是非独占性的，可根据第5.3条的规定转让（详见“使用类型”）。允许同时使用软件的对象（例如：用户或设备）也适用订单信息或CoL的规定（详见“使用类型”）。如果使用期限是按照日、周或月规定，那么自首次启动软件起算的规定期限不完全等同于实际使用时间。如果使用期限指定为某具体日期，那么无论实际使用时间长短，使用权利都将于此日期终止。

2.7 试用许可

被许可方应当被授予在（1）个实例上安装软件并且为了验证的目的，以订单信息或CoL所规定的方式使用软件的权利，该权利是非独占性的，不得转让（详见“使用类型”）。使用的期限仅限于十四（14）天，并且在启动软件时起算，除非订单信息或CoL中规定了其他的使用期限。

3. 软件类型

如果订单信息或CoL中未规定软件类型，那么第3.2条（运行系统软件）中规定的各项软件权利应当适用于该软件。

3.1 工程软件（以下称为“E-SW”）

在被许可方使用工程软件来生成其自己含有工程软件成份的程序或者数据的情况下，被许可方应当有权在不必支付许可费的情况下复制或者使用作为其自己程序或者数据的组成部分的该工程软件的部分或者将该部分提供给第三方使用。在将该部分提供给第三方使用的情况下，该第三方应当以书面形式就上述工程软件的部分按照第5.1和5.2条的规定遵守相关规定。

3.2 运行系统软件（以下称为“R-SW”）

如果被许可方将运行系统软件或者其任何部分嵌入其自己的程序或数据，被许可方应当在每次安装或者复制（取决于先安装还是先复制）其自己含有运行系统软件或其组成部分的程序或数据时，根据拟采用的相关使用类型并根据届时有效的目录购买运行系统软件的许可。在被许可方向第三方提供此类程序或者数据供其使用的情况下，该第三方应当以书面形式就其中所包含的运行系统软件的组成部分遵守第5条的各项规定。如果复制该运行系统软件的原版，以上规定并不影响被许可方为运行系统软件购买许可的义务。如果运行系统软件含有参数化/配置的工具，而且已经就此赋予了扩展权利，则应当在该运行系统软件的readme文档中详细予以说明。

4. 升级和加强

如果从订单信息或CoL可以明显看出，该软件是另一个软件（以下简称“源许可”）的升级版，如产品名称之后添加了“Upgrade”或“PowerPack”的字样，那么最初授予被许可方的使用源许可的权利于升级时结束。第1.6条中规定的使用权利不会受此影响。但是，如果技术上有必要，被许可方有权撤销升级（降级）并按照第

1.5条的规定就源版本行使使用授予被许可方的软件的权利。

5. 被许可方的进一步权利和义务

5.1 除非软件的数据媒介或者在软件的readme文档中就副本的具体数量另有规定，否则被许可方可以按照本通用许可条件的规定为授予其使用的软件生成适当数量的副本。在此情况下，此类副本只能用于数据备份。此外，被许可方只能在我方已经以书面形式授予了被许可方复制权利的情况下才能复制。

5.2 被许可方无权修改、反编辑软件或者对软件进行反向工程。另外，被许可方也不得提取其任何单独的部分，除非为强制性版权法所允许。此外，被许可方也无权在软件或数据媒介中消除任何字母数字形式的识别标志、商标或者版权声明，而且在被许可方有权制作软件副本的情况下，应当在不加变更的情况下予以复制。上述规定应当相应地适用于按照第1条的规定提供的文档。

5.3 被许可方有权将授权被许可方使用软件的权利转让给第三方，条件是被许可方已经与该第三方达成了符合本第5条中规定的所有条件的书面协议，而且以被许可方不保留该软件的任何副本为前提。如果被许可方收到了该软件的许可密钥，该密钥应当与软件一道向第三方提供。此外，应当将CoL与本通用许可条件一并提供给该第三方。经要求，被许可方应当将就软件提供的CoL随时向我方提供。

5.4 如果软件是属于加强或升级版本，被许可方应当保留源许可的CoL并且经要求随时将其与软件的CoL一并提供给我方。在被许可方按照第5.3条的规定转让加强软件或升级软件的情况下，被许可方还应当将源许可的CoL提供给第三方。

5.5 如果除软件之外，被许可方收到了包含已发布供使用的其他软件产品的数据媒介，则被许可方有权仅为验证的目的，免费在一定期限内使用这些已发布的软件产品。使用期限应当仅限于十四（14）天，自首次启动相关的软件程序开始起算，除非就期限另有规定，如在相关软件产品的readme文档中规定了其他的期限。仅为验证的目的提供的这些软件产品应当比照适用本通用许可条件中包含的各项规定。被许可方不得将不附带软件的软件产品向第三方单独传递。

若无另行规定，开源软件将适用采购合同的条款。

开源软件及其它已授权软件的 许可条件和免责声明

在产品（版权所有 Siemens AG, 2016）中，对开源软件及下面提到的其它授权软件，应以其原模式或经我方修改的模式使用：

您有权遵照开源软件相应的适用许可证条款来使用开源软件。这些开源软件许可证条款包含在 ReadMe_OSS 文件中，它们应优先于相应开源软件的一般条款。当这些开源软件许可证条款授予您特定权限以及由于将 OSS 组件与专有组件连接而涉及到专有组件时，它们也应具有优先权。

对开源软件承担的责任

“开源软件”免费提供。我们将按照适用于“产品”的许可条件对“产品”以及其中所包含的“开源软件”承担责任，但明确排除未按产品专用流程使用“开源软件”的一切责任。此外，对于您或第三方对“开源软件”进行修改所造成的缺陷，我方不承担任何责任。

“产品”一旦被修改，我们将不再提供任何技术支持。

源代码的获取

本产品中使用的第三方软件组件的某些许可证条款可能要求西门子向您提供此类组件的源代码和附加信息。如果源代码和信息未随产品/软件包（例如，大容量存储器、DVD）一起提供，则您可在支付运输费和手续费后从西门子处获得一份副本。请将您的请求发送到本部分结尾处列出的地址。

We DO NOT make any processing on RA packets, pushing them to user level AS IS without any WARRANTY that application will be able to interpret them. The reason is that we cannot make anything clever here.

We are not end-node, so that if packet contains AH/ESP, we cannot make anything. Defragmentation also would be a mistake, RA packets cannot be fragmented, because there is no warranty that different fragments will go along one path. --ANK

 Microsoft Limited Public License (Ms-LPL)

This license governs use of the accompanying software. If you use the software, you accept this license. If you do not accept the license, do not use the software.

1. Definitions

The terms "reproduce," "reproduction," "derivative works," and "distribution" have the same meaning here as under U.S. copyright law. A "contribution" is the original software, or any additions or changes to the software. A "contributor" is any person that distributes its contribution under this license. "Licensed patents" are a contributor's patent claims that read directly on its contribution.

2. Grant of Rights

(A) Copyright Grant- Subject to the terms of this license, including the license conditions and limitations in section 3, each contributor grants you a non-exclusive, worldwide, royalty-free copyright license to reproduce its contribution, prepare derivative works of its contribution, and distribute its contribution or any derivative works that you create.

(B) Patent Grant- Subject to the terms of this license, including the license conditions and limitations in section 3, each contributor grants you a non-exclusive, worldwide, royalty-free license under its licensed patents to make, have made, use, sell, offer for sale, import, and/or otherwise dispose of its contribution in the software or derivative works of the contribution in

the software.

3. Conditions and Limitations

(A) No Trademark License- This license does not grant you rights to use any contributors' name, logo, or trademarks.

(B) If you bring a patent claim against any contributor over patents that you claim are infringed by the software, your patent license from such contributor to the software ends automatically.

(C) If you distribute any portion of the software, you must retain all copyright, patent, trademark, and attribution notices that are present in the software.

(D) If you distribute any portion of the software in source code form, you may do so only under this license by including a complete copy of this license with your distribution. If you distribute any portion of the software in compiled or object code form, you may only do so under a license that complies with this license.

(E) The software is licensed "as-is." You bear the risk of using it. The contributors give no express warranties, guarantees, or conditions. You may have additional consumer rights under your local laws which this license cannot change. To the extent permitted under your local laws, the contributors exclude the implied warranties of merchantability, fitness for a particular purpose and non-infringement.

4. (F) Platform Limitation- The licenses granted in sections 2(A) & 2(B) extend only to the software or derivative works that you create that run on a Microsoft Windows operating system product.

Redistribution and use in source form, with or without modification, are permitted provided that redistributions of source code must retain the above copyright notice, this list of conditions and the following disclaimer. This software is provided 'as is' by Distributed Processing Technology and any express or implied warranties, including, but not limited to, the implied warranties of merchantability and fitness for a particular purpose, are disclaimed. In no event shall Distributed Processing Technology be liable for any direct, indirect, incidental, special, exemplary or consequential damages (including, but not limited to, procurement of substitute goods or services; loss of use, data, or profits; or business interruptions) however caused and on any theory of liability, whether in contract, strict liability, or tort (including negligence or otherwise) arising in any way out of the use of this driver software, even if advised of the possibility of such damage

DISCLAIMER:

I TAKE NO RESPONSIBILITY FOR ANY LOSS OF DATA ARISING FROM THE USE OF THIS PROGRAM/LIBRARY, HOWSOEVER CAUSED.

Every compression of a file implies an assumption that the compressed file can be decompressed to reproduce the original. Great efforts in design, coding and testing have been made to ensure that this program works correctly. However, the complexity of the algorithms, and, in particular, the presence of various special cases in the code which occur with very low but non-zero probability make it impossible to rule out the possibility of bugs remaining in the program. DO NOT COMPRESS ANY DATA WITH THIS PROGRAM UNLESS YOU ARE PREPARED TO ACCEPT THE POSSIBILITY, HOWEVER SMALL, THAT THE DATA WILL NOT BE RECOVERABLE.

That is not to say this program is inherently unreliable. Indeed, I very much hope the opposite is true. bzip2/libbzip2 has been carefully constructed and extensively tested.

As a special exception, you may create a larger work that contains part or all of the Bison parser skeleton and distribute that work under terms of your choice, so long as that work isn't itself a parser generator using the skeleton or a modified version thereof as a parser skeleton. Alternatively, if you modify or redistribute the parser skeleton itself, you may (at your option) remove this special exception, which will cause the skeleton and the resulting Bison output files to be licensed under the GNU General Public License without this special exception.

This special exception was added by the Free Software Foundation in version 2.2 of Bison.

Experimental data distribution table generator Taken from the uncopyrighted NISTnet code (public domain). Header First, let me quote from the NIST Net FAQ: Q. Tell me all that good legal stuff about copyrights and warranties. As a U.S. government publication, so to speak, NIST Net is not copyrighted. You can do whatever you want with it, including employing its code in whole or in part in any other package or product. You need not credit me or NIST (though not doing so would be a bit rude). As is usual for code provided on this basis, there is absolutely no warranty of any sort. We are interested in receiving any reports of problems or requests for improvements and will try to help, but can't make any specific promises I had thought the above was fairly explicit, but apparently not explicit enough. What the lack of copyright means is that you have a non-exclusive right to use this code in any fashion you wish, including incorporating it into a product without any further compensation or permission required. "Non-exclusive" just means that other people can do it as well, so just because you used NIST Net in your product doesn't mean somebody else can't. Please note these remarks only apply to the code I originated

some code (like the fast timer) is based directly on existing Linux kernel code and hence carries exactly the same copyright restrictions as Linux does.

This is all well and good (at least in my opinion), but starting with the 2.4.xx kernel series and contemporaneous modutils (~2.4.13), Linux has begun more or less requiring modules to have explicit statements of license, or else the kernel will be marked as "tainted" by "non-free" code.

Unfortunately, the list of "free" licenses that modutils recognizes is currently quite short, and does not in particular include any notion of public domain or "unrestricted" or equivalent terminology. So after some consultation on the linux-kernel mailing list, I'm labeling the modules here as "GPL and additional rights" since that seems the best indication of their status. After all, with public domain code you (not me!) are free to apply any license you like, including the GPL one. If you decide to distribute a (modified) version of NIST Net with other license restrictions, then you should update the MODULE_LICENSE() (and MODULE_AUTHOR()) statements appropriately to document this fact.

The routel script was written by Stephen R. van den Berg <srb@cuci.nl>, 1999/04/18 and donated to the public domain.

This package is an SSL implementation written
by Eric Young (eay@cryptsoft.com).
The implementation was written so as to conform with Netscapes SSL.

This library is free for commercial and non-commercial use as long as the following conditions are adhered to. The following conditions apply to all code found in this distribution, be it the RC4, RSA, lhash, DES, etc., code; not just the SSL code. The SSL documentation included with this distribution is covered by the same copyright terms except that the holder is Tim Hudson (tjh@cryptsoft.com).

Copyright remains Eric Young's, and as such any Copyright notices in the code are not to be removed.

If this package is used in a product, Eric Young should be given attribution

as the author of the parts of the library used.

This can be in the form of a textual message at program startup or in documentation (online or textual) provided with the package.

DISCLAIMER

For its own internal business purposes AT&T Labs has assessed various programs obtained from the Internet for Year-2000 (Y2K) readiness that were not sufficiently certified for AT&T's needs. As a service to the computing community AT&T Labs is freely releasing this information to the public as a series of "Y2K Application Updates", one update for what AT&T Labs considers an "application".

For use outside of AT&T, AT&T Labs is not certifying this information is correct, that any software, including repairs and tests, will help others in any way, survive the year 2000, nor work with current applications. Nor is AT&T taking any responsibility for repairing any Y2K problems that were overlooked nor repairing any bugs in any Y2K Application Update". All risk of using this Y2K Application Update remains with the user who is expected to test that this update meets their needs.

LICENSE TO USE

AT&T's intent is to ensure these Y2K patches are freely available to the public but will not maintain a public web site for their distribution. Any copyright claims only apply to the specific changes made by Y2K to the code. Any original copyright holders retain rights to unchanged code. Wherever possible patches will be returned to the current owner(s) of the code. Owners and publishers are free to incorporate appropriate patches, upgrades, and tests within legal future distributions as long as they include the credit:

Various Y2K updates and tests provided by AT&T Labs.

and any AT&T "comments" on the changed code remain intact.

Any distributions of the updates must keep the entire update intact, without any change, including copyright and disclaimer information. If integrated with the original application items not needed for an integrated release may be omitted. When distributed on the same media as the original application there must be no charge for this "Y2k Application Update".

This package is an SSL implementation written
by Eric Young (eay@cryptsoft.com).

The implementation was written so as to conform with Netscapes SSL. This library is free for commercial and non-commercial use as long as the following conditions are adhered to. The following conditions apply to all code found in this distribution, be it the RC4, RSA, lhash, DES, etc., code; not just the SSL code. The SSL documentation included with this distribution is covered by the same copyright terms except that the holder is Tim Hudson (tjh@cryptsoft.com).

Copyright remains Eric Young's, and as such any Copyright notices in the code are not to be removed.

If this package is used in a product, Eric Young should be given attribution as the author of the parts of the library used.

The license and distribution terms for any publically available version or derivative of this code cannot be changed. i.e. this code cannot simply be copied and put under another distribution license including the GNU Public License.]

The reason behind this being stated in this direct manner is past experience in code simply being copied and the attribution removed from it and then being distributed as part of other packages. This implementation was a non-trivial and unpaid effort.

This package is an DES implementation written by Eric Young (eay@cryptsoft.com). The implementation was written so as to conform with MIT's libdes.

This library is free for commercial and non-commercial use as long as the following conditions are aheared to. The following conditions apply to all code found in this distribution.

Copyright remains Eric Young's, and as such any Copyright notices in the code are not to be removed.

Creative Commons Corporation ("Creative Commons") is not a law firm and does not provide legal services or legal advice. Distribution of Creative Commons public licenses does not create a lawyer-client or other relationship. Creative Commons makes its licenses and related information available on an "as-is" basis. Creative Commons gives no warranties regarding its licenses, any material licensed under their terms and conditions, or any related information. Creative Commons disclaims all liability for damages resulting from their use to the fullest extent possible.

Using Creative Commons Public Licenses

Creative Commons public licenses provide a standard set of terms and conditions that creators and other rights holders may use to share original works of authorship and other material subject to copyright and certain other rights specified in the public license below. The following considerations are for informational purposes only, are not exhaustive, and do not form part of our licenses.

Considerations for licensors: Our public licenses are intended for use by those authorized to give the public permission to use material in ways otherwise restricted by copyright and certain other rights. Our licenses are irrevocable. Licensors should read and understand the terms and conditions of the license they choose before applying it. Licensors should also secure all rights necessary before applying our licenses so that the public can reuse the material as expected. Licensors should clearly mark any material not subject to the license. This includes other CC-licensed material, or material used under an exception or limitation to copyright. More considerations for licensors.

Considerations for the public: By using one of our public licenses, a licensor grants the public permission to use the licensed material under specified terms and conditions. If the licensor's permission is not necessary for any reason—for example, because of any applicable exception or limitation to copyright—then that use is not regulated by the license. Our licenses grant only permissions under copyright and certain other rights that a licensor has authority to grant. Use of the licensed material may still be restricted for other reasons, including because others have copyright or other rights in the material. A licensor may make special requests, such as asking that all changes be marked or described. Although not required by our licenses, you are encouraged to respect those requests where reasonable. More considerations for the public.

Creative Commons Attribution 4.0 International Public License

By exercising the Licensed Rights (defined below), You accept and agree to be bound by the terms and conditions of this Creative Commons Attribution 4.0 International Public License ("Public License"). To the extent this Public License may be interpreted as a contract, You are granted the Licensed Rights in consideration of Your acceptance of these terms and conditions, and the Licensor grants You such rights in consideration of benefits the Licensor receives from making the Licensed Material available under these terms and conditions.

Section 1 – Definitions.

Adapted Material means material subject to Copyright and Similar Rights that is derived from or based upon the Licensed Material and in which the Licensed Material is translated, altered, arranged, transformed, or otherwise modified in a manner requiring permission under the Copyright and Similar Rights held by the Licensor. For purposes of this Public License, where the Licensed Material is a musical work, performance, or sound recording, Adapted Material is always produced where the Licensed Material is synched in timed relation with a moving image.

Adapter's License means the license You apply to Your Copyright and Similar Rights in Your contributions to Adapted Material in accordance with the terms and conditions of this Public License.

Copyright and Similar Rights means copyright and/or similar rights closely related to copyright including, without limitation, performance, broadcast, sound recording, and Sui Generis Database Rights, without regard to how the rights are labeled or categorized. For purposes of this Public License, the rights specified in Section 2(b)(1)-(2) are not Copyright and Similar Rights.

Effective Technological Measures means those measures that, in the absence of proper authority, may not be circumvented under laws fulfilling obligations under Article 11 of the WIPO Copyright Treaty adopted on December 20, 1996, and/or similar international agreements.

Exceptions and Limitations means fair use, fair dealing, and/or any other exception or limitation to Copyright and Similar Rights that applies to Your use of the Licensed Material.

Licensed Material means the artistic or literary work, database, or other material to which the Licensor applied this Public License.

Licensed Rights means the rights granted to You subject to the terms and conditions of this Public License, which are limited to all Copyright and Similar Rights that apply to Your use of the Licensed Material and that the Licensor has authority to license.

Licensor means the individual(s) or entity(ies) granting rights under this Public License.

Share means to provide material to the public by any means or process that requires permission under the Licensed Rights, such as reproduction, public display, public performance, distribution, dissemination, communication, or importation, and to make material available to the public including in ways that members of the public may access the material from a place and at a time individually chosen by them.

Sui Generis Database Rights means rights other than copyright resulting from Directive 96/9/EC of the European Parliament and of the Council of 11 March 1996 on the legal protection of databases, as amended and/or succeeded, as well as other essentially equivalent rights anywhere in the world.

You means the individual or entity exercising the Licensed Rights under this Public License. You has a corresponding meaning.

Section 2 – Scope.

License grant.

Subject to the terms and conditions of this Public License, the Licensor hereby grants You a worldwide, royalty-free, non-sublicensable, non-exclusive, irrevocable license to exercise the Licensed Rights in the Licensed Material to:

reproduce and Share the Licensed Material, in whole or in part; and
produce, reproduce, and Share Adapted Material.

Exceptions and Limitations. For the avoidance of doubt, where Exceptions and Limitations apply to Your use, this Public License does not apply, and You do not need to comply with its terms and conditions.

Term. The term of this Public License is specified in Section 6(a).

Media and formats; technical modifications allowed. The Licensor authorizes You to exercise the Licensed Rights in all media and formats whether now known or hereafter created, and to make technical modifications necessary to do so. The Licensor waives and/or agrees not to assert any right or authority to forbid You from making technical modifications necessary to exercise the Licensed Rights, including technical modifications necessary to circumvent Effective Technological Measures. For purposes of this Public License, simply making modifications authorized by this Section 2(a)(4) never produces Adapted Material.

Downstream recipients.

Offer from the Licensor – Licensed Material. Every recipient of the Licensed Material automatically receives an offer from the Licensor to exercise the Licensed Rights under the terms and conditions of this Public License.

No downstream restrictions. You may not offer or impose any additional or different terms or conditions on, or apply any Effective Technological Measures to, the Licensed Material if doing so restricts exercise of the Licensed Rights by any recipient of the Licensed Material.

No endorsement. Nothing in this Public License constitutes or may be construed as permission to assert or imply that You are, or that Your use of the Licensed Material is, connected with, or sponsored, endorsed, or granted official status by, the Licensor or others designated to receive attribution as provided in Section 3(a)(1)(A)(i).

Other rights.

Moral rights, such as the right of integrity, are not licensed under this Public License, nor are publicity, privacy, and/or other

similar personality rights; however, to the extent possible, the Licensor waives and/or agrees not to assert any such rights held by the Licensor to the limited extent necessary to allow You to exercise the Licensed Rights, but not otherwise.

Patent and trademark rights are not licensed under this Public License.

To the extent possible, the Licensor waives any right to collect royalties from You for the exercise of the Licensed Rights, whether directly or through a collecting society under any voluntary or waivable statutory or compulsory licensing scheme. In all other cases the Licensor expressly reserves any right to collect such royalties.

Section 3 – License Conditions.

Your exercise of the Licensed Rights is expressly made subject to the following conditions.

Attribution.

If You Share the Licensed Material (including in modified form), You must:

retain the following if it is supplied by the Licensor with the Licensed Material:

identification of the creator(s) of the Licensed Material and any others designated to receive attribution, in any reasonable manner requested by the Licensor (including by pseudonym if designated)

a copyright notice

a notice that refers to this Public License

a notice that refers to the disclaimer of warranties

a URI or hyperlink to the Licensed Material to the extent reasonably practicable

indicate if You modified the Licensed Material and retain an indication of any previous modifications; and

indicate the Licensed Material is licensed under this Public License, and include the text of, or the URI or hyperlink to, this Public License.

You may satisfy the conditions in Section 3(a)(1) in any reasonable manner based on the medium, means, and context in which You Share the Licensed Material. For example, it may be reasonable to satisfy the conditions by providing a URI or hyperlink to a resource that includes the required information.

If requested by the Licensor, You must remove any of the information required by Section 3(a)(1)(A) to the extent reasonably practicable.

If You Share Adapted Material You produce, the Adapter's License You apply must not prevent recipients of the Adapted Material from complying with this Public License.

Section 4 – Sui Generis Database Rights.

Where the Licensed Rights include Sui Generis Database Rights that apply to Your use of the Licensed Material:

for the avoidance of doubt, Section 2(a)(1) grants You the right to extract, reuse, reproduce, and Share all or a substantial portion of the contents of the database

if You include all or a substantial portion of the database contents in a database in which You have Sui Generis Database Rights, then the database in which You have Sui Generis Database Rights (but not its individual contents) is Adapted Material; and

You must comply with the conditions in Section 3(a) if You Share all or a substantial portion of the contents of the database.

For the avoidance of doubt, this Section 4 supplements and does not replace Your obligations under this Public License where the Licensed Rights include other Copyright and Similar Rights.

Section 5 – Disclaimer of Warranties and Limitation of Liability.

Unless otherwise separately undertaken by the Licensor, to the extent possible, the Licensor offers the Licensed Material as-is and as-available, and makes no representations or warranties of any kind concerning the Licensed Material, whether express, implied, statutory, or other. This includes, without limitation, warranties of title, merchantability, fitness for a particular purpose, non-infringement, absence of latent or other defects, accuracy, or the presence or absence of errors, whether or not known or discoverable. Where disclaimers of warranties are not allowed in full or in part, this disclaimer may not apply to You.

To the extent possible, in no event will the Licensor be liable to You on any legal theory (including, without limitation, negligence) or otherwise for any direct, special, indirect, incidental, consequential, punitive, exemplary, or other losses, costs, expenses, or damages arising out of this Public License or use of the Licensed Material, even if the Licensor has been advised of the possibility of such losses, costs, expenses, or damages. Where a limitation of liability is not allowed in full or in part, this limitation may not apply to You.

The disclaimer of warranties and limitation of liability provided above shall be interpreted in a manner that, to the extent possible, most closely approximates an absolute disclaimer and waiver of all liability.

Section 6 – Term and Termination.

This Public License applies for the term of the Copyright and Similar Rights licensed here. However, if You fail to comply with this Public License, then Your rights under this Public License terminate automatically.

Where Your right to use the Licensed Material has terminated under Section 6(a), it reinstates:

automatically as of the date the violation is cured, provided it is cured within 30 days of Your discovery of the violation; or upon express reinstatement by the Licensor.

For the avoidance of doubt, this Section 6(b) does not affect any right the Licensor may have to seek remedies for Your violations of this Public License.

For the avoidance of doubt, the Licensor may also offer the Licensed Material under separate terms or conditions or stop distributing the Licensed Material at any time; however, doing so will not terminate this Public License.

Sections 1, 5, 6, 7, and 8 survive termination of this Public License.

Section 7 – Other Terms and Conditions.

The Licensor shall not be bound by any additional or different terms or conditions communicated by You unless expressly agreed.

Any arrangements, understandings, or agreements regarding the Licensed Material not stated herein are separate from and independent of the terms and conditions of this Public License.

Section 8 – Interpretation.

For the avoidance of doubt, this Public License does not, and shall not be interpreted to, reduce, limit, restrict, or impose conditions on any use of the Licensed Material that could lawfully be made without permission under this Public License.

To the extent possible, if any provision of this Public License is deemed unenforceable, it shall be automatically reformed to the minimum extent necessary to make it enforceable. If the provision cannot be reformed, it shall be severed from this Public

License without affecting the enforceability of the remaining terms and conditions.

No term or condition of this Public License will be waived and no failure to comply consented to unless expressly agreed to by the Licensor.

Nothing in this Public License constitutes or may be interpreted as a limitation upon, or waiver of, any privileges and immunities that apply to the Licensor or You, including from the legal processes of any jurisdiction or authority.

Creative Commons is not a party to its public licenses. Notwithstanding, Creative Commons may elect to apply one of its public licenses to material it publishes and in those instances will be considered the "Licensor." The text of the Creative Commons public licenses is dedicated to the public domain under the CC0 Public Domain Dedication. Except for the limited purpose of indicating that material is shared under a Creative Commons public license or as otherwise permitted by the Creative Commons policies published at creativecommons.org/policies, Creative Commons does not authorize the use of the trademark "Creative Commons" or any other trademark or logo of Creative Commons without its prior written consent including, without limitation, in connection with any unauthorized modifications to any of its public licenses or any other arrangements, understandings, or agreements concerning use of licensed material. For the avoidance of doubt, this paragraph does not form part of the public licenses.

MOZILLA PUBLIC LICENSE

Version 1.1

1. Definitions.

1.0.1. "Commercial Use" means distribution or otherwise making the Covered Code available to a third party.

1.1. "Contributor" means each entity that creates or contributes to the creation of Modifications.

1.2. "Contributor Version" means the combination of the Original Code, prior Modifications used by a Contributor, and the Modifications made by that particular Contributor.

1.3. "Covered Code" means the Original Code or Modifications or the combination of the Original Code and Modifications, in each case including portions thereof.

1.4. "Electronic Distribution Mechanism" means a mechanism generally accepted in the software development community for the electronic transfer of data.

1.5. "Executable" means Covered Code in any form other than Source Code.

1.6. "Initial Developer" means the individual or entity identified as the Initial Developer in the Source Code notice required by Exhibit A.

1.7. "Larger Work" means a work which combines Covered Code or portions thereof with code not governed by the terms of this License.

1.8. "License" means this document.

1.8.1. "Licensable" means having the right to grant, to the maximum

extent possible, whether at the time of the initial grant or subsequently acquired, any and all of the rights conveyed herein.

1.9. "Modifications" means any addition to or deletion from the substance or structure of either the Original Code or any previous Modifications. When Covered Code is released as a series of files, a Modification is:

A. Any addition to or deletion from the contents of a file containing Original Code or previous Modifications.

B. Any new file that contains any part of the Original Code or previous Modifications.

1.10. "Original Code" means Source Code of computer software code which is described in the Source Code notice required by Exhibit A as Original Code, and which, at the time of its release under this License is not already Covered Code governed by this License.

1.10.1. "Patent Claims" means any patent claim(s), now owned or hereafter acquired, including without limitation, method, process, and apparatus claims, in any patent Licensable by grantor.

1.11. "Source Code" means the preferred form of the Covered Code for making modifications to it, including all modules it contains, plus any associated interface definition files, scripts used to control compilation and installation of an Executable, or source code differential comparisons against either the Original Code or another well known, available Covered Code of the Contributor's choice. The Source Code can be in a compressed or archival form, provided the appropriate decompression or de-archiving software is widely available for no charge.

1.12. "You" (or "Your") means an individual or a legal entity exercising rights under, and complying with all of the terms of, this License or a future version of this License issued under Section 6.1. For legal entities, "You" includes any entity which controls, is controlled by, or is under common control with You. For purposes of this definition, "control" means (a) the power, direct or indirect, to cause the direction or management of such entity, whether by contract or otherwise, or (b) ownership of more than fifty percent (50%) of the outstanding shares or beneficial ownership of such entity.

2. Source Code License.

2.1. The Initial Developer Grant.

The Initial Developer hereby grants You a world-wide, royalty-free, non-exclusive license, subject to third party intellectual property claims:

(a) under intellectual property rights (other than patent or trademark) Licensable by Initial Developer to use, reproduce, modify, display, perform, sublicense and distribute the Original Code (or portions thereof) with or without Modifications, and/or as part of a Larger Work; and

(b) under Patents Claims infringed by the making, using or selling of Original Code, to make, have made, use, practice, sell, and offer for sale, and/or otherwise dispose of the Original Code (or portions thereof).

(c) the licenses granted in this Section 2.1(a) and (b) are effective on the date Initial Developer first distributes Original Code under the terms of this License.

(d) Notwithstanding Section 2.1(b) above, no patent license is granted: 1) for code that You delete from the Original Code; 2) separate from the Original Code; or 3) for infringements caused by: i) the modification of the Original Code or ii) the combination of the Original Code with other software or devices.

2.2. Contributor Grant.

Subject to third party intellectual property claims, each Contributor hereby grants You a world-wide, royalty-free, non-exclusive license

(a) under intellectual property rights (other than patent or trademark) Licensable by Contributor, to use, reproduce, modify, display, perform, sublicense and distribute the Modifications created by such Contributor (or portions thereof) either on an unmodified basis, with other Modifications, as Covered Code and/or as part of a Larger Work; and

(b) under Patent Claims infringed by the making, using, or selling of Modifications made by that Contributor either alone and/or in combination with its Contributor Version (or portions of such combination), to make, use, sell, offer for sale, have

made, and/or otherwise dispose of: 1) Modifications made by that Contributor (or portions thereof); and 2) the combination of Modifications made by that Contributor with its Contributor Version (or portions of such combination).

(c) the licenses granted in Sections 2.2(a) and 2.2(b) are effective on the date Contributor first makes Commercial Use of the Covered Code.

(d) Notwithstanding Section 2.2(b) above, no patent license is granted: 1) for any code that Contributor has deleted from the Contributor Version; 2) separate from the Contributor Version 3) for infringements caused by: i) third party modifications of Contributor Version or ii) the combination of Modifications made by that Contributor with other software (except as part of the Contributor Version) or other devices; or 4) under Patent Claims infringed by Covered Code in the absence of Modifications made by that Contributor.

3. Distribution Obligations.

3.1. Application of License.

The Modifications which You create or to which You contribute are governed by the terms of this License, including without limitation Section 2.2. The Source Code version of Covered Code may be distributed only under the terms of this License or a future version of this License released under Section 6.1, and You must include a copy of this License with every copy of the Source Code You distribute. You may not offer or impose any terms on any Source Code version that alters or restricts the applicable version of this License or the recipients' rights hereunder. However, You may include an additional document offering the additional rights described in Section 3.5.

3.2. Availability of Source Code.

Any Modification which You create or to which You contribute must be made available in Source Code form under the terms of this License either on the same media as an Executable version or via an accepted Electronic Distribution Mechanism to anyone to whom you made an Executable version available; and if made available via Electronic Distribution Mechanism, must remain available for at least twelve (12) months after the date it initially became available, or at least six (6) months after a subsequent version of that particular Modification has been made available to such recipients. You are responsible for ensuring that the Source Code version remains available even if the Electronic Distribution Mechanism is maintained by a third party.

3.3. Description of Modifications.

You must cause all Covered Code to which You contribute to contain a file documenting the changes You made to create that Covered Code and the date of any change. You must include a prominent statement that the Modification is derived, directly or indirectly, from Original Code provided by the Initial Developer and including the name of the Initial Developer in (a) the Source Code, and (b) in any notice in an Executable version or related documentation in which You describe the origin or ownership of the Covered Code.

3.4. Intellectual Property Matters

(a) Third Party Claims.

If Contributor has knowledge that a license under a third party's intellectual property rights is required to exercise the rights granted by such Contributor under Sections 2.1 or 2.2, Contributor must include a text file with the Source Code distribution titled "LEGAL" which describes the claim and the party making the claim in sufficient detail that a recipient will know whom to contact. If Contributor obtains such knowledge after the Modification is made available as described in Section 3.2, Contributor shall promptly modify the LEGAL file in all copies Contributor makes available thereafter and shall take other steps (such as notifying appropriate mailing lists or newsgroups) reasonably calculated to inform those who received the Covered Code that new knowledge has been obtained.

(b) Contributor APIs.

If Contributor's Modifications include an application programming interface and Contributor has knowledge of patent licenses which are reasonably necessary to implement that API, Contributor must also include this information in the LEGAL file.

(c) Representations.

Contributor represents that, except as disclosed pursuant to Section 3.4(a) above, Contributor believes that Contributor's Modifications are Contributor's original creation(s) and/or Contributor has sufficient rights to grant the rights conveyed by this License.

3.5. Required Notices.

You must duplicate the notice in Exhibit A in each file of the Source Code. If it is not possible to put such notice in a particular Source Code file due to its structure, then You must include such notice in a location (such as a relevant directory) where a user would be likely to look for such a notice. If You created one or more Modification(s) You may add your name as a Contributor to the notice described in Exhibit A. You must also duplicate this License in any documentation for the Source Code where You describe recipients' rights or ownership rights relating to Covered Code. You may choose to offer, and to charge a fee for, warranty, support, indemnity or liability obligations to one or more recipients of Covered Code. However, You may do so only on Your own behalf, and not on behalf of the Initial Developer or any Contributor. You must make it absolutely clear that any such warranty, support, indemnity or liability obligation is offered by You alone, and You hereby agree to indemnify the Initial Developer and every Contributor for any liability incurred by the Initial Developer or such Contributor as a result of warranty, support, indemnity or liability terms You offer.

3.6. Distribution of Executable Versions.

You may distribute Covered Code in Executable form only if the requirements of Section 3.1-3.5 have been met for that Covered Code, and if You include a notice stating that the Source Code version of the Covered Code is available under the terms of this License, including a description of how and where You have fulfilled the obligations of Section 3.2. The notice must be conspicuously included in any notice in an Executable version, related documentation or collateral in which You describe recipients' rights relating to the Covered Code. You may distribute the Executable version of Covered Code or ownership rights under a license of Your choice, which may contain terms different from this License, provided that You are in compliance with the terms of this License and that the license for the Executable version does not attempt to limit or alter the recipient's rights in the Source Code version from the rights set forth in this License. If You distribute the Executable version under a different license You must make it absolutely clear that any terms which differ from this License are offered by You alone, not by the Initial Developer or any Contributor. You hereby agree to indemnify the Initial Developer and every Contributor for any liability incurred by the Initial Developer or such Contributor as a result of any such terms You offer.

3.7. Larger Works.

You may create a Larger Work by combining Covered Code with other code not governed by the terms of this License and distribute the Larger Work as a single product. In such a case, You must make sure the requirements of this License are fulfilled for the Covered Code.

4. Inability to Comply Due to Statute or Regulation.

If it is impossible for You to comply with any of the terms of this License with respect to some or all of the Covered Code due to statute, judicial order, or regulation then You must: (a) comply with the terms of this License to the maximum extent possible; and (b) describe the limitations and the code they affect. Such description must be included in the LEGAL file described in Section 3.4 and must be included with all distributions of the Source Code. Except to the extent prohibited by statute or regulation, such description must be sufficiently detailed for a recipient of ordinary skill to be able to understand it.

5. Application of this License.

This License applies to code to which the Initial Developer has attached the notice in Exhibit A and to related Covered Code.

6. Versions of the License.

6.1. New Versions.

Netscape Communications Corporation ("Netscape") may publish revised and/or new versions of the License from time to time. Each version will be given a distinguishing version number.

6.2. Effect of New Versions.

Once Covered Code has been published under a particular version of the License, You may always continue to use it under the terms of that version. You may also choose to use such Covered Code under the terms of any subsequent version of the License published by Netscape. No one other than Netscape has the right to modify the terms applicable to Covered Code created under this License.

6.3. Derivative Works.

If You create or use a modified version of this License (which you may only do in order to apply it to code which is not already Covered Code governed by this License), You must (a) rename Your license so that the phrases "Mozilla", "MOZILLAPL", "MOZPL", "Netscape", "MPL", "NPL" or any confusingly similar phrase do not appear in your license (except to note that your license differs from this License) and (b) otherwise make it clear that Your version of the license contains terms which differ from the Mozilla Public License and Netscape Public License. (Filling in the name of the Initial Developer, Original Code or Contributor in the notice described in Exhibit A shall not of themselves be deemed to be modifications of this License.)

7. DISCLAIMER OF WARRANTY.

COVERED CODE IS PROVIDED UNDER THIS LICENSE ON AN "AS IS" BASIS, WITHOUT WARRANTY OF ANY KIND, EITHER EXPRESSED OR IMPLIED, INCLUDING, WITHOUT LIMITATION, WARRANTIES THAT THE COVERED CODE IS FREE OF DEFECTS, MERCHANTABLE, FIT FOR A PARTICULAR PURPOSE OR NON-INFRINGEMENT. THE ENTIRE RISK AS TO THE QUALITY AND PERFORMANCE OF THE COVERED CODE IS WITH YOU. SHOULD ANY COVERED CODE PROVE DEFECTIVE IN ANY RESPECT, YOU (NOT THE INITIAL DEVELOPER OR ANY OTHER CONTRIBUTOR) ASSUME THE COST OF ANY NECESSARY SERVICING, REPAIR OR CORRECTION. THIS DISCLAIMER OF WARRANTY CONSTITUTES AN ESSENTIAL PART OF THIS LICENSE. NO USE OF ANY COVERED CODE IS AUTHORIZED HEREUNDER EXCEPT UNDER THIS DISCLAIMER.

8. TERMINATION.

8.1. This License and the rights granted hereunder will terminate automatically if You fail to comply with terms herein and fail to cure such breach within 30 days of becoming aware of the breach. All sublicenses to the Covered Code which are properly granted shall survive any termination of this License. Provisions which, by their nature, must remain in effect beyond the termination of this License shall survive.

8.2. If You initiate litigation by asserting a patent infringement claim (excluding declaratory judgment actions) against Initial Developer or a Contributor (the Initial Developer or Contributor against whom You file such action is referred to as "Participant") alleging that:

(a) such Participant's Contributor Version directly or indirectly infringes any patent, then any and all rights granted by such Participant to You under Sections 2.1 and/or 2.2 of this License shall, upon 60 days notice from Participant terminate prospectively, unless if within 60 days after receipt of notice You either: (i) agree in writing to pay Participant a mutually agreeable reasonable royalty for Your past and future use of Modifications made by such Participant, or (ii) withdraw Your litigation claim with respect to the Contributor Version against such Participant. If within 60 days of notice, a reasonable royalty and payment arrangement are not mutually agreed upon in writing by the parties or the litigation claim is not withdrawn, the rights granted by Participant to You under Sections 2.1 and/or 2.2 automatically terminate at the expiration of the 60 day notice period specified above.

(b) any software, hardware, or device, other than such Participant's Contributor Version, directly or indirectly infringes any patent, then any rights granted to You by such Participant under Sections 2.1(b) and 2.2(b) are revoked effective as of the date You first made, used, sold, distributed, or had made, Modifications made by that Participant.

8.3. If You assert a patent infringement claim against Participant alleging that such Participant's Contributor Version directly or indirectly infringes any patent where such claim is resolved (such as by license or settlement) prior to the initiation of patent infringement litigation, then the reasonable value of the licenses granted by such Participant under Sections 2.1 or 2.2 shall be taken into account in determining the amount or value of any payment or license.

8.4. In the event of termination under Sections 8.1 or 8.2 above,

all end user license agreements (excluding distributors and resellers) which have been validly granted by You or any distributor hereunder prior to termination shall survive termination.

9. LIMITATION OF LIABILITY.

UNDER NO CIRCUMSTANCES AND UNDER NO LEGAL THEORY, WHETHER TORT (INCLUDING NEGLIGENCE), CONTRACT, OR OTHERWISE, SHALL YOU, THE INITIAL DEVELOPER, ANY OTHER CONTRIBUTOR, OR ANY DISTRIBUTOR OF COVERED CODE, OR ANY SUPPLIER OF ANY OF SUCH PARTIES, BE LIABLE TO ANY PERSON FOR ANY INDIRECT, SPECIAL, INCIDENTAL, OR CONSEQUENTIAL DAMAGES OF ANY CHARACTER INCLUDING, WITHOUT LIMITATION, DAMAGES FOR LOSS OF GOODWILL, WORK STOPPAGE, COMPUTER FAILURE OR MALFUNCTION, OR ANY AND ALL OTHER COMMERCIAL DAMAGES OR LOSSES, EVEN IF SUCH PARTY SHALL HAVE BEEN INFORMED OF THE POSSIBILITY OF SUCH DAMAGES. THIS LIMITATION OF LIABILITY SHALL NOT APPLY TO LIABILITY FOR DEATH OR PERSONAL INJURY RESULTING FROM SUCH PARTY'S NEGLIGENCE TO THE EXTENT APPLICABLE LAW PROHIBITS SUCH LIMITATION. SOME JURISDICTIONS DO NOT ALLOW THE EXCLUSION OR LIMITATION OF INCIDENTAL OR CONSEQUENTIAL DAMAGES, SO THIS EXCLUSION AND LIMITATION MAY NOT APPLY TO YOU.

10. U.S. GOVERNMENT END USERS.

The Covered Code is a "commercial item," as that term is defined in 48 C.F.R. 2.101 (Oct. 1995), consisting of "commercial computer software" and "commercial computer software documentation," as such terms are used in 48 C.F.R. 12.212 (Sept. 1995). Consistent with 48 C.F.R. 12.212 and 48 C.F.R. 227.7202-1 through 227.7202-4 (June 1995), all U.S. Government End Users acquire Covered Code with only those rights set forth herein.

11. MISCELLANEOUS.

This License represents the complete agreement concerning subject matter hereof. If any provision of this License is held to be unenforceable, such provision shall be reformed only to the extent necessary to make it enforceable. This License shall be governed by California law provisions (except to the extent applicable law, if any, provides otherwise), excluding its conflict-of-law provisions. With respect to disputes in which at least one party is a citizen of, or an entity chartered or registered to do business in the United States of America, any litigation relating to this License shall be subject to the jurisdiction of the Federal Courts of the Northern District of California, with venue lying in Santa Clara County, California, with the losing party responsible for costs, including without limitation, court costs and reasonable attorneys' fees and expenses. The application of the United Nations Convention on Contracts for the International Sale of Goods is expressly excluded. Any law or regulation which provides that the language of a contract shall be construed against the drafter shall not apply to this License.

12. RESPONSIBILITY FOR CLAIMS.

As between Initial Developer and the Contributors, each party is responsible for claims and damages arising, directly or indirectly, out of its utilization of rights under this License and You agree to work with Initial Developer and Contributors to distribute such responsibility on an equitable basis. Nothing herein is intended or shall be deemed to constitute any admission of liability.

13. MULTIPLE-LICENSED CODE.

Initial Developer may designate portions of the Covered Code as "Multiple-Licensed". "Multiple-Licensed" means that the Initial Developer permits you to utilize portions of the Covered Code under Your choice of the MPL or the alternative licenses, if any, specified by the Initial Developer in the file described in Exhibit A.

EXHIBIT A -Mozilla Public License.

The contents of this file are subject to the Mozilla Public License Version 1.1 (the "License"); you may not use this file except in compliance with the License. You may obtain a copy of the License at <https://www.mozilla.org/MPL>

Software distributed under the License is distributed on an "AS IS" basis, WITHOUT WARRANTY OF ANY KIND, either express or implied. See the License for the specific language governing rights and limitations under the License.

GNU LESSER GENERAL PUBLIC LICENSE

Version 2.1, February 1999

Copyright (C) 1991, 1999 Free Software Foundation, Inc.

51 Franklin Street, Fifth Floor, Boston, MA 02110-1301 USA

Everyone is permitted to copy and distribute verbatim copies of this license document, but changing it is not allowed.

This is the first released version of the Lesser GPL. It also counts as the successor of the GNU Library Public License, version 2, hence the version number 2.1.]

Preamble

The licenses for most software are designed to take away your freedom to share and change it. By contrast, the GNU General Public Licenses are intended to guarantee your freedom to share and change free software--to make sure the software is free for all its users.

This license, the Lesser General Public License, applies to some specially designated software packages--typically libraries--of the Free Software Foundation and other authors who decide to use it. You can use it too, but we suggest you first think carefully about whether this license or the ordinary General Public License is the better strategy to use in any particular case, based on the explanations below. When we speak of free software, we are referring to freedom of use, not price. Our General Public Licenses are designed to make sure that you have the freedom to distribute copies of free software (and charge for this service if you wish); that you receive source code or can get it if you want it; that you can change the software and use pieces of it in new free programs; and that you are informed that you can do these things.

To protect your rights, we need to make restrictions that forbid distributors to deny you these rights or to ask you to surrender these rights. These restrictions translate to certain responsibilities for you if you distribute copies of the library or if you modify it.

For example, if you distribute copies of the library, whether gratis or for a fee, you must give the recipients all the rights that we gave you. You must make sure that they, too, receive or can get the source code. If you link other code with the library, you must provide complete object files to the recipients, so that they can relink them with the library after making changes to the library and recompiling it. And you must show them these terms so they know their rights.

We protect your rights with a two-step method: (1) we copyright the library, and (2) we offer you this license, which gives you legal permission to copy, distribute and/or modify the library.

To protect each distributor, we want to make it very clear that there is no warranty for the free library. Also, if the library is modified by someone else and passed on, the recipients should know that what they have is not the original version, so that the original author's reputation will not be affected by problems that might be introduced by others.

Finally, software patents pose a constant threat to the existence of any free program. We wish to make sure that a company cannot effectively restrict the users of a free program by obtaining a restrictive license from a patent holder. Therefore, we insist that any patent license obtained for a version of the library must be consistent with the full freedom of use specified in this license.

Most GNU software, including some libraries, is covered by the ordinary GNU General Public License. This license, the GNU Lesser General Public License, applies to certain designated libraries, and

is quite different from the ordinary General Public License. We use this license for certain libraries in order to permit linking those libraries into non-free programs.

When a program is linked with a library, whether statically or using a shared library, the combination of the two is legally speaking a combined work, a derivative of the original library. The ordinary General Public License therefore permits such linking only if the entire combination fits its criteria of freedom. The Lesser General Public License permits more lax criteria for linking other code with the library.

We call this license the "Lesser" General Public License because it does Less to protect the user's freedom than the ordinary General Public License. It also provides other free software developers Less of an advantage over competing non-free programs. These disadvantages are the reason we use the ordinary General Public License for many libraries. However, the Lesser license provides advantages in certain special circumstances.

For example, on rare occasions, there may be a special need to encourage the widest possible use of a certain library, so that it becomes a de-facto standard. To achieve this, non-free programs must be allowed to use the library. A more frequent case is that a free library does the same job as widely used non-free libraries. In this case, there is little to gain by limiting the free library to free software only, so we use the Lesser General Public License.

In other cases, permission to use a particular library in non-free programs enables a greater number of people to use a large body of free software. For example, permission to use the GNU C Library in non-free programs enables many more people to use the whole GNU operating system, as well as its variant, the GNU/Linux operating system.

Although the Lesser General Public License is Less protective of the users' freedom, it does ensure that the user of a program that is linked with the Library has the freedom and the wherewithal to run that program using a modified version of the Library.

The precise terms and conditions for copying, distribution and modification follow. Pay close attention to the difference between a work based on the library" and a "work that uses the library". The former contains code derived from the library, whereas the latter must be combined with the library in order to run.

GNU LESSER GENERAL PUBLIC LICENSE

TERMS AND CONDITIONS FOR COPYING, DISTRIBUTION AND MODIFICATION

0. This License Agreement applies to any software library or other program which contains a notice placed by the copyright holder or other authorized party saying it may be distributed under the terms of this Lesser General Public License (also called "this License").

Each licensee is addressed as "you".

A "library" means a collection of software functions and/or data prepared so as to be conveniently linked with application programs (which use some of those functions and data) to form executables.

The "Library", below, refers to any such software library or work which has been distributed under these terms. A "work based on the Library" means either the Library or any derivative work under copyright law: that is to say, a work containing the Library or a portion of it, either verbatim or with modifications and/or translated straightforwardly into another language. (Hereinafter, translation is included without limitation in the term "modification".)

Source code" for a work means the preferred form of the work for making modifications to it. For a library, complete source code means all the source code for all modules it contains, plus any associated interface definition files, plus the scripts used to control compilation and installation of the library.

Activities other than copying, distribution and modification are not covered by this License; they are outside its scope. The act of running a program using the Library is not restricted, and output from such a program is covered only if its contents constitute a work based on the Library (independent of the use of the Library in a tool for writing it). Whether that is true depends on what the Library does and what the program that uses the Library does.

IN NO EVENT SHALL NCIPHER CORPORATION LIMITED ('NCIPHER') AND/OR ANY OTHER AUTHORS OR DISTRIBUTORS OF THIS FILE BE LIABLE for any

damages arising directly or indirectly from this file, its use or this licence. Without prejudice to the generality of the foregoing: all liability shall be excluded for direct, indirect, special, incidental, consequential or other damages or any loss of profits, business, revenue goodwill or anticipated savings liability shall be excluded even if nCipher or anyone else has been advised of the possibility of damage. In any event, if the exclusion of liability is not effective, the liability of nCipher or any author or distributor shall be limited to the lesser of the price paid and 1,000 pounds sterling. This licence only fails to exclude or limit liability for death or personal injury arising out of negligence, and only to the extent that such an exclusion or limitation is not effective.

NCIPHER AND THE AUTHORS AND DISTRIBUTORS SPECIFICALLY DISCLAIM ALL AND ANY WARRANTIES (WHETHER EXPRESS OR IMPLIED), including, but not limited to, any implied warranties of merchantability, fitness for a particular purpose, satisfactory quality, and/or non-infringement of any third party rights.

US Government use: This software and documentation is Commercial Computer Software and Computer Software Documentation, as defined in sub-paragraphs (a)(1) and (a)(5) of DFAR 252.227-7014, "Rights in Noncommercial Computer Software and Noncommercial Computer Software Documentation." Use, duplication or disclosure by the Government is subject to the terms and conditions specified here.

By using or distributing this file you will be accepting these terms and conditions, including the limitation of liability and lack of warranty. If you do not wish to accept these terms and conditions, DO NOT USE THE FILE.

The actual dynamically loadable plugin, and the library files for static linking, which are also provided in some distributions, are not covered by the licence described above. You should have received a separate licence with terms and conditions for these library files; if you received the library files without a licence, please contact nCipher.

At least you need two steps: generating the key & request and then installing

the certificate. A real world CA would have some more steps involved, eg. accepting some license. Note that both scripts shown below are just experimental state without any warrenty

Open Source Software - strongSwan - 5.3.5

Enclosed you will find [license condtions](#) and [copyright notices](#) applicable for strongSwan - 5.3.5.

Licenses
This program is free software; you can redistribute it and/or modify it under the terms of the GNU General Public License as published by the Free Software Foundation; either version 2 of the License, or (at your option) any later version. This program is distributed in the hope that it will be useful, but WITHOUT ANY WARRANTY; without even the implied warranty of MERCHANTABILITY or FITNESS FOR A PARTICULAR PURPOSE. See the GNU General Public License for more details. You should have received a copy of the GNU General Public License along with this program; if not, see <http://www.gnu.org/licenses>. Linking strongSwan statically or dynamically with other modules is making a combined work based on strongSwan. Thus, the terms and conditions of the GNU General Public License cover the whole combination. In addition, as a special exception, the copyright holders of strongSwan give you permission to combine strongSwan with free software programs or libraries that are released under the GNU LGPL and with code included in the standard release of the OpenSSL project's OpenSSL library under the OpenSSL or SSLeay licenses (or modified versions of such code, with unchanged license). You may copy and distribute such a system following the terms of the GNU GPL for strongSwan and the licenses of the other code concerned, provided that you include the source code of that other code when and as the GNU GPL requires distribution of source code. Note that people who make modified versions of strongSwan are not obligated to

grant this special exception for their modified versions; it is their choice whether to do so. The GNU General Public License gives permission to release a modified version without this exception; this exception also makes it possible to release a modified version which carries forward this exception.

Version 2, June 1991

Copyright (C) 1989, 1991 Free Software Foundation, Inc.,

Everyone is permitted to copy and distribute verbatim copies
of this license document, but changing it is not allowed.

Preamble

The licenses for most software are designed to take away your freedom to share and change it. By contrast, the GNU General Public License is intended to guarantee your freedom to share and change free software--to make sure the software is free for all its users. This General Public License applies to most of the Free Software Foundation's software and to any other program whose authors commit to using it. (Some other Free Software Foundation software is covered by the GNU Lesser General Public License instead.) You can apply it to your programs, too.

When we speak of free software, we are referring to freedom, not price. Our General Public Licenses are designed to make sure that you have the freedom to distribute copies of free software (and charge for this service if you wish), that you receive source code or can get it if you want it, that you can change the software or use pieces of it in new free programs; and that you know you can do these things.

To protect your rights, we need to make restrictions that forbid anyone to deny you these rights or to ask you to surrender the rights. These restrictions translate to certain responsibilities for you if you distribute copies of the software, or if you modify it.

For example, if you distribute copies of such a program, whether gratis or for a fee, you must give the recipients all the rights that you have. You must make sure that they, too, receive or can get the source code. And you must show them these terms so they know their rights.

We protect your rights with two steps: (1) copyright the software, and (2) offer you this license which gives you legal permission to copy, distribute and/or modify the software.

Also, for each author's protection and ours, we want to make certain that everyone understands that there is no warranty for this free software. If the software is modified by someone else and passed on, we want its recipients to know that what they have is not the original, so that any problems introduced by others will not reflect on the original authors' reputations.

Finally, any free program is threatened constantly by software patents. We wish to avoid the danger that redistributors of a free program will individually obtain patent licenses, in effect making the program proprietary. To prevent this, we have made it clear that any patent must be licensed for everyone's free use or not licensed at all. The precise terms and conditions for copying, distribution and modification follow.

GNU GENERAL PUBLIC LICENSE

TERMS AND CONDITIONS FOR COPYING, DISTRIBUTION AND MODIFICATION

0. This License applies to any program or other work which contains a notice placed by the copyright holder saying it may be distributed under the terms of this General Public License. The "Program", below, refers to any such program or work, and a "work based on the Program" means either the Program or any derivative work under copyright law: that is to say, a work containing the Program or a portion of it, either verbatim or with modifications and/or translated into another language. (Hereinafter, translation is included without limitation in the term "modification".) Each licensee is addressed as "you".

Activities other than copying, distribution and modification are not covered by this License; they are outside its scope. The act of running the Program is not restricted, and the output from the Program is covered only if its contents constitute a work based on the Program (independent of having been made by running the Program). Whether that is true depends on what the Program does.

1. You may copy and distribute verbatim copies of the Program's source code as you receive it, in any medium, provided that you conspicuously and appropriately publish on each copy an appropriate

copyright notice and disclaimer of warranty; keep intact all the notices that refer to this License and to the absence of any warranty and give any other recipients of the Program a copy of this License along with the Program.

You may charge a fee for the physical act of transferring a copy, and you may at your option offer warranty protection in exchange for a fee.

2. You may modify your copy or copies of the Program or any portion of it, thus forming a work based on the Program, and copy and distribute such modifications or work under the terms of Section 1 above, provided that you also meet all of these conditions:

a) You must cause the modified files to carry prominent notices stating that you changed the files and the date of any change.

b) You must cause any work that you distribute or publish, that in whole or in part contains or is derived from the Program or any part thereof, to be licensed as a whole at no charge to all third parties under the terms of this License.

c) If the modified program normally reads commands interactively when run, you must cause it, when started running for such interactive use in the most ordinary way, to print or display an announcement including an appropriate copyright notice and a notice that there is no warranty (or else, saying that you provide a warranty) and that users may redistribute the program under these conditions, and telling the user how to view a copy of this License. (Exception: if the Program itself is interactive but does not normally print such an announcement, your work based on the Program is not required to print an announcement.)

These requirements apply to the modified work as a whole. If identifiable sections of that work are not derived from the Program, and can be reasonably considered independent and separate works in themselves, then this License, and its terms, do not apply to those sections when you distribute them as separate works. But when you distribute the same sections as part of a whole which is a work based on the Program, the distribution of the whole must be on the terms of this License, whose permissions for other licensees extend to the entire whole, and thus to each and every part regardless of who wrote it. Thus, it is not the intent of this section to claim rights or contest your rights to work written entirely by you; rather, the intent is to exercise the right to control the distribution of derivative or collective works based on the Program.

In addition, mere aggregation of another work not based on the Program with the Program (or with a work based on the Program) on a volume of a storage or distribution medium does not bring the other work under the scope of this License.

3. You may copy and distribute the Program (or a work based on it, under Section 2) in object code or executable form under the terms of Sections 1 and 2 above provided that you also do one of the following:

a) Accompany it with the complete corresponding machine-readable source code, which must be distributed under the terms of Sections 1 and 2 above on a medium customarily used for software interchange; or,

b) Accompany it with a written offer, valid for at least three years, to give any third party, for a charge no more than your cost of physically performing source distribution, a complete machine-readable copy of the corresponding source code, to be distributed under the terms of Sections 1 and 2 above on a medium customarily used for software interchange; or,

c) Accompany it with the information you received as to the offer to distribute corresponding source code. (This alternative is allowed only for noncommercial distribution and only if you received the program in object code or executable form with such an offer, in accord with Subsection b above.)

The source code for a work means the preferred form of the work for making modifications to it. For an executable work, complete source code means all the source code for all modules it contains, plus any associated interface definition files, plus the scripts used to control compilation and installation of the executable. However, as a special exception, the source code distributed need not include anything that is normally distributed (in either source or binary form) with the major components (compiler, kernel, and so on) of the operating system on which the executable runs, unless that component itself accompanies the executable.

If distribution of executable or object code is made by offering

access to copy from a designated place, then offering equivalent access to copy the source code from the same place counts as distribution of the source code, even though third parties are not compelled to copy the source along with the object code.

4. You may not copy, modify, sublicense, or distribute the Program except as expressly provided under this License. Any attempt otherwise to copy, modify, sublicense or distribute the Program is void, and will automatically terminate your rights under this License. However, parties who have received copies, or rights, from you under this License will not have their licenses terminated so long as such parties remain in full compliance.

5. You are not required to accept this License, since you have not signed it. However, nothing else grants you permission to modify or distribute the Program or its derivative works. These actions are prohibited by law if you do not accept this License. Therefore, by modifying or distributing the Program (or any work based on the Program), you indicate your acceptance of this License to do so, and all its terms and conditions for copying, distributing or modifying the Program or works based on it.

6. Each time you redistribute the Program (or any work based on the Program), the recipient automatically receives a license from the original licensor to copy, distribute or modify the Program subject to these terms and conditions. You may not impose any further restrictions on the recipients' exercise of the rights granted herein. You are not responsible for enforcing compliance by third parties to this License.

7. If, as a consequence of a court judgment or allegation of patent infringement or for any other reason (not limited to patent issues), conditions are imposed on you (whether by court order, agreement or otherwise) that contradict the conditions of this License, they do not excuse you from the conditions of this License. If you cannot distribute so as to satisfy simultaneously your obligations under this License and any other pertinent obligations, then as a consequence you may not distribute the Program at all. For example, if a patent license would not permit royalty-free redistribution of the Program by all those who receive copies directly or indirectly through you, then the only way you could satisfy both it and this License would be to refrain entirely from distribution of the Program.

If any portion of this section is held invalid or unenforceable under any particular circumstance, the balance of the section is intended to apply and the section as a whole is intended to apply in other circumstances.

It is not the purpose of this section to induce you to infringe any patents or other property right claims or to contest validity of any such claims; this section has the sole purpose of protecting the integrity of the free software distribution system, which is implemented by public license practices. Many people have made generous contributions to the wide range of software distributed through that system in reliance on consistent application of that system; it is up to the author/donor to decide if he or she is willing to distribute software through any other system and a licensee cannot impose that choice.

This section is intended to make thoroughly clear what is believed to be a consequence of the rest of this License.

8. If the distribution and/or use of the Program is restricted in certain countries either by patents or by copyrighted interfaces, the original copyright holder who places the Program under this License may add an explicit geographical distribution limitation excluding those countries, so that distribution is permitted only in or among countries not thus excluded. In such case, this License incorporates the limitation as if written in the body of this License.

9. The Free Software Foundation may publish revised and/or new versions of the General Public License from time to time. Such new versions will be similar in spirit to the present version, but may differ in detail to address new problems or concerns.

Each version is given a distinguishing version number. If the Program specifies a version number of this License which applies to it and "any later version", you have the option of following the terms and conditions either of that version or of any later version published by the Free Software Foundation. If the Program does not specify a version number of this License, you may choose any version ever published by the Free Software

Foundation.

10. If you wish to incorporate parts of the Program into other free programs whose distribution conditions are different, write to the author to ask for permission. For software which is copyrighted by the Free Software Foundation, write to the Free Software Foundation; we sometimes make exceptions for this. Our decision will be guided by the two goals of preserving the free status of all derivatives of our free software and of promoting the sharing and reuse of software generally.

NO WARRANTY

11. BECAUSE THE PROGRAM IS LICENSED FREE OF CHARGE, THERE IS NO WARRANTY FOR THE PROGRAM, TO THE EXTENT PERMITTED BY APPLICABLE LAW. EXCEPT WHEN OTHERWISE STATED IN WRITING THE COPYRIGHT HOLDERS AND/OR OTHER PARTIES PROVIDE THE PROGRAM "AS IS" WITHOUT WARRANTY OF ANY KIND, EITHER EXPRESSED OR IMPLIED, INCLUDING, BUT NOT LIMITED TO, THE IMPLIED WARRANTIES OF MERCHANTABILITY AND FITNESS FOR A PARTICULAR PURPOSE. THE ENTIRE RISK AS TO THE QUALITY AND PERFORMANCE OF THE PROGRAM IS WITH YOU. SHOULD THE PROGRAM PROVE DEFECTIVE, YOU ASSUME THE COST OF ALL NECESSARY SERVICING, REPAIR OR CORRECTION.

12. IN NO EVENT UNLESS REQUIRED BY APPLICABLE LAW OR AGREED TO IN WRITING WILL ANY COPYRIGHT HOLDER, OR ANY OTHER PARTY WHO MAY MODIFY AND/OR REDISTRIBUTE THE PROGRAM AS PERMITTED ABOVE, BE LIABLE TO YOU FOR DAMAGES, INCLUDING ANY GENERAL, SPECIAL, INCIDENTAL OR CONSEQUENTIAL DAMAGES ARISING OUT OF THE USE OR INABILITY TO USE THE PROGRAM (INCLUDING BUT NOT LIMITED TO LOSS OF DATA OR DATA BEING RENDERED INACCURATE OR LOSSES SUSTAINED BY YOU OR THIRD PARTIES OR A FAILURE OF THE PROGRAM TO OPERATE WITH ANY OTHER PROGRAMS), EVEN IF SUCH HOLDER OR OTHER PARTY HAS BEEN ADVISED OF THE POSSIBILITY OF SUCH DAMAGES.

END OF TERMS AND CONDITIONS

How to Apply These Terms to Your New Programs

If you develop a new program, and you want it to be of the greatest possible use to the public, the best way to achieve this is to make it free software which everyone can redistribute and change under these terms.

To do so, attach the following notices to the program. It is safest to attach them to the start of each source file to most effectively convey the exclusion of warranty; and each file should have at least the "copyright" line and a pointer to where the full notice is found.
one line to give the program's name and a brief idea of what it does.>

Copyright (C) <year> <name of author>

This program is free software; you can redistribute it and/or modify it under the terms of the GNU General Public License as published by the Free Software Foundation; either version 2 of the License, or (at your option) any later version.

This program is distributed in the hope that it will be useful, but WITHOUT ANY WARRANTY; without even the implied warranty of MERCHANTABILITY or FITNESS FOR A PARTICULAR PURPOSE. See the GNU General Public License for more details.

You should have received a copy of the GNU General Public License along with this program; if not, write to the Free Software Foundation, Inc., 51 Franklin Street, Fifth Floor, Boston, MA 02110-1301 USA.

Also add information on how to contact you by electronic and paper mail.

If the program is interactive, make it output a short notice like this when it starts in an interactive mode:

Gnomovision version 69, Copyright (C) year name of author

Gnomovision comes with ABSOLUTELY NO WARRANTY; for details type 'show w'.

This is free software, and you are welcome to redistribute it under certain conditions; type 'show c' for details.

The hypothetical commands 'show w' and 'show c' should show the appropriate parts of the General Public License. Of course, the commands you use may be called something other than 'show w' and 'show c'; they could even be mouse-clicks or menu items--whatever suits your program.

You should also get your employer (if you work as a programmer) or your school, if any, to sign a "copyright disclaimer" for the program, if necessary. Here is a sample; alter the names:

Yoyodyne, Inc., hereby disclaims all copyright interest in the program
Gnomovision' (which makes passes at compilers) written by James Hacker.

This General Public License does not permit incorporating your program into proprietary programs. If your program is a subroutine library, you may consider it more useful to permit linking proprietary applications with the library. If this is what you want to do, use the GNU Lesser General

Public License instead of this License.

CYGNUS ECOS PUBLIC LICENSE Version 1.0

1. DEFINITIONS.

1.1. "Contributor" means each entity that creates or contributes to the creation of Modifications.

1.2. "Contributor Version" means the combination of the Original Code, prior Modifications used by a Contributor, and the Modifications made by that particular Contributor.

1.3. "Covered Code" means the Original Code or Modifications or the combination of the Original Code and Modifications, in each case including portions thereof.

1.4. "Electronic Distribution Mechanism" means a mechanism generally accepted in the software development community for the electronic transfer of data.

1.5. "Executable" means Covered Code in any form other than Source Code.

1.6. "Initial Developer" means the individual or entity identified as the Initial Developer in the Source Code notice required by Exhibit A.

1.7. "Larger Work" means a work which combines Covered Code or portions thereof with code not governed by the terms of this License.

1.8. "License" means this document.

1.9. "Modifications" means any addition to or deletion from the substance or structure of either the Original Code or any previous Modifications. When Covered Code is released as a series of files, a Modification is:

A. Any addition to or deletion from the contents of a file containing Original Code or previous Modifications.

B. Any new file that contains any part of the Original Code or previous Modifications.

1.10. "Original Code" means Source Code of computer software code which is described in the Source Code notice required by Exhibit A as Original Code, and which, at the time of its release under this License is not already Covered Code governed by this License.

1.11. "Source Code" means the preferred form of the Covered Code for making modifications to it, including all modules it contains, plus any associated interface

definition files, scripts used to control compilation and installation of an Executable, or a list of source code differential comparisons against either the Original Code or another well known, available Covered Code of the Contributor's choice. The Source Code can be in a compressed or archival form, provided the appropriate decompression or de-archiving software is widely available for no charge.

1.12. "You" means an individual or a legal entity exercising rights under, and complying with all of the terms of, this License or a future version of this License issued under Section 6.1. For legal entities, "You" includes any entity which controls, is controlled by, or is under common control with You. For purposes of this definition, "control" means (a) the power, direct or indirect, to cause the direction or management of such entity, whether by contract or otherwise, or (b) ownership of fifty percent (50%) or more of the outstanding shares or beneficial ownership of such entity.

1.13. "Cygnus's Branded Code" is code that Cygnus Solutions ("Cygnus") distributes and/or permits others to distribute under different terms than the Cygnus eCos Public License. Cygnus's Branded Code may contain part or all of the Covered Code.

2. SOURCE CODE LICENSE.

2.1. The Initial Developer Grant.

The Initial Developer hereby grants You a world-wide, royalty-free, non-exclusive license, subject to third party intellectual property claims:

(a) to use, reproduce, modify, display, perform, sublicense and distribute the Original Code (or portions thereof) with or without Modifications, or as part of a Larger Work; and

(b) under patents now or hereafter owned or controlled by Initial Developer, to make, have made, use and sell ("Utilize") the Original Code (or portions thereof), but solely to the extent that any such patent is reasonably necessary to enable You to Utilize the Original Code (or portions thereof) and not to any greater extent that may be necessary to Utilize further Modifications or combinations.

2.2. Contributor Grant.

Each Contributor hereby grants You a world-wide, royalty-free, non-exclusive license, subject to third party intellectual property claims:

(a) to use, reproduce, modify, display, perform, sublicense and distribute the Modifications created by such Contributor (or portions thereof) either on an unmodified basis, with other Modifications, as Covered Code or as part of a Larger Work; and

(b) under patents now or hereafter owned or controlled by Contributor, to Utilize the Contributor Version (or portions thereof), but solely to the extent that any such patent is reasonably necessary to enable You to Utilize the Contributor Version (or portions thereof), and not to any greater extent that may be necessary to Utilize further Modifications or combinations.

3. DISTRIBUTION OBLIGATIONS.

3.1. Application of License.

The Modifications which You create or to which You contribute are governed by the terms of this License, including without limitation Section 2.2. The Source Code version of Covered Code may be distributed only under the terms of this License or a future version of this License released under Section 6.1, and You must include a copy of this License with every copy of the Source Code You distribute. You may not offer or impose any terms on any Source Code version that alters or restricts the applicable version of this License or the recipients' rights hereunder. However, You may include an additional document offering the additional rights described in Section 3.5.

3.2. Availability of Source Code.

Any Modification which You create or to which You

contribute must be made available in Source Code form under the terms of this License via an accepted Electronic Distribution Mechanism to anyone to whom you made an Executable version available and to the Initial Developer and if made available via Electronic Distribution Mechanism, must remain available for at least twelve (12) months after the date it initially became available, or at least six (6) months after a subsequent version of that particular Modification has been made available to such recipients. You are responsible for ensuring that the Source Code version remains available even if the Electronic Distribution Mechanism is maintained by a third party. You are responsible for notifying the Initial Developer of the Modification and the location of the Source if a contact means is provided. Cygnus will be acting as maintainer of the Source and may provide an Electronic Distribution mechanism for the Modification to be made available. You can contact Cygnus to make the Modification available and to notify the Initial Developer. (<http://sourceware.cygnus.com/ecos>)

3.3. Description of Modifications.

You must cause all Covered Code to which you contribute to contain a file documenting the changes You made to create that Covered Code and the date of any change. You must include a prominent statement that the Modification is derived, directly or indirectly, from Original Code provided by the Initial Developer and including the name of the Initial Developer in (a) the Source Code, and (b) in any notice in an Executable version or related documentation in which You describe the origin or ownership of the Covered Code.

3.4. Intellectual Property Matters

(a) Third Party Claims.

If You have knowledge that a party claims an intellectual property right in particular functionality or code (or its utilization under this License), you must include a text file with the source code distribution titled "LEGAL" which describes the claim and the party making the claim in sufficient detail that a recipient will know whom to contact. If you obtain such knowledge after You make Your Modification available as described in Section 3.2, You shall promptly modify the LEGAL file in all copies You make available thereafter and shall take other steps (such as notifying appropriate mailing lists or newsgroups) reasonably calculated to inform those who received the Covered Code that new knowledge has been obtained.

(b) Contributor APIs.

If Your Modification is an application programming interface and You own or control patents which are reasonably necessary to implement that API, you must also include this information in the LEGAL file.

3.5. Required Notices.

You must duplicate the notice in Exhibit A in each file of the Source Code, and this License in any documentation for the Source Code, where You describe recipients' rights relating to Covered Code. If You created one or more Modification(s), You may add your name as a Contributor to the Source Code. If it is not possible to put such notice in a particular Source Code file due to its structure, then you must include such notice in a location (such as a relevant directory file) where a user would be likely to look for such a notice. You may choose to offer, and to charge a fee for, warranty, support, indemnity or liability obligations to one or more recipients of Covered Code.

However, You may do so only on Your own behalf, and not on behalf of the Initial Developer or any Contributor. You must make it absolutely clear that any such warranty, support, indemnity or liability obligation is offered by You alone, and You hereby agree to indemnify the Initial Developer and every Contributor for any liability incurred by the Initial Developer or such Contributor as a result of warranty, support, indemnity or liability terms You offer.

3.6. Distribution of Executable Versions.

You may distribute Covered Code in Executable form only if the requirements of Section 3.1-3.5 have been met for that Covered Code, and if You include a notice stating that the Source Code version of the Covered Code is available under the terms of this License, including a description of how and where You have fulfilled the obligations of Section 3.2. The notice must be conspicuously included in any notice in an Executable version, related documentation or collateral in which You describe recipients' rights relating to the Covered Code. You may distribute the Executable version of Covered Code under a license of Your choice, which may contain terms different from this License, provided that You are in compliance with the terms of this License and that the license for the Executable version does not attempt to limit or alter the recipient's rights in the Source Code version from the rights set forth in this License. If You distribute the Executable version under a different license You must make it absolutely clear that any terms which differ from this License are offered by You alone, not by the Initial Developer or any Contributor. You hereby agree to indemnify the Initial Developer and every Contributor for any liability incurred by the Initial Developer or such Contributor as a result of any such terms You offer.

If you distribute executable versions containing Covered Code, you must reproduce the notice in Exhibit B in the documentation and/or other materials provided with the product.

3.7. Larger Works.

You may create a Larger Work by combining Covered Code with other code not governed by the terms of this License and distribute the Larger Work as a single product. In such a case, You must make sure the requirements of this License are fulfilled for the Covered Code.

4. INABILITY TO COMPLY DUE TO STATUTE OR REGULATION.

If it is impossible for You to comply with any of the terms of this License with respect to some or all of the Covered Code due to statute or regulation then You must: (a) comply with the terms of this License to the maximum extent possible; (b) cite the statute or regulation that prohibits you from adhering to the license; and (c) describe the limitations and the code they affect. Such description must be included in the LEGAL file described in Section 3.4 and must be included with all distributions of the Source Code. Except to the extent prohibited by statute or regulation, such description must be sufficiently detailed for a recipient of ordinary skill to be able to understand it. You must submit this LEGAL file to Cygnus for review, and You will not be able use the covered code in any means until permission is granted from Cygnus to allow for the inability to comply due to statute or regulation.

5. APPLICATION OF THIS LICENSE.

This License applies to code to which the Initial Developer has attached the notice in Exhibit A, and to related Covered Code.

Cygnus may include Covered Code in products without such additional products becoming subject to the terms of this License, and may license such additional products on different terms from those contained in this License.

Cygnus may license the Source Code of Cygnus's Branded Code without Cygnus's Branded Code becoming subject to the terms of this License, and may license Cygnus's Branded Code on different terms from those contained in this License.

Contact Cygnus for details of alternate licensing terms available.

6. VERSIONS OF THE LICENSE.

6.1. New Versions.

Cygnus may publish revised and/or new versions of the License from time to time. Each version will be given a distinguishing version number.

6.2. Effect of New Versions.

Once Covered Code has been published under a particular version of the License, You may always continue to use it under the terms of that version. You may also choose to use such Covered Code under the terms of any subsequent version of the License published by Cygnus. No one other than Cygnus has the right to modify the terms applicable to Covered Code beyond what is granted under this and subsequent Licenses.

6.3. Derivative Works.

If you create or use a modified version of this License (which you may only do in order to apply it to code which is not already Covered Code governed by this License), you must (a) rename Your license so that the phrases "ECOS", "eCos", "Cygnus", "CPL" or any confusingly similar phrase do not appear anywhere in your license and (b) otherwise make it clear that your version of the license contains terms which differ from the eCos Public License and Cygnus Public License. (Filling in the name of the Initial Developer, Original Code or Contributor in the notice described in Exhibit A shall not of themselves be deemed to be modifications of this License.)

7. DISCLAIMER OF WARRANTY.

COVERED CODE IS PROVIDED UNDER THIS LICENSE ON AN "AS IS" BASIS, WITHOUT WARRANTY OF ANY KIND, EITHER EXPRESSED OR IMPLIED, INCLUDING, WITHOUT LIMITATION, WARRANTIES THAT THE COVERED CODE IS FREE OF DEFECTS, MERCHANTABLE, FIT FOR A PARTICULAR PURPOSE OR NON-INFRINGEMENT. THE ENTIRE RISK AS TO THE QUALITY AND PERFORMANCE OF THE COVERED CODE IS WITH YOU. SHOULD ANY COVERED CODE PROVE DEFECTIVE IN ANY RESPECT, YOU (NOT THE INITIAL DEVELOPER OR ANY OTHER CONTRIBUTOR) ASSUME THE COST OF ANY NECESSARY SERVICING, REPAIR OR CORRECTION. THIS DISCLAIMER OF WARRANTY CONSTITUTES AN ESSENTIAL PART OF THIS LICENSE. NO USE OF ANY COVERED CODE IS AUTHORIZED HEREUNDER EXCEPT UNDER THIS DISCLAIMER.

8. TERMINATION.

This License and the rights granted hereunder will terminate automatically if You fail to comply with terms herein and fail to cure such breach within 30 days of becoming aware of the breach. All sublicenses to the Covered Code which are properly granted shall survive any termination of this License. Provisions which, by their nature, must remain in effect beyond the termination of this License shall survive.

9. LIMITATION OF LIABILITY.

UNDER NO CIRCUMSTANCES AND UNDER NO LEGAL THEORY, WHETHER TORT (INCLUDING NEGLIGENCE), CONTRACT, OR OTHERWISE, SHALL THE INITIAL DEVELOPER, ANY OTHER CONTRIBUTOR, OR ANY DISTRIBUTOR OF COVERED CODE, OR ANY SUPPLIER OF ANY OF SUCH PARTIES, BE LIABLE TO YOU OR ANY OTHER PERSON FOR ANY INDIRECT, SPECIAL, INCIDENTAL, OR CONSEQUENTIAL DAMAGES OF ANY CHARACTER INCLUDING, WITHOUT LIMITATION, DAMAGES FOR LOSS OF GOODWILL, WORK STOPPAGE, COMPUTER FAILURE OR MALFUNCTION, OR ANY AND ALL OTHER COMMERCIAL DAMAGES OR LOSSES, EVEN IF SUCH PARTY SHALL HAVE BEEN INFORMED OF THE POSSIBILITY OF SUCH DAMAGES. THIS LIMITATION OF LIABILITY SHALL NOT APPLY TO LIABILITY FOR DEATH OR PERSONAL INJURY RESULTING FROM SUCH PARTY'S NEGLIGENCE TO THE EXTENT APPLICABLE LAW PROHIBITS SUCH LIMITATION. SOME JURISDICTIONS DO NOT ALLOW THE EXCLUSION OR LIMITATION OF INCIDENTAL OR CONSEQUENTIAL DAMAGES, SO THAT EXCLUSION AND LIMITATION MAY NOT APPLY TO YOU.

10. U.S. GOVERNMENT END USERS.

The Covered Code is a "commercial item," as that term is defined in 48 C.F.R. 2.101 (Oct. 1995), consisting of commercial computer software" and "commercial computer software documentation," as such terms are used in 48 C.F.R. 12.212 (Sept. 1995). Consistent with 48 C.F.R. 12.212 and 48 C.F.R. 227.7202-1 through 227.7202-4 (June 1995), all U.S. Government End Users acquire Covered Code with only those rights set forth herein.

11. MISCELLANEOUS.

This License represents the complete agreement concerning subject matter hereof. If any provision of this License is held to be unenforceable, such provision shall be reformed only to the extent necessary to make it enforceable. This License shall be governed by California law provisions (except to the extent applicable law, if any, provides otherwise), excluding its conflict-of-law provisions. With respect to disputes in which at least one party is a citizen of, or an entity chartered or registered to do business in, the United States of America: (a) unless otherwise agreed in writing, all disputes relating to this License (excepting any dispute relating to intellectual property rights) shall be subject to final and binding arbitration, with the losing party paying all costs of arbitration; (b) any arbitration relating to this Agreement shall be held in Santa Clara County, California, under the auspices of JAMS/EndDispute; and (c) any litigation relating to this Agreement shall be subject to the jurisdiction of the Federal Courts of the Northern District of California, with venue lying in Santa Clara County, California, with the losing party responsible for costs, including without limitation, court costs and reasonable attorneys fees and expenses. The application of the United Nations Convention on Contracts for the International Sale of Goods is expressly excluded. Any law or regulation which provides that the language of a contract shall be construed against the drafter shall not apply to this License.

12. RESPONSIBILITY FOR CLAIMS.

Except in cases where another Contributor has failed to comply with Section 3.4, You are responsible for damages arising, directly or indirectly, out of Your utilization of rights under this License, based on the number of copies of Covered Code you made available, the revenues you received from utilizing such rights, and other relevant factors. You agree to work with affected parties to distribute responsibility on an equitable basis.

13. ADDITIONAL TERMS APPLICABLE TO THE CYGNUS ECOS PUBLIC LICENSE.

Nothing in this License shall be interpreted to prohibit Cygnus from licensing under different terms than this License any code which Cygnus otherwise would have a right to license.

Cygnus and logo - This License does not grant any rights to use the trademark Cygnus, the Cygnus logo, eCos logo, even if such marks are included in the Original Code. You may contact Cygnus for permission to display the Cygnus and eCos marks in either the documentation or the Executable version beyond that required in Exhibit B.

Inability to Comply Due to Contractual Obligation - To the extent that Cygnus is limited contractually from making third party code available under this License, Cygnus may choose to integrate such third party code into Covered Code without being required to distribute such third party code in Source Code form, even if such third party code would otherwise be considered "Modifications" under this License.

EXHIBIT A.

TERMS AND CONDITIONS FOR USE, REPRODUCTION, AND DISTRIBUTION

1. Definitions.

"License" shall mean the terms and conditions for use, reproduction, and distribution as defined by Sections 1 through 9 of this document.

"Licensor" shall mean the copyright owner or entity authorized by the copyright owner that is granting the License.

"Legal Entity" shall mean the union of the acting entity and all other entities that control, are controlled by, or are under common control with that entity. For the purposes of this definition, "control" means (i) the power, direct or indirect, to cause the direction or management of such entity, whether by contract or otherwise, or (ii) ownership of fifty percent (50%) or more of the outstanding shares, or (iii) beneficial ownership of such entity.

"You" (or "Your") shall mean an individual or Legal Entity exercising permissions granted by this License.

"Source" form shall mean the preferred form for making modifications, including but not limited to software source code, documentation source, and configuration files.

"Object" form shall mean any form resulting from mechanical transformation or translation of a Source form, including but not limited to compiled object code, generated documentation, and conversions to other media types.

"Work" shall mean the work of authorship, whether in Source or Object form, made available under the License, as indicated by a copyright notice that is included in or attached to the work

(an example is provided in the Appendix below).

"Derivative Works" shall mean any work, whether in Source or Object form, that is based on (or derived from) the Work and for which the editorial revisions, annotations, elaborations, or other modifications represent, as a whole, an original work of authorship. For the purposes of this License, Derivative Works shall not include works that remain separable from, or merely link (or bind by name) to the interfaces of, the Work and Derivative Works thereof.

"Contribution" shall mean any work of authorship, including the original version of the Work and any modifications or additions to that Work or Derivative Works thereof, that is intentionally submitted to Licensor for inclusion in the Work by the copyright owner or by an individual or Legal Entity authorized to submit on behalf of the copyright owner. For the purposes of this definition, "submitted" means any form of electronic, verbal, or written communication sent to the Licensor or its representatives, including but not limited to communication on electronic mailing lists, source code control systems, and issue tracking systems that are managed by, or on behalf of, the Licensor for the purpose of discussing and improving the Work, but excluding communication that is conspicuously marked or otherwise designated in writing by the copyright owner as "Not a Contribution."

"Contributor" shall mean Licensor and any individual or Legal Entity on behalf of whom a Contribution has been received by Licensor and subsequently incorporated within the Work.

2. Grant of Copyright License. Subject to the terms and conditions of this License, each Contributor hereby grants to You a perpetual, worldwide, non-exclusive, no-charge, royalty-free, irrevocable copyright license to reproduce, prepare Derivative Works of, publicly display, publicly perform, sublicense, and distribute the

Work and such Derivative Works in Source or Object form.

3. Grant of Patent License. Subject to the terms and conditions of this License, each Contributor hereby grants to You a perpetual, worldwide, non-exclusive, no-charge, royalty-free, irrevocable (except as stated in this section) patent license to make, have made, use, offer to sell, sell, import, and otherwise transfer the Work, where such license applies only to those patent claims licensable by such Contributor that are necessarily infringed by their Contribution(s) alone or by combination of their Contribution(s) with the Work to which such Contribution(s) was submitted. If You institute patent litigation against any entity (including a cross-claim or counterclaim in a lawsuit) alleging that the Work or a Contribution incorporated within the Work constitutes direct or contributory patent infringement, then any patent licenses granted to You under this License for that Work shall terminate as of the date such litigation is filed.

4. Redistribution. You may reproduce and distribute copies of the Work or Derivative Works thereof in any medium, with or without modifications, and in Source or Object form, provided that You meet the following conditions:

- (a) You must give any other recipients of the Work or Derivative Works a copy of this License; and
- (b) You must cause any modified files to carry prominent notices stating that You changed the files; and
- (c) You must retain, in the Source form of any Derivative Works that You distribute, all copyright, patent, trademark, and attribution notices from the Source form of the Work, excluding those notices that do not pertain to any part of

the Derivative Works; and

- (d) If the Work includes a "NOTICE" text file as part of its distribution, then any Derivative Works that You distribute must include a readable copy of the attribution notices contained within such NOTICE file, excluding those notices that do not pertain to any part of the Derivative Works, in at least one of the following places: within a NOTICE text file distributed as part of the Derivative Works; within the Source form or documentation, if provided along with the Derivative Works; or, within a display generated by the Derivative Works, if and wherever such third-party notices normally appear. The contents of the NOTICE file are for informational purposes only and do not modify the License. You may add Your own attribution notices within Derivative Works that You distribute, alongside or as an addendum to the NOTICE text from the Work, provided that such additional attribution notices cannot be construed as modifying the License.

You may add Your own copyright statement to Your modifications and may provide additional or different license terms and conditions for use, reproduction, or distribution of Your modifications, or for any such Derivative Works as a whole, provided Your use, reproduction, and distribution of the Work otherwise complies with the conditions stated in this License.

5. Submission of Contributions. Unless You explicitly state otherwise, any Contribution intentionally submitted for inclusion in the Work by You to the Licensor shall be under the terms and conditions of this License, without any additional terms or conditions.

Notwithstanding the above, nothing herein shall supersede or modify the terms of any separate license agreement you may have executed with Licensor regarding such Contributions.

6. Trademarks. This License does not grant permission to use the trade names, trademarks, service marks, or product names of the Licensor, except as required for reasonable and customary use in describing the origin of the Work and reproducing the content of the NOTICE file.
7. Disclaimer of Warranty. Unless required by applicable law or agreed to in writing, Licensor provides the Work (and each Contributor provides its Contributions) on an "AS IS" BASIS, WITHOUT WARRANTIES OR CONDITIONS OF ANY KIND, either express or implied, including, without limitation, any warranties or conditions of TITLE, NON-INFRINGEMENT, MERCHANTABILITY, or FITNESS FOR A PARTICULAR PURPOSE. You are solely responsible for determining the appropriateness of using or redistributing the Work and assume any risks associated with Your exercise of permissions under this License.
8. Limitation of Liability. In no event and under no legal theory, whether in tort (including negligence), contract, or otherwise, unless required by applicable law (such as deliberate and grossly negligent acts) or agreed to in writing, shall any Contributor be liable to You for damages, including any direct, indirect, special, incidental, or consequential damages of any character arising as a result of this License or out of the use or inability to use the Work (including but not limited to damages for loss of goodwill, work stoppage, computer failure or malfunction, or any and all other commercial damages or losses), even if such Contributor has been advised of the possibility of such damages.
9. Accepting Warranty or Additional Liability. While redistributing the Work or Derivative Works thereof, You may choose to offer, and charge a fee for, acceptance of support, warranty, indemnity, or other liability obligations and/or rights consistent with this License. However, in accepting such obligations, You may act only

on Your own behalf and on Your sole responsibility, not on behalf of any other Contributor, and only if You agree to indemnify, defend, and hold each Contributor harmless for any liability incurred by, or claims asserted against, such Contributor by reason of your accepting any such warranty or additional liability.

END OF TERMS AND CONDITIONS

APPENDIX: How to apply the Apache License to your work.

To apply the Apache License to your work, attach the following boilerplate notice, with the fields enclosed by brackets "[]" replaced with your own identifying information. (Don't include the brackets!) The text should be enclosed in the appropriate comment syntax for the file format. We also recommend that a file or class name and description of purpose be included on the same "printed page" as the copyright notice for easier identification within third-party archives.

Artistic-2

The Artistic License 2.0

Copyright (c) 2000-2006, The Perl Foundation.

Everyone is permitted to copy and distribute verbatim copies of this license document, but changing it is not allowed.

Preamble

This license establishes the terms under which a given free software Package may be copied, modified, distributed, and/or redistributed. The intent is that the Copyright Holder maintains some artistic control over the development of that Package while still keeping the Package available as open source and free software.

You are always permitted to make arrangements wholly outside of this license directly with the Copyright Holder of a given Package. If the terms of this license do not permit the full use that you propose to make of the Package, you should contact the Copyright Holder and seek a different licensing arrangement.

Definitions

"Copyright Holder" means the individual(s) or organization(s) named in the copyright notice for the entire Package.

"Contributor" means any party that has contributed code or other material to the Package, in accordance with the Copyright Holder's procedures.

"You" and "your" means any person who would like to copy, distribute, or modify the Package.

"Package" means the collection of files distributed by the Copyright Holder, and derivatives of that collection and/or of those files. A given Package may consist of either the Standard Version, or a Modified Version.

"Distribute" means providing a copy of the Package or making it accessible to anyone else, or in the case of a company or organization, to others outside of your company or organization.

"Distributor Fee" means any fee that you charge for Distributing this Package or providing support for this Package to another party. It does not mean licensing fees.

"Standard Version" refers to the Package if it has not been modified, or has been modified only in ways explicitly requested by the Copyright Holder.

"Modified Version" means the Package, if it has been changed, and such changes were not explicitly requested by the Copyright Holder.

"Original License" means this Artistic License as Distributed with the Standard Version of the Package, in its current version or as it may be modified by The Perl Foundation in the future.

"Source" form means the source code, documentation source, and configuration files for the Package.

"Compiled" form means the compiled bytecode, object code, binary,

or any other form resulting from mechanical transformation or translation of the Source form.

Permission for Use and Modification Without Distribution

(1) You are permitted to use the Standard Version and create and use Modified Versions for any purpose without restriction, provided that you do not Distribute the Modified Version.

Permissions for Redistribution of the Standard Version

(2) You may Distribute verbatim copies of the Source form of the Standard Version of this Package in any medium without restriction, either gratis or for a Distributor Fee, provided that you duplicate all of the original copyright notices and associated disclaimers. At your discretion, such verbatim copies may or may not include a Compiled form of the Package.

(3) You may apply any bug fixes, portability changes, and other modifications made available from the Copyright Holder. The resulting Package will still be considered the Standard Version, and as such will be subject to the Original License.

Distribution of Modified Versions of the Package as Source

(4) You may Distribute your Modified Version as Source (either gratis or for a Distributor Fee, and with or without a Compiled form of the Modified Version) provided that you clearly document how it differs from the Standard Version, including, but not limited to, documenting any non-standard features, executables, or modules, and provided that

you do at least ONE of the following:

(a) make the Modified Version available to the Copyright Holder of the Standard Version, under the Original License, so that the Copyright Holder may include your modifications in the Standard Version.

(b) ensure that installation of your Modified Version does not prevent the user installing or running the Standard Version. In addition, the Modified Version must bear a name that is different from the name of the Standard Version.

(c) allow anyone who receives a copy of the Modified Version to make the Source form of the Modified Version available to others under

(i) the Original License or

(ii) a license that permits the licensee to freely copy, modify and redistribute the Modified Version using the same licensing terms that apply to the copy that the licensee received, and requires that the Source form of the Modified Version, and of any works derived from it, be made freely available in that license fees are prohibited but Distributor Fees are allowed.

Distribution of Compiled Forms of the Standard Version
or Modified Versions without the Source

(5) You may Distribute Compiled forms of the Standard Version without the Source, provided that you include complete instructions on how to get the Source of the Standard Version. Such instructions must be

valid at the time of your distribution. If these instructions, at any time while you are carrying out such distribution, become invalid, you must provide new instructions on demand or cease further distribution. If you provide valid instructions or cease distribution within thirty days after you become aware that the instructions are invalid, then you do not forfeit any of your rights under this license.

(6) You may Distribute a Modified Version in Compiled form without the Source, provided that you comply with Section 4 with respect to the Source of the Modified Version.

Aggregating or Linking the Package

(7) You may aggregate the Package (either the Standard Version or Modified Version) with other packages and Distribute the resulting aggregation provided that you do not charge a licensing fee for the Package. Distributor Fees are permitted, and licensing fees for other components in the aggregation are permitted. The terms of this license apply to the use and Distribution of the Standard or Modified Versions as included in the aggregation.

(8) You are permitted to link Modified and Standard Versions with other works, to embed the Package in a larger work of your own, or to build stand-alone binary or bytecode versions of applications that include the Package, and Distribute the result without restriction, provided the result does not expose a direct interface to the Package.

Items That are Not Considered Part of a Modified Version

(9) Works (including, but not limited to, modules and scripts) that merely extend or make use of the Package, do not, by themselves, cause

the Package to be a Modified Version. In addition, such works are not considered parts of the Package itself, and are not subject to the terms of this license.

General Provisions

(10) Any use, modification, and distribution of the Standard or Modified Versions is governed by this Artistic License. By using, modifying or distributing the Package, you accept this license. Do not use, modify, or distribute the Package, if you do not accept this license.

(11) If your Modified Version has been derived from a Modified Version made by someone other than you, you are nevertheless required to ensure that your Modified Version complies with the requirements of this license.

(12) This license does not grant you the right to use any trademark, service mark, tradename, or logo of the Copyright Holder.

(13) This license includes the non-exclusive, worldwide, free-of-charge patent license to make, have made, use, offer to sell, sell, import and otherwise transfer the Package with respect to any patent claims licensable by the Copyright Holder that are necessarily infringed by the Package. If you institute patent litigation (including a cross-claim or counterclaim) against any party alleging that the Package constitutes direct or contributory patent infringement, then this Artistic License to you shall terminate on the date that such litigation is filed.

(14) Disclaimer of Warranty:

THE PACKAGE IS PROVIDED BY THE COPYRIGHT HOLDER AND CONTRIBUTORS "AS

IS' AND WITHOUT ANY EXPRESS OR IMPLIED WARRANTIES. THE IMPLIED WARRANTIES OF MERCHANTABILITY, FITNESS FOR A PARTICULAR PURPOSE, OR NON-INFRINGEMENT ARE DISCLAIMED TO THE EXTENT PERMITTED BY YOUR LOCAL LAW. UNLESS REQUIRED BY LAW, NO COPYRIGHT HOLDER OR CONTRIBUTOR WILL BE LIABLE FOR ANY DIRECT, INDIRECT, INCIDENTAL, OR CONSEQUENTIAL DAMAGES ARISING IN ANY WAY OUT OF THE USE OF THE PACKAGE, EVEN IF ADVISED OF THE POSSIBILITY OF SUCH DAMAGE.

BSL-1

Boost Software License - Version 1.0 - August 17th, 2003

Permission is hereby granted, free of charge, to any person or organization obtaining a copy of the software and accompanying documentation covered by this license (the "Software") to use, reproduce, display, distribute, execute, and transmit the Software, and to prepare derivative works of the Software, and to permit third-parties to whom the Software is furnished to do so, all subject to the following:

The copyright notices in the Software and this entire statement, including the above license grant, this restriction and the following disclaimer, must be included in all copies of the Software, in whole or in part, and all derivative works of the Software, unless such copies or derivative works are solely in the form of machine-executable object code generated by a source language processor.

THE SOFTWARE IS PROVIDED "AS IS", WITHOUT WARRANTY OF ANY KIND, EXPRESS OR IMPLIED, INCLUDING BUT NOT LIMITED TO THE WARRANTIES OF MERCHANTABILITY, FITNESS FOR A PARTICULAR PURPOSE, TITLE AND NON-INFRINGEMENT. IN NO EVENT SHALL THE COPYRIGHT HOLDERS OR ANYONE DISTRIBUTING THE SOFTWARE BE LIABLE FOR ANY DAMAGES OR OTHER LIABILITY, WHETHER IN CONTRACT, TORT OR OTHERWISE, ARISING FROM, OUT OF OR IN CONNECTION WITH THE SOFTWARE OR THE USE OR OTHER

GPL-2

GNU GENERAL PUBLIC LICENSE

Version 2, June 1991

Copyright (C) 1989, 1991 Free Software Foundation, Inc.

51 Franklin Street, Fifth Floor, Boston, MA 02110-1301, USA

Everyone is permitted to copy and distribute verbatim copies of this license document, but changing it is not allowed.

Preamble

The licenses for most software are designed to take away your freedom to share and change it. By contrast, the GNU General Public License is intended to guarantee your freedom to share and change free software--to make sure the software is free for all its users. This General Public License applies to most of the Free Software Foundation's software and to any other program whose authors commit to using it. (Some other Free Software Foundation software is covered by the GNU Lesser General Public License instead.) You can apply it to your programs, too.

When we speak of free software, we are referring to freedom, not price. Our General Public Licenses are designed to make sure that you have the freedom to distribute copies of free software (and charge for this service if you wish), that you receive source code or can get it if you want it, that you can change the software or use pieces of it in new free programs; and that you know you can do these things.

To protect your rights, we need to make restrictions that forbid anyone to deny you these rights or to ask you to surrender the rights. These restrictions translate to certain responsibilities for you if you distribute copies of the software, or if you modify it.

For example, if you distribute copies of such a program, whether gratis or for a fee, you must give the recipients all the rights that you have. You must make sure that they, too, receive or can get the source code. And you must show them these terms so they know their rights.

We protect your rights with two steps: (1) copyright the software, and (2) offer you this license which gives you legal permission to copy, distribute and/or modify the software.

Also, for each author's protection and ours, we want to make certain that everyone understands that there is no warranty for this free software. If the software is modified by someone else and passed on, we want its recipients to know that what they have is not the original, so that any problems introduced by others will not reflect on the original authors' reputations.

Finally, any free program is threatened constantly by software patents. We wish to avoid the danger that redistributors of a free program will individually obtain patent licenses, in effect making the program proprietary. To prevent this, we have made it clear that any patent must be licensed for everyone's free use or not licensed at all.

The precise terms and conditions for copying, distribution and modification follow.

TERMS AND CONDITIONS FOR COPYING, DISTRIBUTION AND MODIFICATION

0. This License applies to any program or other work which contains a notice placed by the copyright holder saying it may be distributed under the terms of this General Public License. The "Program", below, refers to any such program or work, and a "work based on the Program" means either the Program or any derivative work under copyright law: that is to say, a work containing the Program or a portion of it, either verbatim or with modifications and/or translated into another language. (Hereinafter, translation is included without limitation in the term "modification".) Each licensee is addressed as "you".

Activities other than copying, distribution and modification are not covered by this License; they are outside its scope. The act of running the Program is not restricted, and the output from the Program is covered only if its contents constitute a work based on the Program (independent of having been made by running the Program). Whether that is true depends on what the Program does.

1. You may copy and distribute verbatim copies of the Program's source code as you receive it, in any medium, provided that you conspicuously and appropriately publish on each copy an appropriate copyright notice and disclaimer of warranty; keep intact all the notices that refer to this License and to the absence of any warranty; and give any other recipients of the Program a copy of this License along with the Program.

You may charge a fee for the physical act of transferring a copy, and you may at your option offer warranty protection in exchange for a fee.

2. You may modify your copy or copies of the Program or any portion of it, thus forming a work based on the Program, and copy and distribute such modifications or work under the terms of Section 1 above, provided that you also meet all of these conditions:

- a)** You must cause the modified files to carry prominent notices stating that you changed the files and the date of any change.
- b)** You must cause any work that you distribute or publish, that in whole or in part contains or is derived from the Program or any part thereof, to be licensed as a whole at no charge to all third parties under the terms of this License.
- c)** If the modified program normally reads commands interactively when run, you must cause it, when started running for such interactive use in the most ordinary way, to print or display an announcement including an appropriate copyright notice and a notice that there is no warranty (or else, saying that you provide a warranty) and that users may redistribute the program under these conditions, and telling the user how to view a copy of this License. (Exception: if the Program itself is interactive but does not normally print such an announcement, your work based on the Program is not required to print an announcement.)

These requirements apply to the modified work as a whole. If identifiable sections of that work are not derived from the Program, and can be reasonably considered independent and separate works in themselves, then this License, and its terms, do not apply to those sections when you distribute them as separate works. But when you distribute the same sections as part of a whole which is a work based on the Program, the distribution of the whole must be on the terms of this License, whose permissions for other licensees extend to the entire whole, and thus to each and every part regardless of who wrote it.

Thus, it is not the intent of this section to claim rights or contest your rights to work written entirely by you; rather, the intent is to exercise the right to control the distribution of derivative or collective works based on the Program.

In addition, mere aggregation of another work not based on the Program with the Program (or with a work based on the Program) on a volume of a storage or distribution medium does not bring the other work under the scope of this License.

3. You may copy and distribute the Program (or a work based on it, under Section 2) in object code or executable form under the terms of Sections 1 and 2 above provided that you also do one of the following:

- a)** Accompany it with the complete corresponding machine-readable source code, which must be distributed under the terms of Sections 1 and 2 above on a medium customarily used for software interchange; or,

- b)** Accompany it with a written offer, valid for at least three years, to give any third party, for a charge no more than your cost of physically performing source distribution, a complete machine-readable copy of the corresponding source code, to be distributed under the terms of Sections 1 and 2 above on a medium customarily used for software interchange; or,
- c)** Accompany it with the information you received as to the offer to distribute corresponding source code. (This alternative is allowed only for noncommercial distribution and only if you received the program in object code or executable form with such an offer, in accord with Subsection b above.)

The source code for a work means the preferred form of the work for making modifications to it. For an executable work, complete source code means all the source code for all modules it contains, plus any associated interface definition files, plus the scripts used to control compilation and installation of the executable. However, as a special exception, the source code distributed need not include anything that is normally distributed (in either source or binary form) with the major components (compiler, kernel, and so on) of the operating system on which the executable runs, unless that component itself accompanies the executable.

If distribution of executable or object code is made by offering access to copy from a designated place, then offering equivalent access to copy the source code from the same place counts as distribution of the source code, even though third parties are not compelled to copy the source along with the object code.

4. You may not copy, modify, sublicense, or distribute the Program except as expressly provided under this License. Any attempt otherwise to copy, modify, sublicense or distribute the Program is void, and will automatically terminate your rights under this License. However, parties who have received copies, or rights, from you under this License will not have their licenses terminated so long as such parties remain in full compliance.

5. You are not required to accept this License, since you have not signed it. However, nothing else grants you permission to modify or distribute the Program or its derivative works. These actions are prohibited by law if you do not accept this License. Therefore, by modifying or distributing the Program (or any work based on the Program), you indicate your acceptance of this License to do so, and all its terms and conditions for copying, distributing or modifying the Program or works based on it.

6. Each time you redistribute the Program (or any work based on the Program), the recipient automatically receives a license from the original licensor to copy, distribute or modify the Program subject to these terms and conditions. You may not impose any further restrictions on the recipients' exercise of the rights granted herein. You are not responsible for enforcing compliance by third parties to this License.

7. If, as a consequence of a court judgment or allegation of patent infringement or for any other reason (not limited to patent issues), conditions are imposed on you (whether by court order, agreement or otherwise) that contradict the conditions of this License, they do not excuse you from the conditions of this License. If you cannot distribute so as to satisfy simultaneously your obligations under this License and any other pertinent obligations, then as a consequence you may not distribute the Program at all. For example, if a patent license would not permit royalty-free redistribution of the Program by all those who receive copies directly or indirectly through you, then the only way you could satisfy both it and this License would be to refrain entirely from distribution of the Program.

If any portion of this section is held invalid or unenforceable under any particular circumstance, the balance of the section is intended to apply and the section as a whole is intended to apply in other circumstances.

It is not the purpose of this section to induce you to infringe any patents or other property right claims or to contest validity of any such claims; this section has the sole purpose of protecting the integrity of the free software distribution system, which is implemented by public license practices. Many people have made generous contributions to the wide range of software distributed through that system in reliance on consistent application of that system; it is up to the author/donor to decide if he or she is willing to distribute software through any other system and a licensee cannot impose that choice.

This section is intended to make thoroughly clear what is believed to be a consequence of the rest of this License.

8. If the distribution and/or use of the Program is restricted in certain countries either by patents or by copyrighted interfaces, the original copyright holder who places the Program under this License may add an explicit geographical distribution limitation excluding those countries, so that distribution is permitted only in or among countries not thus excluded. In such case, this License incorporates the limitation as if written in the body of this License.

9. The Free Software Foundation may publish revised and/or new versions of the General Public License from time to time. Such new versions will be similar in spirit to the present version, but may differ in detail to address new problems or concerns.

Each version is given a distinguishing version number. If the Program specifies a version number of this License which applies to it and "any later version", you have the option of following the terms and conditions either of that version or of any later version published by the Free Software Foundation. If the Program does not specify a version number of this License, you may choose any version ever published by the Free Software Foundation.

10. If you wish to incorporate parts of the Program into other free programs whose distribution conditions are different, write to the author to ask for permission. For software which is copyrighted by the Free Software Foundation, write to the Free Software Foundation; we sometimes make exceptions for this. Our decision will be guided by the two goals of preserving the free status of all derivatives of our free software and of promoting the sharing and reuse of software generally.

NO WARRANTY

11. BECAUSE THE PROGRAM IS LICENSED FREE OF CHARGE, THERE IS NO WARRANTY FOR THE PROGRAM, TO THE EXTENT PERMITTED BY APPLICABLE LAW. EXCEPT WHEN OTHERWISE STATED IN WRITING THE COPYRIGHT HOLDERS AND/OR OTHER PARTIES PROVIDE THE PROGRAM "AS IS" WITHOUT WARRANTY OF ANY KIND, EITHER EXPRESSED OR IMPLIED, INCLUDING, BUT NOT LIMITED TO, THE IMPLIED WARRANTIES OF MERCHANTABILITY AND FITNESS FOR A PARTICULAR PURPOSE. THE ENTIRE RISK AS TO THE QUALITY AND PERFORMANCE OF THE PROGRAM IS WITH YOU. SHOULD THE PROGRAM PROVE DEFECTIVE, YOU ASSUME THE COST OF ALL NECESSARY SERVICING, REPAIR OR CORRECTION.

12. IN NO EVENT UNLESS REQUIRED BY APPLICABLE LAW OR AGREED TO IN WRITING WILL ANY COPYRIGHT HOLDER, OR ANY OTHER PARTY WHO MAY MODIFY AND/OR REDISTRIBUTE THE PROGRAM AS PERMITTED ABOVE, BE LIABLE TO YOU FOR DAMAGES, INCLUDING ANY GENERAL, SPECIAL, INCIDENTAL OR CONSEQUENTIAL DAMAGES ARISING OUT OF THE USE OR INABILITY TO USE THE PROGRAM (INCLUDING BUT NOT LIMITED TO LOSS OF DATA OR DATA BEING RENDERED INACCURATE OR LOSSES SUSTAINED BY YOU OR THIRD PARTIES OR A FAILURE OF THE PROGRAM TO OPERATE WITH ANY OTHER PROGRAMS), EVEN IF SUCH HOLDER OR OTHER PARTY HAS BEEN ADVISED OF THE POSSIBILITY OF SUCH DAMAGES.

GNU GENERAL PUBLIC LICENSE

Version 3, 29 June 2007

Copyright © 2007 Free Software Foundation, Inc. <<http://fsf.org/>>

Everyone is permitted to copy and distribute verbatim copies of this license document, but changing it is not allowed.

Preamble

The GNU General Public License is a free, copyleft license for software and other kinds of works.

The licenses for most software and other practical works are designed to take away your freedom to share and change the works. By contrast, the GNU General Public License is intended to guarantee your freedom to share and change all versions of a program--to make sure it remains free software for all its users. We, the Free Software Foundation, use the GNU General Public License for most of our software; it applies also to any other work released this way by its authors. You can apply it to your programs, too.

When we speak of free software, we are referring to freedom, not price. Our General Public Licenses are designed to make sure that you have the freedom to distribute copies of free software (and charge for them if you wish), that you receive source code or can get it if you want it, that you can change the software or use pieces of it in new free programs, and that you know you can do these things.

To protect your rights, we need to prevent others from denying you these rights or asking you to surrender the rights. Therefore, you have certain responsibilities if you distribute copies of the software, or if you modify it: responsibilities to respect the freedom of others.

For example, if you distribute copies of such a program, whether gratis or for a fee, you must pass on to the recipients the same freedoms that you received. You must make sure that they, too, receive or can get the source code. And you must show them these terms so they know their rights.

Developers that use the GNU GPL protect your rights with two steps: (1) assert copyright on the software, and (2) offer you this License giving you legal permission to copy, distribute and/or modify it.

For the developers' and authors' protection, the GPL clearly explains that there is no warranty for this free software. For both users' and authors' sake, the GPL requires that modified versions be marked as changed, so that their problems will not be attributed erroneously to authors of previous versions.

Some devices are designed to deny users access to install or run modified versions of the software inside them, although the manufacturer can do so. This is fundamentally incompatible with the aim of protecting users' freedom to change the software. The systematic pattern of such abuse occurs in the area of products for individuals to use, which is precisely where it is most unacceptable. Therefore, we have designed this version of the GPL to prohibit the practice for those products. If such problems arise substantially in other domains, we stand ready to extend this provision to those domains in future versions of the GPL, as needed to protect the freedom of users.

Finally, every program is threatened constantly by software patents. States should not allow patents to restrict development and use of software on general-purpose computers, but in those that do, we wish to avoid the special danger that patents applied to a free program could make it effectively proprietary. To prevent this, the GPL assures that patents cannot be used to render the program non-free.

The precise terms and conditions for copying, distribution and modification follow.

TERMS AND CONDITIONS

0. Definitions.

“This License” refers to version 3 of the GNU General Public License.

“Copyright” also means copyright-like laws that apply to other kinds of works, such as semiconductor masks.

“The Program” refers to any copyrightable work licensed under this License. Each licensee is addressed as “you”. “Licensees” and “recipients” may be individuals or organizations.

To “modify” a work means to copy from or adapt all or part of the work in a fashion requiring copyright permission, other than the making of an exact copy. The resulting work is called a “modified version” of the earlier work or a work “based on” the earlier work.

A “covered work” means either the unmodified Program or a work based on the Program.

To “propagate” a work means to do anything with it that, without permission, would make you directly or secondarily liable for infringement under applicable copyright law, except executing it on a computer or modifying a private copy. Propagation includes copying, distribution (with or without modification), making available to the public, and in some countries other activities as well.

To “convey” a work means any kind of propagation that enables other parties to make or receive copies. Mere interaction with a user through a computer network, with no transfer of a copy, is not conveying. An interactive user interface displays “Appropriate Legal Notices” to the extent that it includes a convenient and prominently visible feature that (1) displays an appropriate copyright notice, and (2) tells the user that there is no warranty for the work (except to the extent that warranties are provided), that licensees may convey the work under this License, and how to view a copy of this License. If the interface presents a list of user commands or options, such as a menu, a prominent item in the list meets this criterion.

1. Source Code.

The “source code” for a work means the preferred form of the work for making modifications to it. “Object code” means any non-source form of a work.

A “Standard Interface” means an interface that either is an official standard defined by a recognized standards body, or, in the case of interfaces specified for a particular programming language, one that is widely used among developers working in that language.

The “System Libraries” of an executable work include anything, other than the work as a whole, that (a) is included in the normal form of packaging a Major Component, but which is not part of that Major Component, and (b) serves only to enable use of the work with that Major Component, or to implement a Standard Interface for which an implementation is available to the public in source code form. A “Major Component”, in this context, means a major essential component (kernel, window system, and so on) of the specific operating system (if any) on which the executable work runs, or a compiler used to produce the work, or an object code interpreter used to run it.

The “Corresponding Source” for a work in object code form means all the source code needed to generate, install, and (for an executable work) run the object code and to modify the work, including scripts to control those activities. However, it does not include the work's System Libraries, or general-purpose tools or generally available free programs which are used unmodified in performing those activities but which are not part of the work. For example, Corresponding Source includes interface definition files associated with source files for the work, and the source code for shared libraries and dynamically linked subprograms that the work is specifically designed to require, such as by intimate data communication or control flow between those subprograms and other parts of the work.

The Corresponding Source need not include anything that users can regenerate automatically from other parts of the Corresponding Source.

The Corresponding Source for a work in source code form is that same work.

2. Basic Permissions.

All rights granted under this License are granted for the term of copyright on the Program, and are irrevocable provided the stated conditions are met. This License explicitly affirms your unlimited permission to run the unmodified Program. The output from running a covered work is covered by this License only if the output, given its content, constitutes a covered work. This License acknowledges your rights of fair use or other equivalent, as provided by copyright law.

You may make, run and propagate covered works that you do not convey, without conditions so long as your license otherwise remains in force. You may convey covered works to others for the sole purpose of having them make modifications exclusively for you, or provide you with facilities for running those works, provided that you comply with the terms of this License in conveying all material for which you do not control copyright. Those thus making or running the covered works for you must do so exclusively on your behalf, under your direction and control, on terms that prohibit them from making any copies of your copyrighted material outside their relationship with you.

Conveying under any other circumstances is permitted solely under the conditions stated below. Sublicensing is not allowed; section 10 makes it unnecessary.

3. Protecting Users' Legal Rights From Anti-Circumvention Law.

No covered work shall be deemed part of an effective technological measure under any applicable law fulfilling obligations under article 11 of the WIPO copyright treaty adopted on 20 December 1996, or similar laws prohibiting or restricting circumvention of such measures.

When you convey a covered work, you waive any legal power to forbid circumvention of technological measures to the extent such circumvention is effected by exercising rights under this License with respect to the covered work, and you disclaim any intention to limit operation or modification of the work as a means of enforcing, against the work's users, your or third parties' legal rights to forbid circumvention of technological measures.

4. Conveying Verbatim Copies.

You may convey verbatim copies of the Program's source code as you receive it, in any medium, provided that you conspicuously and appropriately publish on each copy an appropriate copyright notice; keep intact all notices stating that this License and any non-permissive terms added in accord with section 7 apply to the code; keep intact all notices of the absence of any warranty; and give all recipients a copy of this License along with the Program.

You may charge any price or no price for each copy that you convey, and you may offer support or warranty protection for a fee.

5. Conveying Modified Source Versions.

You may convey a work based on the Program, or the modifications to produce it from the Program, in the form of source code under the terms of section 4, provided that you also meet all of these conditions:

- a) The work must carry prominent notices stating that you modified it, and giving a relevant date.
- b) The work must carry prominent notices stating that it is released under this License and any conditions added under section 7. This requirement modifies the requirement in section 4 to “keep intact all notices”.
- c) You must license the entire work, as a whole, under this License to anyone who comes into possession of a copy. This License will therefore apply, along with any applicable section 7 additional terms, to the whole of the work, and all its parts, regardless of how they are packaged. This License gives no permission to license the work in any other way, but it does not invalidate such permission if you have separately received it.
- d) If the work has interactive user interfaces, each must display Appropriate Legal Notices; however, if the Program has interactive interfaces that do not display Appropriate Legal Notices, your work need not make them do so.

A compilation of a covered work with other separate and independent works, which are not by their nature extensions of the covered work, and which are not combined with it such as to form a larger program, in or on a volume of a storage or distribution medium, is called an “aggregate” if the compilation and its resulting copyright are not used to limit the access or legal rights of the compilation's users beyond what the individual works permit. Inclusion of a covered work in an aggregate does not cause this License to apply to the other parts of the aggregate.

6. Conveying Non-Source Forms.

You may convey a covered work in object code form under the terms of sections 4 and 5, provided that you also convey the machine-readable Corresponding Source under the terms of this License, in one of these ways:

- a) Convey the object code in, or embodied in, a physical product (including a physical distribution medium), accompanied by the Corresponding Source fixed on a durable physical medium customarily used for software interchange.

- b) Convey the object code in, or embodied in, a physical product (including a physical distribution medium), accompanied by a written offer, valid for at least three years and valid for as long as you offer spare parts or customer support for that product model, to give anyone who possesses the object code either (1) a copy of the Corresponding Source for all the software in the product that is covered by this License, on a durable physical medium customarily used for software interchange, for a price no more than your reasonable cost of physically performing this conveying of source, or (2) access to copy the Corresponding Source from a network server at no charge.
- c) Convey individual copies of the object code with a copy of the written offer to provide the Corresponding Source. This alternative is allowed only occasionally and noncommercially, and only if you received the object code with such an offer, in accord with subsection 6b.
- d) Convey the object code by offering access from a designated place (gratis or for a charge), and offer equivalent access to the Corresponding Source in the same way through the same place at no further charge. You need not require recipients to copy the Corresponding Source along with the object code. If the place to copy the object code is a network server, the Corresponding Source may be on a different server (operated by you or a third party) that supports equivalent copying facilities, provided you maintain clear directions next to the object code saying where to find the Corresponding Source. Regardless of what server hosts the Corresponding Source, you remain obligated to ensure that it is available for as long as needed to satisfy these requirements.
- e) Convey the object code using peer-to-peer transmission, provided you inform other peers where the object code and Corresponding Source of the work are being offered to the general public at no charge under subsection 6d.

A separable portion of the object code, whose source code is excluded from the Corresponding Source as a System Library, need not be included in conveying the object code work.

A “User Product” is either (1) a “consumer product”, which means any tangible personal property which is normally used for personal, family, or household purposes, or (2) anything designed or sold for incorporation into a dwelling. In determining whether a product is a consumer product, doubtful cases shall be resolved in favor of coverage. For a particular product received by a particular user, “normally used” refers to a typical or common use of that class of product, regardless of the status of the particular user or of the way in which the particular user actually uses, or expects or is expected to use, the product. A product is a consumer product regardless of whether the product has substantial commercial, industrial or non-consumer uses, unless such uses represent the only significant mode of use of the product.

“Installation Information” for a User Product means any methods, procedures, authorization keys, or other information required to install and execute modified versions of a covered work in that User Product from a modified version of its Corresponding Source. The information must suffice to ensure that the continued functioning of the modified object code is in no case prevented or interfered with solely because modification has been made.

If you convey an object code work under this section in, or with, or specifically for use in, a User Product, and the conveying occurs as part of a transaction in which the right of possession and use of the User Product is transferred to the recipient in perpetuity or for a fixed term (regardless of how the transaction is characterized), the Corresponding Source conveyed under this section must be accompanied by the Installation Information. But this requirement does not apply if neither you nor any third party retains the ability to install modified object code on the User Product (for example, the work has been installed in ROM).

The requirement to provide Installation Information does not include a requirement to continue to provide support service, warranty, or updates for a work that has been modified or installed by the recipient, or for the User Product in which it has been modified or installed. Access to a network may be denied when the modification itself materially and adversely affects the operation of the network or violates the rules and protocols for communication across the network.

Corresponding Source conveyed, and Installation Information provided, in accord with this section must be in a format that is publicly documented (and with an implementation available to the public in source code form), and must require no special password or key for unpacking, reading or copying.

7. Additional Terms.

“Additional permissions” are terms that supplement the terms of this License by making exceptions from one or more of its conditions. Additional permissions that are applicable to the entire Program shall be treated as though they were included in this License, to the extent that they are valid under applicable law. If additional permissions apply only to part of the Program, that part may be used separately under those permissions, but the entire Program remains governed by this License without regard to the additional permissions.

When you convey a copy of a covered work, you may at your option remove any additional permissions from that copy, or from any part of it. (Additional permissions may be written to require their own removal in certain cases when you modify the work.) You may place additional permissions on material, added by you to a covered work, for which you have or can give appropriate copyright permission.

Notwithstanding any other provision of this License, for material you add to a covered work, you may (if authorized by the copyright holders of that material) supplement the terms of this License with terms:

- a) Disclaiming warranty or limiting liability differently from the terms of sections 15 and 16 of this License; or
- b) Requiring preservation of specified reasonable legal notices or author attributions in that material or in the Appropriate Legal Notices displayed by works containing it; or
- c) Prohibiting misrepresentation of the origin of that material, or requiring that modified versions of such material be marked in reasonable ways as different from the original version; or
- d) Limiting the use for publicity purposes of names of licensors or authors of the material; or
- e) Declining to grant rights under trademark law for use of some trade names, trademarks, or service marks; or
- f) Requiring indemnification of licensors and authors of that material by anyone who conveys the material (or modified versions of it) with contractual assumptions of liability to the recipient, for any liability that these contractual assumptions directly impose on those licensors and authors.

All other non-permissive additional terms are considered “further restrictions” within the meaning of section 10. If the Program as you received it, or any part of it, contains a notice stating that it is governed by this License along with a term that is a further restriction, you may remove that term. If a license document contains a further restriction but permits relicensing or conveying under this License, you may add to a covered work material governed by the terms of that license document, provided that the further restriction does not survive such relicensing or conveying.

If you add terms to a covered work in accord with this section, you must place, in the relevant source files, a statement of the additional terms that apply to those files, or a notice indicating where to find the applicable terms.

Additional terms, permissive or non-permissive, may be stated in the form of a separately written license, or stated as exceptions; the above requirements apply either way.

8. Termination.

You may not propagate or modify a covered work except as expressly provided under this License. Any attempt otherwise to propagate or modify it is void, and will automatically terminate your rights under this License (including any patent licenses granted under the third paragraph of section 11).

However, if you cease all violation of this License, then your license from a particular copyright holder is reinstated (a) provisionally, unless and until the copyright holder explicitly and finally terminates your license, and (b) permanently, if the copyright holder fails to notify you of the violation by some reasonable means prior to 60 days after the cessation.

Moreover, your license from a particular copyright holder is reinstated permanently if the copyright holder notifies you of the violation by some reasonable means, this is the first time you have received notice of violation of this License (for any work) from that copyright holder, and you cure the violation prior to 30 days after your receipt of the notice.

Termination of your rights under this section does not terminate the licenses of parties who have received copies or rights from you under this License. If your rights have been terminated and not permanently reinstated, you do not qualify to receive new licenses for the same material under section 10.

9. Acceptance Not Required for Having Copies.

You are not required to accept this License in order to receive or run a copy of the Program. Ancillary propagation of a covered work occurring solely as a consequence of using peer-to-peer transmission to receive a copy likewise does not require acceptance. However, nothing other than this License grants you permission to propagate or modify any covered work. These actions infringe copyright if you do not accept this License. Therefore, by modifying or propagating a covered work, you indicate your acceptance of this License to do so.

10. Automatic Licensing of Downstream Recipients.

Each time you convey a covered work, the recipient automatically receives a license from the original licensors, to run, modify and propagate that work, subject to this License. You are not responsible for enforcing compliance by third parties with this License.

An “entity transaction” is a transaction transferring control of an organization, or substantially all assets of one, or subdividing an organization, or merging organizations. If propagation of a covered work results from an entity transaction, each party to that transaction who receives a copy of the work also receives whatever licenses to the work the party's predecessor in interest had or could give under the previous paragraph, plus a right to possession of the Corresponding Source of the work from the predecessor in interest, if the predecessor has it or can get it with reasonable efforts.

You may not impose any further restrictions on the exercise of the rights granted or affirmed under this License. For example, you may not impose a license fee, royalty, or other charge for exercise of rights granted under this License, and you may not initiate litigation (including a cross-claim or counterclaim in a lawsuit) alleging that any patent claim is infringed by making, using, selling, offering for sale, or importing the Program or any portion of it.

11. Patents.

A “contributor” is a copyright holder who authorizes use under this License of the Program or a work on which the Program is based. The work thus licensed is called the contributor's “contributor version”.

A contributor's “essential patent claims” are all patent claims owned or controlled by the contributor, whether already acquired or hereafter acquired, that would be infringed by some manner, permitted by this License, of making, using, or selling its contributor version, but do not include claims that would be infringed only as a consequence of further modification of the contributor version. For purposes of this definition, “control” includes the right to grant patent sublicenses in a manner consistent with the requirements of this License.

Each contributor grants you a non-exclusive, worldwide, royalty-free patent license under the contributor's essential patent claims, to make, use, sell, offer for sale, import and otherwise run, modify and propagate the contents of its contributor version.

In the following three paragraphs, a “patent license” is any express agreement or commitment, however denominated, not to enforce a patent (such as an express permission to practice a patent or covenant not to sue for patent infringement). To “grant” such a patent license to a party means to make such an agreement or commitment not to enforce a patent against the party.

If you convey a covered work, knowingly relying on a patent license, and the Corresponding Source of the work is not available for anyone to copy, free of charge and under the terms of this License, through

a publicly available network server or other readily accessible means, then you must either (1) cause the Corresponding Source to be so available, or (2) arrange to deprive yourself of the benefit of the patent license for this particular work, or (3) arrange, in a manner consistent with the requirements of this License, to extend the patent license to downstream recipients. “Knowingly relying” means you have actual knowledge that, but for the patent license, your conveying the covered work in a country, or your recipient's use of the covered work in a country, would infringe one or more identifiable patents in that country that you have reason to believe are valid.

If, pursuant to or in connection with a single transaction or arrangement, you convey, or propagate by procuring conveyance of, a covered work, and grant a patent license to some of the parties receiving the covered work authorizing them to use, propagate, modify or convey a specific copy of the covered work, then the patent license you grant is automatically extended to all recipients of the covered work and works based on it.

A patent license is “discriminatory” if it does not include within the scope of its coverage, prohibits the exercise of, or is conditioned on the non-exercise of one or more of the rights that are specifically granted under this License. You may not convey a covered work if you are a party to an arrangement with a third party that is in the business of distributing software, under which you make payment to the third party based on the extent of your activity of conveying the work, and under which the third party grants, to any of the parties who would receive the covered work from you, a discriminatory patent license (a) in connection with copies of the covered work conveyed by you (or copies made from those copies), or (b) primarily for and in connection with specific products or compilations that contain the covered work, unless you entered into that arrangement, or that patent license was granted, prior to 28 March 2007.

Nothing in this License shall be construed as excluding or limiting any implied license or other defenses to infringement that may otherwise be available to you under applicable patent law.

>12. No Surrender of Others' Freedom.

If conditions are imposed on you (whether by court order, agreement or otherwise) that contradict the conditions of this License, they do not excuse you from the conditions of this License. If you cannot convey a covered work so as to satisfy simultaneously your obligations under this License and any other pertinent obligations, then as a consequence you may not convey it at all. For example, if you agree to terms that obligate you to collect a royalty for further conveying from those to whom you convey the Program, the only way you could satisfy both those terms and this License would be to refrain entirely from conveying the Program.

13. Use with the GNU Affero General Public License.

Notwithstanding any other provision of this License, you have permission to link or combine any covered work with a work licensed under version 3 of the GNU Affero General Public License into a single combined work, and to convey the resulting work. The terms of this License will continue to apply to the part which is the covered work, but the special requirements of the GNU Affero General Public License, section 13, concerning interaction through a network will apply to the combination as such.

14. Revised Versions of this License.

The Free Software Foundation may publish revised and/or new versions of the GNU General Public License from time to time. Such new versions will be similar in spirit to the present version, but may differ in detail to address new problems or concerns.

Each version is given a distinguishing version number. If the Program specifies that a certain numbered version of the GNU General Public License “or any later version” applies to it, you have the option of following the terms and conditions either of that numbered version or of any later version published by the Free Software Foundation. If the Program does not specify a version number of the GNU General Public License, you may choose any version ever published by the Free Software Foundation.

If the Program specifies that a proxy can decide which future versions of the GNU General Public License can be used, that proxy's public statement of acceptance of a version permanently authorizes you to choose that version for the Program.

Later license versions may give you additional or different permissions. However, no additional obligations are imposed on any author or copyright holder as a result of your choosing to follow a later version.

15. Disclaimer of Warranty.

THERE IS NO WARRANTY FOR THE PROGRAM, TO THE EXTENT PERMITTED BY APPLICABLE LAW. EXCEPT WHEN OTHERWISE STATED IN WRITING THE COPYRIGHT HOLDERS AND/OR OTHER PARTIES PROVIDE THE PROGRAM "AS IS" WITHOUT WARRANTY OF ANY KIND, EITHER EXPRESSED OR IMPLIED, INCLUDING, BUT NOT LIMITED TO, THE IMPLIED WARRANTIES OF MERCHANTABILITY AND FITNESS FOR A PARTICULAR PURPOSE. THE ENTIRE RISK AS TO THE QUALITY AND PERFORMANCE OF THE PROGRAM IS WITH YOU. SHOULD THE PROGRAM PROVE DEFECTIVE, YOU ASSUME THE COST OF ALL NECESSARY SERVICING, REPAIR OR CORRECTION.

16. Limitation of Liability.

IN NO EVENT UNLESS REQUIRED BY APPLICABLE LAW OR AGREED TO IN WRITING WILL ANY COPYRIGHT HOLDER, OR ANY OTHER PARTY WHO MODIFIES AND/OR CONVEYS THE PROGRAM AS PERMITTED ABOVE, BE LIABLE TO YOU FOR DAMAGES, INCLUDING ANY GENERAL, SPECIAL, INCIDENTAL OR CONSEQUENTIAL DAMAGES ARISING OUT OF THE USE OR INABILITY TO USE THE PROGRAM (INCLUDING BUT NOT LIMITED TO LOSS OF DATA OR DATA BEING RENDERED INACCURATE OR LOSSES SUSTAINED BY YOU OR THIRD PARTIES OR A FAILURE OF THE PROGRAM TO OPERATE WITH ANY OTHER PROGRAMS), EVEN IF SUCH HOLDER OR OTHER PARTY HAS BEEN ADVISED OF THE POSSIBILITY OF SUCH DAMAGES.

If the disclaimer of warranty and limitation of liability provided above cannot be given local legal effect according to their terms, reviewing courts shall apply local law that most closely approximates an absolute waiver of all civil liability in connection with the Program, unless a warranty or assumption of liability accompanies a copy of the Program in return for a fee.

GNU LIBRARY GENERAL PUBLIC LICENSE

Version 2, June 1991

Copyright (C) 1991 Free Software Foundation, Inc.

51 Franklin St, Fifth Floor, Boston, MA 02110-1301, USA

Everyone is permitted to copy and distribute verbatim copies of this license document, but changing it is not allowed.

[This is the first released version of the library GPL. It is numbered 2 because it goes with version 2 of the ordinary GPL.]

Preamble

The licenses for most software are designed to take away your freedom to share and change it. By contrast, the GNU General Public Licenses are intended to guarantee your freedom to share and change free software--to make sure the software is free for all its users.

This license, the Library General Public License, applies to some specially designated Free Software Foundation software, and to any other libraries whose authors decide to use it. You can use it for your libraries, too.

When we speak of free software, we are referring to freedom, not price. Our General Public Licenses are designed to make sure that you have the freedom to distribute copies of free software (and charge for this service if you wish), that you receive source code or can get it if you want it, that you can change the software or use pieces of it in new free programs; and that you know you can do these things.

To protect your rights, we need to make restrictions that forbid anyone to deny you these rights or to ask you to surrender the rights. These restrictions translate to certain responsibilities for you if you distribute copies of the library, or if you modify it.

For example, if you distribute copies of the library, whether gratis or for a fee, you must give the recipients all the rights that we gave you. You must make sure that they, too, receive or can get the source code. If you link a program with the library, you must provide complete object files to the recipients so that they can relink them with the library, after making changes to the library and recompiling it. And you must show them these terms so they know their rights.

Our method of protecting your rights has two steps: (1) copyright the library, and (2) offer you this license which gives you legal permission to copy, distribute and/or modify the library.

Also, for each distributor's protection, we want to make certain that everyone understands that there is no warranty for this free library. If the library is modified by someone else and passed on, we want its recipients to know that what they have is not the original version, so that any problems introduced by others will not reflect on the original authors' reputations.

Finally, any free program is threatened constantly by software patents. We wish to avoid the danger that companies distributing free software will individually obtain patent licenses, thus in effect transforming the program into proprietary software. To prevent this, we have made it clear that any patent must be licensed for everyone's free use or not licensed at all.

Most GNU software, including some libraries, is covered by the ordinary GNU General Public License, which was designed for utility programs. This license, the GNU Library General Public License, applies to certain designated libraries. This license is quite different from the ordinary one; be sure to read it in full, and don't assume that anything in it is the same as in the ordinary license.

The reason we have a separate public license for some libraries is that they blur the distinction we usually make between modifying or adding to a program and simply using it. Linking a program with a library, without changing the library, is in some sense simply using the library, and is analogous to running a utility program or application program. However, in a textual and legal sense, the linked executable is a combined work, a derivative of the original library, and the ordinary General Public License treats it as such.

Because of this blurred distinction, using the ordinary General Public License for libraries did not effectively promote software sharing, because most developers did not use the libraries. We concluded that weaker conditions might promote sharing better.

However, unrestricted linking of non-free programs would deprive the users of those programs of all benefit from the free status of the libraries themselves. This Library General Public License is intended to permit developers of non-free programs to use free libraries, while preserving your freedom as a user of such programs to change the free libraries that are incorporated in them. (We have not seen how to achieve this as regards changes in header files, but we have achieved it as regards changes in the actual functions of the Library.) The hope is that this will lead to faster development of free libraries.

The precise terms and conditions for copying, distribution and modification follow. Pay close attention to the difference between a "work based on the library" and a "work that uses the library". The former contains code derived from the library, while the latter only works together with the library.

Note that it is possible for a library to be covered by the ordinary General Public License rather than by this special one.

TERMS AND CONDITIONS FOR COPYING, DISTRIBUTION AND MODIFICATION

0. This License Agreement applies to any software library which contains a notice placed by the copyright holder or other authorized party saying it may be distributed under the terms of this Library General Public License (also called "this License"). Each licensee is addressed as "you".

A "library" means a collection of software functions and/or data prepared so as to be conveniently linked with application programs (which use some of those functions and data) to form executables.

The "Library", below, refers to any such software library or work which has been distributed under these terms. A "work based on the Library" means either the Library or any derivative work under copyright law: that is to say, a work containing the Library or a portion of it, either verbatim or with modifications and/or translated straightforwardly into another language. (Hereinafter, translation is included without limitation in the term "modification".)

"Source code" for a work means the preferred form of the work for making modifications to it. For a library, complete source code means all the source code for all modules it contains, plus any associated interface definition files, plus the scripts used to control compilation and installation of the library.

Activities other than copying, distribution and modification are not covered by this License; they are outside its scope. The act of running a program using the Library is not restricted, and output from such a program is covered only if its contents constitute a work based on the Library (independent of the use of the Library in a tool for writing it). Whether that is true depends on what the Library does and what the program that uses the Library does.

1. You may copy and distribute verbatim copies of the Library's complete source code as you receive it, in any medium, provided that you conspicuously and appropriately publish on each copy an appropriate copyright notice and disclaimer of warranty; keep intact all the notices that refer to this License and to the absence of any warranty; and distribute a copy of this License along with the Library.

You may charge a fee for the physical act of transferring a copy, and you may at your option offer warranty protection in exchange for a fee.

2. You may modify your copy or copies of the Library or any portion of it, thus forming a work based on the Library, and copy and distribute such modifications or work under the terms of Section 1 above, provided that you also meet all of these conditions:

- **a)** The modified work must itself be a software library.
- **b)** You must cause the files modified to carry prominent notices stating that you changed the files and the date of any change.
- **c)** You must cause the whole of the work to be licensed at no charge to all third parties under the terms of this License.
- **d)** If a facility in the modified Library refers to a function or a table of data to be supplied by an application program that uses the facility, other than as an argument passed when the facility is invoked, then you must make a good faith effort to ensure that, in the event an application does not supply such function or table, the facility still operates, and performs whatever part of its purpose remains meaningful.

(For example, a function in a library to compute square roots has a purpose that is entirely well-defined independent of the application. Therefore, Subsection 2d requires that any application-supplied function or table used by this function must be optional: if the application does not supply it, the square root function must still compute square roots.)

These requirements apply to the modified work as a whole. If identifiable sections of that work are not derived from the Library, and can be reasonably considered independent and separate works in themselves, then this License, and its terms, do not apply to those sections when you distribute them as separate works. But when you distribute the same sections as part of a whole which is a work based on the Library, the distribution of the whole must be on the terms of this License, whose permissions for other licensees extend to the entire whole, and thus to each and every part regardless of who wrote it.

Thus, it is not the intent of this section to claim rights or contest your rights to work written entirely by you; rather, the intent is to exercise the right to control the distribution of derivative or collective works based on the Library.

In addition, mere aggregation of another work not based on the Library with the Library (or with a work based on the Library) on a volume of a storage or distribution medium does not bring the other work under the scope of this License.

3. You may opt to apply the terms of the ordinary GNU General Public License instead of this License to a given copy of the Library. To do this, you must alter all the notices that refer to this License, so that they refer to the ordinary GNU General Public License, version 2, instead of to this License. (If a newer version than version 2 of the ordinary GNU General Public License has appeared, then you can specify that version instead if you wish.) Do not make any other change in these notices.

Once this change is made in a given copy, it is irreversible for that copy, so the ordinary GNU General Public License applies to all subsequent copies and derivative works made from that copy.

This option is useful when you wish to copy part of the code of the Library into a program that is not a library.

4. You may copy and distribute the Library (or a portion or derivative of it, under Section 2) in object code or executable form under the terms of Sections 1 and 2 above provided that you accompany it with the complete corresponding machine-readable source code, which must be distributed under the terms of Sections 1 and 2 above on a medium customarily used for software interchange.

If distribution of object code is made by offering access to copy from a designated place, then offering equivalent access to copy the source code from the same place satisfies the requirement to distribute the source code, even though third parties are not compelled to copy the source along with the object code.

5. A program that contains no derivative of any portion of the Library, but is designed to work with the Library by being compiled or linked with it, is called a "work that uses the Library". Such a work, in isolation, is not a derivative work of the Library, and therefore falls outside the scope of this License.

However, linking a "work that uses the Library" with the Library creates an executable that is a derivative of the Library (because it contains portions of the Library), rather than a "work that uses the library". The executable is therefore covered by this License. Section 6 states terms for distribution of such executables.

When a "work that uses the Library" uses material from a header file that is part of the Library, the object code for the work may be a derivative work of the Library even though the source code is not. Whether this is true is especially significant if the work can be linked without the Library, or if the work is itself a library. The threshold for this to be true is not precisely defined by law.

If such an object file uses only numerical parameters, data structure layouts and accessors, and small macros and small inline functions (ten lines or less in length), then the use of the object file is unrestricted, regardless of whether it is legally a derivative work. (Executables containing this object code plus portions of the Library will still fall under Section 6.)

Otherwise, if the work is a derivative of the Library, you may distribute the object code for the work under the terms of Section 6. Any executables containing that work also fall under Section 6, whether or not they are linked directly with the Library itself.

6. As an exception to the Sections above, you may also compile or link a "work that uses the Library" with the Library to produce a work containing portions of the Library, and distribute that work under terms of your choice, provided that the terms permit modification of the work for the customer's own use and reverse engineering for debugging such modifications.

You must give prominent notice with each copy of the work that the Library is used in it and that the Library and its use are covered by this License. You must supply a copy of this License. If the work during execution displays copyright notices, you must include the copyright notice for the Library among them, as well as a reference directing the user to the copy of this License. Also, you must do one of these things:

- **a)** Accompany the work with the complete corresponding machine-readable source code for the Library including whatever changes were used in the work (which must be distributed under Sections 1 and 2 above); and, if the work is an executable linked with the Library, with the complete machine-readable "work that uses the Library", as object code and/or source code, so that the user can modify the Library and then relink to produce a modified executable containing the modified Library. (It is understood that the user who changes the contents of definitions files in the Library will not necessarily be able to recompile the application to use the modified definitions.)
- **b)** Accompany the work with a written offer, valid for at least three years, to give the same user the materials specified in Subsection 6a, above, for a charge no more than the cost of performing this distribution.
- **c)** If distribution of the work is made by offering access to copy from a designated place, offer equivalent access to copy the above specified materials from the same place.
- **d)** Verify that the user has already received a copy of these materials or that you have already sent this user a copy.

For an executable, the required form of the "work that uses the Library" must include any data and utility programs needed for reproducing the executable from it. However, as a special exception, the source code distributed need not include anything that is normally distributed (in either source or binary form) with the major components (compiler, kernel, and so on) of the operating system on which the executable runs, unless that component itself accompanies the executable.

It may happen that this requirement contradicts the license restrictions of other proprietary libraries that do not normally accompany the operating system. Such a contradiction means you cannot use both them and the Library together in an executable that you distribute.

7. You may place library facilities that are a work based on the Library side-by-side in a single library together with other library facilities not covered by this License, and distribute such a combined library, provided that the separate distribution of the work based on the Library and of the other library facilities is otherwise permitted, and provided that you do these two things:

- **a)** Accompany the combined library with a copy of the same work based on the Library, uncombined with any other library facilities. This must be distributed under the terms of the Sections above.
- **b)** Give prominent notice with the combined library of the fact that part of it is a work based on the Library, and explaining where to find the accompanying uncombined form of the same work.

8. You may not copy, modify, sublicense, link with, or distribute the Library except as expressly provided under this License. Any attempt otherwise to copy, modify, sublicense, link with, or distribute the Library is void, and will automatically terminate your rights under this License. However, parties who have received copies, or rights, from you under this License will not have their licenses terminated so long as such parties remain in full compliance.

9. You are not required to accept this License, since you have not signed it. However, nothing else grants you permission to modify or distribute the Library or its derivative works. These actions are prohibited by law if you do not accept this License. Therefore, by modifying or distributing the Library (or any work based on the Library), you indicate your acceptance of this License to do so, and all its terms and conditions for copying, distributing or modifying the Library or works based on it.

10. Each time you redistribute the Library (or any work based on the Library), the recipient automatically receives a license from the original licensor to copy, distribute, link with or modify the

Library subject to these terms and conditions. You may not impose any further restrictions on the recipients' exercise of the rights granted herein. You are not responsible for enforcing compliance by third parties to this License.

11. If, as a consequence of a court judgment or allegation of patent infringement or for any other reason (not limited to patent issues), conditions are imposed on you (whether by court order, agreement or otherwise) that contradict the conditions of this License, they do not excuse you from the conditions of this License. If you cannot distribute so as to satisfy simultaneously your obligations under this License and any other pertinent obligations, then as a consequence you may not distribute the Library at all. For example, if a patent license would not permit royalty-free redistribution of the Library by all those who receive copies directly or indirectly through you, then the only way you could satisfy both it and this License would be to refrain entirely from distribution of the Library.

If any portion of this section is held invalid or unenforceable under any particular circumstance, the balance of the section is intended to apply, and the section as a whole is intended to apply in other circumstances.

It is not the purpose of this section to induce you to infringe any patents or other property right claims or to contest validity of any such claims; this section has the sole purpose of protecting the integrity of the free software distribution system which is implemented by public license practices. Many people have made generous contributions to the wide range of software distributed through that system in reliance on consistent application of that system; it is up to the author/donor to decide if he or she is willing to distribute software through any other system and a licensee cannot impose that choice.

This section is intended to make thoroughly clear what is believed to be a consequence of the rest of this License.

12. If the distribution and/or use of the Library is restricted in certain countries either by patents or by copyrighted interfaces, the original copyright holder who places the Library under this License may add an explicit geographical distribution limitation excluding those countries, so that distribution is permitted only in or among countries not thus excluded. In such case, this License incorporates the limitation as if written in the body of this License.

13. The Free Software Foundation may publish revised and/or new versions of the Library General Public License from time to time. Such new versions will be similar in spirit to the present version, but may differ in detail to address new problems or concerns.

Each version is given a distinguishing version number. If the Library specifies a version number of this License which applies to it and "any later version", you have the option of following the terms and conditions either of that version or of any later version published by the Free Software Foundation. If the Library does not specify a license version number, you may choose any version ever published by the Free Software Foundation.

14. If you wish to incorporate parts of the Library into other free programs whose distribution conditions are incompatible with these, write to the author to ask for permission. For software which is copyrighted by the Free Software Foundation, write to the Free Software Foundation; we sometimes make exceptions for this. Our decision will be guided by the two goals of preserving the free status of all derivatives of our free software and of promoting the sharing and reuse of software generally.

NO WARRANTY

15. BECAUSE THE LIBRARY IS LICENSED FREE OF CHARGE, THERE IS NO WARRANTY FOR THE LIBRARY, TO THE EXTENT PERMITTED BY APPLICABLE LAW. EXCEPT WHEN OTHERWISE STATED IN WRITING THE COPYRIGHT HOLDERS AND/OR OTHER PARTIES PROVIDE THE LIBRARY "AS IS" WITHOUT WARRANTY OF ANY KIND, EITHER EXPRESSED OR IMPLIED, INCLUDING, BUT NOT LIMITED TO, THE IMPLIED WARRANTIES OF MERCHANTABILITY AND FITNESS FOR A PARTICULAR PURPOSE. THE ENTIRE RISK AS TO THE QUALITY AND PERFORMANCE OF THE LIBRARY IS WITH YOU. SHOULD THE LIBRARY PROVE DEFECTIVE, YOU ASSUME THE COST OF ALL NECESSARY SERVICING, REPAIR OR CORRECTION.

16. IN NO EVENT UNLESS REQUIRED BY APPLICABLE LAW OR AGREED TO IN WRITING WILL ANY COPYRIGHT HOLDER, OR ANY OTHER PARTY WHO MAY MODIFY AND/OR

REDISTRIBUTE THE LIBRARY AS PERMITTED ABOVE, BE LIABLE TO YOU FOR DAMAGES, INCLUDING ANY GENERAL, SPECIAL, INCIDENTAL OR CONSEQUENTIAL DAMAGES ARISING OUT OF THE USE OR INABILITY TO USE THE LIBRARY (INCLUDING BUT NOT LIMITED TO LOSS OF DATA OR DATA BEING RENDERED INACCURATE OR LOSSES SUSTAINED BY YOU OR THIRD PARTIES OR A FAILURE OF THE LIBRARY TO OPERATE WITH ANY OTHER SOFTWARE), EVEN IF SUCH HOLDER OR OTHER PARTY HAS BEEN ADVISED OF THE POSSIBILITY OF SUCH DAMAGES.

GNU LESSER GENERAL PUBLIC LICENSE

Version 2.1, February 1999

Copyright (C) 1991, 1999 Free Software Foundation, Inc.

51 Franklin Street, Fifth Floor, Boston, MA 02110-1301 USA

Everyone is permitted to copy and distribute verbatim copies of this license document, but changing it is not allowed.

[This is the first released version of the Lesser GPL. It also counts as the successor of the GNU Library Public License, version 2, hence the version number 2.1.]

Preamble

The licenses for most software are designed to take away your freedom to share and change it. By contrast, the GNU General Public Licenses are intended to guarantee your freedom to share and change free software--to make sure the software is free for all its users.

This license, the Lesser General Public License, applies to some specially designated software packages--typically libraries--of the Free Software Foundation and other authors who decide to use it. You can use it too, but we suggest you first think carefully about whether this license or the ordinary General Public License is the better strategy to use in any particular case, based on the explanations below.

When we speak of free software, we are referring to freedom of use, not price. Our General Public Licenses are designed to make sure that you have the freedom to distribute copies of free software (and charge for this service if you wish); that you receive source code or can get it if you want it; that you can change the software and use pieces of it in new free programs; and that you are informed that you can do these things.

To protect your rights, we need to make restrictions that forbid distributors to deny you these rights or to ask you to surrender these rights. These restrictions translate to certain responsibilities for you if you distribute copies of the library or if you modify it.

For example, if you distribute copies of the library, whether gratis or for a fee, you must give the recipients all the rights that we gave you. You must make sure that they, too, receive or can get the

source code. If you link other code with the library, you must provide complete object files to the recipients, so that they can relink them with the library after making changes to the library and recompiling it. And you must show them these terms so they know their rights.

We protect your rights with a two-step method: (1) we copyright the library, and (2) we offer you this license, which gives you legal permission to copy, distribute and/or modify the library.

To protect each distributor, we want to make it very clear that there is no warranty for the free library. Also, if the library is modified by someone else and passed on, the recipients should know that what they have is not the original version, so that the original author's reputation will not be affected by problems that might be introduced by others.

Finally, software patents pose a constant threat to the existence of any free program. We wish to make sure that a company cannot effectively restrict the users of a free program by obtaining a restrictive license from a patent holder. Therefore, we insist that any patent license obtained for a version of the library must be consistent with the full freedom of use specified in this license.

Most GNU software, including some libraries, is covered by the ordinary GNU General Public License. This license, the GNU Lesser General Public License, applies to certain designated libraries, and is quite different from the ordinary General Public License. We use this license for certain libraries in order to permit linking those libraries into non-free programs.

When a program is linked with a library, whether statically or using a shared library, the combination of the two is legally speaking a combined work, a derivative of the original library. The ordinary General Public License therefore permits such linking only if the entire combination fits its criteria of freedom. The Lesser General Public License permits more lax criteria for linking other code with the library.

We call this license the "Lesser" General Public License because it does Less to protect the user's freedom than the ordinary General Public License. It also provides other free software developers Less of an advantage over competing non-free programs. These disadvantages are the reason we use the ordinary General Public License for many libraries. However, the Lesser license provides advantages in certain special circumstances.

For example, on rare occasions, there may be a special need to encourage the widest possible use of a certain library, so that it becomes a de-facto standard. To achieve this, non-free programs must be allowed to use the library. A more frequent case is that a free library does the same job as widely used non-free libraries. In this case, there is little to gain by limiting the free library to free software only, so we use the Lesser General Public License.

In other cases, permission to use a particular library in non-free programs enables a greater number of people to use a large body of free software. For example, permission to use the GNU C Library in non-free programs enables many more people to use the whole GNU operating system, as well as its variant, the GNU/Linux operating system.

Although the Lesser General Public License is Less protective of the users' freedom, it does ensure that the user of a program that is linked with the Library has the freedom and the wherewithal to run that program using a modified version of the Library.

The precise terms and conditions for copying, distribution and modification follow. Pay close attention to the difference between a "work based on the library" and a "work that uses the library". The former contains code derived from the library, whereas the latter must be combined with the library in order to run.

TERMS AND CONDITIONS FOR COPYING, DISTRIBUTION AND MODIFICATION

0. This License Agreement applies to any software library or other program which contains a notice placed by the copyright holder or other authorized party saying it may be distributed under the terms of this Lesser General Public License (also called "this License"). Each licensee is addressed as "you".

A "library" means a collection of software functions and/or data prepared so as to be conveniently linked with application programs (which use some of those functions and data) to form executables.

The "Library", below, refers to any such software library or work which has been distributed under these terms. A "work based on the Library" means either the Library or any derivative work under copyright law: that is to say, a work containing the Library or a portion of it, either verbatim or with modifications and/or translated straightforwardly into another language. (Hereinafter, translation is included without limitation in the term "modification".)

"Source code" for a work means the preferred form of the work for making modifications to it. For a library, complete source code means all the source code for all modules it contains, plus any associated interface definition files, plus the scripts used to control compilation and installation of the library.

Activities other than copying, distribution and modification are not covered by this License; they are outside its scope. The act of running a program using the Library is not restricted, and output from such a program is covered only if its contents constitute a work based on the Library (independent of the use of the Library in a tool for writing it). Whether that is true depends on what the Library does and what the program that uses the Library does.

1. You may copy and distribute verbatim copies of the Library's complete source code as you receive it, in any medium, provided that you conspicuously and appropriately publish on each copy an appropriate copyright notice and disclaimer of warranty; keep intact all the notices that refer to this License and to the absence of any warranty; and distribute a copy of this License along with the Library.

You may charge a fee for the physical act of transferring a copy, and you may at your option offer warranty protection in exchange for a fee.

2. You may modify your copy or copies of the Library or any portion of it, thus forming a work based on the Library, and copy and distribute such modifications or work under the terms of Section 1 above, provided that you also meet all of these conditions:

- **a)** The modified work must itself be a software library.
- **b)** You must cause the files modified to carry prominent notices stating that you changed the files and the date of any change.
- **c)** You must cause the whole of the work to be licensed at no charge to all third parties under the terms of this License.
- **d)** If a facility in the modified Library refers to a function or a table of data to be supplied by an application program that uses the facility, other than as an argument passed when the facility is invoked, then you must make a good faith effort to ensure that, in the event an application does not supply such function or table, the facility still operates, and performs whatever part of its purpose remains meaningful.

(For example, a function in a library to compute square roots has a purpose that is entirely well-defined independent of the application. Therefore, Subsection 2d requires that any application-supplied function or table used by this function must be optional: if the application does not supply it, the square root function must still compute square roots.)

These requirements apply to the modified work as a whole. If identifiable sections of that work are not derived from the Library, and can be reasonably considered independent and separate works in themselves, then this License, and its terms, do not apply to those sections when you distribute them as separate works. But when you distribute the same sections as part of a whole which is a work based on the Library, the distribution of the whole must be on the terms of this License, whose permissions for other licensees extend to the entire whole, and thus to each and every part regardless of who wrote it. Thus, it is not the intent of this section to claim rights or contest your rights to work written entirely by you; rather, the intent is to exercise the right to control the distribution of derivative or collective works based on the Library.

In addition, mere aggregation of another work not based on the Library with the Library (or with a work based on the Library) on a volume of a storage or distribution medium does not bring the other work under the scope of this License.

3. You may opt to apply the terms of the ordinary GNU General Public License instead of this License to a given copy of the Library. To do this, you must alter all the notices that refer to this License, so that

they refer to the ordinary GNU General Public License, version 2, instead of to this License. (If a newer version than version 2 of the ordinary GNU General Public License has appeared, then you can specify that version instead if you wish.) Do not make any other change in these notices.

Once this change is made in a given copy, it is irreversible for that copy, so the ordinary GNU General Public License applies to all subsequent copies and derivative works made from that copy.

This option is useful when you wish to copy part of the code of the Library into a program that is not a library.

4. You may copy and distribute the Library (or a portion or derivative of it, under Section 2) in object code or executable form under the terms of Sections 1 and 2 above provided that you accompany it with the complete corresponding machine-readable source code, which must be distributed under the terms of Sections 1 and 2 above on a medium customarily used for software interchange.

If distribution of object code is made by offering access to copy from a designated place, then offering equivalent access to copy the source code from the same place satisfies the requirement to distribute the source code, even though third parties are not compelled to copy the source along with the object code.

5. A program that contains no derivative of any portion of the Library, but is designed to work with the Library by being compiled or linked with it, is called a "work that uses the Library". Such a work, in isolation, is not a derivative work of the Library, and therefore falls outside the scope of this License.

However, linking a "work that uses the Library" with the Library creates an executable that is a derivative of the Library (because it contains portions of the Library), rather than a "work that uses the library". The executable is therefore covered by this License. Section 6 states terms for distribution of such executables.

When a "work that uses the Library" uses material from a header file that is part of the Library, the object code for the work may be a derivative work of the Library even though the source code is not. Whether this is true is especially significant if the work can be linked without the Library, or if the work is itself a library. The threshold for this to be true is not precisely defined by law.

If such an object file uses only numerical parameters, data structure layouts and accessors, and small macros and small inline functions (ten lines or less in length), then the use of the object file is unrestricted, regardless of whether it is legally a derivative work. (Executables containing this object code plus portions of the Library will still fall under Section 6.)

Otherwise, if the work is a derivative of the Library, you may distribute the object code for the work under the terms of Section 6. Any executables containing that work also fall under Section 6, whether or not they are linked directly with the Library itself.

6. As an exception to the Sections above, you may also combine or link a "work that uses the Library" with the Library to produce a work containing portions of the Library, and distribute that work under terms of your choice, provided that the terms permit modification of the work for the customer's own use and reverse engineering for debugging such modifications.

You must give prominent notice with each copy of the work that the Library is used in it and that the Library and its use are covered by this License. You must supply a copy of this License. If the work during execution displays copyright notices, you must include the copyright notice for the Library among them, as well as a reference directing the user to the copy of this License. Also, you must do one of these things:

- **a)** Accompany the work with the complete corresponding machine-readable source code for the Library including whatever changes were used in the work (which must be distributed under Sections 1 and 2 above); and, if the work is an executable linked with the Library, with the complete machine-readable "work that uses the Library", as object code and/or source code, so that the user can modify the Library and then relink to produce a modified executable containing the modified Library. (It is understood that the user who changes the contents of definitions files in the Library will not necessarily be able to recompile the application to use the modified definitions.)
- **b)** Use a suitable shared library mechanism for linking with the Library. A suitable mechanism is one that (1) uses at run time a copy of the library already present on the user's computer system,

rather than copying library functions into the executable, and (2) will operate properly with a modified version of the library, if the user installs one, as long as the modified version is interface-compatible with the version that the work was made with.

- **c)** Accompany the work with a written offer, valid for at least three years, to give the same user the materials specified in Subsection 6a, above, for a charge no more than the cost of performing this distribution.
- **d)** If distribution of the work is made by offering access to copy from a designated place, offer equivalent access to copy the above specified materials from the same place.
- **e)** Verify that the user has already received a copy of these materials or that you have already sent this user a copy.

For an executable, the required form of the "work that uses the Library" must include any data and utility programs needed for reproducing the executable from it. However, as a special exception, the materials to be distributed need not include anything that is normally distributed (in either source or binary form) with the major components (compiler, kernel, and so on) of the operating system on which the executable runs, unless that component itself accompanies the executable.

It may happen that this requirement contradicts the license restrictions of other proprietary libraries that do not normally accompany the operating system. Such a contradiction means you cannot use both them and the Library together in an executable that you distribute.

7. You may place library facilities that are a work based on the Library side-by-side in a single library together with other library facilities not covered by this License, and distribute such a combined library, provided that the separate distribution of the work based on the Library and of the other library facilities is otherwise permitted, and provided that you do these two things:

- **a)** Accompany the combined library with a copy of the same work based on the Library, uncombined with any other library facilities. This must be distributed under the terms of the Sections above.
- **b)** Give prominent notice with the combined library of the fact that part of it is a work based on the Library, and explaining where to find the accompanying uncombined form of the same work.

8. You may not copy, modify, sublicense, link with, or distribute the Library except as expressly provided under this License. Any attempt otherwise to copy, modify, sublicense, link with, or distribute the Library is void, and will automatically terminate your rights under this License. However, parties who have received copies, or rights, from you under this License will not have their licenses terminated so long as such parties remain in full compliance.

9. You are not required to accept this License, since you have not signed it. However, nothing else grants you permission to modify or distribute the Library or its derivative works. These actions are prohibited by law if you do not accept this License. Therefore, by modifying or distributing the Library (or any work based on the Library), you indicate your acceptance of this License to do so, and all its terms and conditions for copying, distributing or modifying the Library or works based on it.

10. Each time you redistribute the Library (or any work based on the Library), the recipient automatically receives a license from the original licensor to copy, distribute, link with or modify the Library subject to these terms and conditions. You may not impose any further restrictions on the recipients' exercise of the rights granted herein. You are not responsible for enforcing compliance by third parties with this License.

11. If, as a consequence of a court judgment or allegation of patent infringement or for any other reason (not limited to patent issues), conditions are imposed on you (whether by court order, agreement or otherwise) that contradict the conditions of this License, they do not excuse you from the conditions of this License. If you cannot distribute so as to satisfy simultaneously your obligations under this License and any other pertinent obligations, then as a consequence you may not distribute the Library at all. For example, if a patent license would not permit royalty-free redistribution of the Library by all those who receive copies directly or indirectly through you, then the only way you could satisfy both it and this License would be to refrain entirely from distribution of the Library.

If any portion of this section is held invalid or unenforceable under any particular circumstance, the balance of the section is intended to apply, and the section as a whole is intended to apply in other circumstances.

It is not the purpose of this section to induce you to infringe any patents or other property right claims or to contest validity of any such claims; this section has the sole purpose of protecting the integrity of the free software distribution system which is implemented by public license practices. Many people have made generous contributions to the wide range of software distributed through that system in reliance on consistent application of that system; it is up to the author/donor to decide if he or she is willing to distribute software through any other system and a licensee cannot impose that choice.

This section is intended to make thoroughly clear what is believed to be a consequence of the rest of this License.

12. If the distribution and/or use of the Library is restricted in certain countries either by patents or by copyrighted interfaces, the original copyright holder who places the Library under this License may add an explicit geographical distribution limitation excluding those countries, so that distribution is permitted only in or among countries not thus excluded. In such case, this License incorporates the limitation as if written in the body of this License.

13. The Free Software Foundation may publish revised and/or new versions of the Lesser General Public License from time to time. Such new versions will be similar in spirit to the present version, but may differ in detail to address new problems or concerns.

Each version is given a distinguishing version number. If the Library specifies a version number of this License which applies to it and "any later version", you have the option of following the terms and conditions either of that version or of any later version published by the Free Software Foundation. If the Library does not specify a license version number, you may choose any version ever published by the Free Software Foundation.

14. If you wish to incorporate parts of the Library into other free programs whose distribution conditions are incompatible with these, write to the author to ask for permission. For software which is copyrighted by the Free Software Foundation, write to the Free Software Foundation; we sometimes make exceptions for this. Our decision will be guided by the two goals of preserving the free status of all derivatives of our free software and of promoting the sharing and reuse of software generally.

NO WARRANTY

15. BECAUSE THE LIBRARY IS LICENSED FREE OF CHARGE, THERE IS NO WARRANTY FOR THE LIBRARY, TO THE EXTENT PERMITTED BY APPLICABLE LAW. EXCEPT WHEN OTHERWISE STATED IN WRITING THE COPYRIGHT HOLDERS AND/OR OTHER PARTIES PROVIDE THE LIBRARY "AS IS" WITHOUT WARRANTY OF ANY KIND, EITHER EXPRESSED OR IMPLIED, INCLUDING, BUT NOT LIMITED TO, THE IMPLIED WARRANTIES OF MERCHANTABILITY AND FITNESS FOR A PARTICULAR PURPOSE. THE ENTIRE RISK AS TO THE QUALITY AND PERFORMANCE OF THE LIBRARY IS WITH YOU. SHOULD THE LIBRARY PROVE DEFECTIVE, YOU ASSUME THE COST OF ALL NECESSARY SERVICING, REPAIR OR CORRECTION.

16. IN NO EVENT UNLESS REQUIRED BY APPLICABLE LAW OR AGREED TO IN WRITING WILL ANY COPYRIGHT HOLDER, OR ANY OTHER PARTY WHO MAY MODIFY AND/OR REDISTRIBUTE THE LIBRARY AS PERMITTED ABOVE, BE LIABLE TO YOU FOR DAMAGES, INCLUDING ANY GENERAL, SPECIAL, INCIDENTAL OR CONSEQUENTIAL DAMAGES ARISING OUT OF THE USE OR INABILITY TO USE THE LIBRARY (INCLUDING BUT NOT LIMITED TO LOSS OF DATA OR DATA BEING RENDERED INACCURATE OR LOSSES SUSTAINED BY YOU OR THIRD PARTIES OR A FAILURE OF THE LIBRARY TO OPERATE WITH ANY OTHER SOFTWARE), EVEN IF SUCH HOLDER OR OTHER PARTY HAS BEEN ADVISED OF THE POSSIBILITY OF SUCH DAMAGES.

LGPL-3

GNU LESSER GENERAL PUBLIC LICENSE

Version 3, 29 June 2007

Copyright © 2007 Free Software Foundation, Inc. <<http://fsf.org/>>

Everyone is permitted to copy and distribute verbatim copies of this license document, but changing it is not allowed.

This version of the GNU Lesser General Public License incorporates the terms and conditions of version 3 of the GNU General Public License, supplemented by the additional permissions listed below.

0. Additional Definitions.

As used herein, “this License” refers to version 3 of the GNU Lesser General Public License, and the “GNU GPL” refers to version 3 of the GNU General Public License.

“The Library” refers to a covered work governed by this License, other than an Application or a Combined Work as defined below.

An “Application” is any work that makes use of an interface provided by the Library, but which is not otherwise based on the Library. Defining a subclass of a class defined by the Library is deemed a mode of using an interface provided by the Library.

A “Combined Work” is a work produced by combining or linking an Application with the Library. The particular version of the Library with which the Combined Work was made is also called the “Linked Version”.

The “Minimal Corresponding Source” for a Combined Work means the Corresponding Source for the Combined Work, excluding any source code for portions of the Combined Work that, considered in isolation, are based on the Application, and not on the Linked Version.

The “Corresponding Application Code” for a Combined Work means the object code and/or source code for the Application, including any data and utility programs needed for reproducing the Combined Work from the Application, but excluding the System Libraries of the Combined Work.

1. Exception to Section 3 of the GNU GPL.

You may convey a covered work under sections 3 and 4 of this License without being bound by section 3 of the GNU GPL.

2. Conveying Modified Versions.

If you modify a copy of the Library, and, in your modifications, a facility refers to a function or data to be supplied by an Application that uses the facility (other than as an argument passed when the facility is invoked), then you may convey a copy of the modified version:

- a) under this License, provided that you make a good faith effort to ensure that, in the event an Application does not supply the function or data, the facility still operates, and performs whatever part of its purpose remains meaningful, or
- b) under the GNU GPL, with none of the additional permissions of this License applicable to that copy.

3. Object Code Incorporating Material from Library Header Files.

The object code form of an Application may incorporate material from a header file that is part of the Library. You may convey such object code under terms of your choice, provided that, if the

incorporated material is not limited to numerical parameters, data structure layouts and accessors, or small macros, inline functions and templates (ten or fewer lines in length), you do both of the following:

- a) Give prominent notice with each copy of the object code that the Library is used in it and that the Library and its use are covered by this License.
- b) Accompany the object code with a copy of the GNU GPL and this license document.

4. Combined Works.

You may convey a Combined Work under terms of your choice that, taken together, effectively do not restrict modification of the portions of the Library contained in the Combined Work and reverse engineering for debugging such modifications, if you also do each of the following:

- a) Give prominent notice with each copy of the Combined Work that the Library is used in it and that the Library and its use are covered by this License.
- b) Accompany the Combined Work with a copy of the GNU GPL and this license document.
- c) For a Combined Work that displays copyright notices during execution, include the copyright notice for the Library among these notices, as well as a reference directing the user to the copies of the GNU GPL and this license document.
- d) Do one of the following:
 - 0) Convey the Minimal Corresponding Source under the terms of this License, and the Corresponding Application Code in a form suitable for, and under terms that permit, the user to recombine or relink the Application with a modified version of the Linked Version to produce a modified Combined Work, in the manner specified by section 6 of the GNU GPL for conveying Corresponding Source.
 - 1) Use a suitable shared library mechanism for linking with the Library. A suitable mechanism is one that (a) uses at run time a copy of the Library already present on the user's computer system, and (b) will operate properly with a modified version of the Library that is interface-compatible with the Linked Version.
- e) Provide Installation Information, but only if you would otherwise be required to provide such information under section 6 of the GNU GPL, and only to the extent that such information is necessary to install and execute a modified version of the Combined Work produced by recombining or relinking the Application with a modified version of the Linked Version. (If you use option 4d0, the Installation Information must accompany the Minimal Corresponding Source and Corresponding Application Code. If you use option 4d1, you must provide the Installation Information in the manner specified by section 6 of the GNU GPL for conveying Corresponding Source.)

5. Combined Libraries.

You may place library facilities that are a work based on the Library side by side in a single library together with other library facilities that are not Applications and are not covered by this License, and convey such a combined library under terms of your choice, if you do both of the following:

- a) Accompany the combined library with a copy of the same work based on the Library, uncombined with any other library facilities, conveyed under the terms of this License.
- b) Give prominent notice with the combined library that part of it is a work based on the Library, and explaining where to find the accompanying uncombined form of the same work.

6. Revised Versions of the GNU Lesser General Public License.

The Free Software Foundation may publish revised and/or new versions of the GNU Lesser General Public License from time to time. Such new versions will be similar in spirit to the present version, but may differ in detail to address new problems or concerns.

Each version is given a distinguishing version number. If the Library as you received it specifies that a certain numbered version of the GNU Lesser General Public License “or any later version” applies to it, you have the option of following the terms and conditions either of that published version or of any later version published by the Free Software Foundation. If the Library as you received it does not specify a version number of the GNU Lesser General Public License, you may choose any version of the GNU Lesser General Public License ever published by the Free Software Foundation.

If the Library as you received it specifies that a proxy can decide whether future versions of the GNU Lesser General Public License shall apply, that proxy's public statement of acceptance of any version is permanent authorization for you to choose that version for the Library.

Notice to End User: Terms of Use

Carefully read the following legal agreement ("Agreement"). Use or copying of the software and/or codes provided with this agreement (The "Software") constitutes your acceptance of these terms. If you have any questions about these terms of use, please contact the Unicode Consortium.

A.Unicode Copyright.

1.Copyright (c) 1991-2014 Unicode, Inc. All rights reserved.

2.Certain documents and files on this website contain a legend indicating that

"Modification is permitted." Any person is hereby authorized, without fee, to modify

such documents and files to create derivative works conforming to the Unicode(r) Standard, subject to Terms and Conditions herein.

3.Any person is hereby authorized, without fee, to view, use, reproduce, and distribute all documents and files solely for informational purposes in the creation

of products supporting the Unicode Standard, subject to the Terms and Conditions herein.

4.Further specifications of rights and restrictions pertaining to the use of the particular

set of data files known as the "Unicode Character Database" can be found in Exhibit 1.

5.Each version of the Unicode Standard has further specifications of rights and restrictions

of use. For the book editions (Unicode 5.0 and earlier), these are found on the back of

the title page. The online code charts carry specific restrictions. All other files,

including online documentation of the core specification for Unicode 6.0 and later, are covered under these general Terms of Use.

6.No license is granted to "mirror" the Unicode website where a fee is charged for access to the "mirror" site.

7.Modification is not permitted with respect to this document. All copies of this document

must be verbatim.

B.Restricted Rights Legend.

Any technical data or software which is licensed to the United

States of America, its agencies and/or instrumentalities under this Agreement is commercial

technical data or commercial computer software developed exclusively at private expense

as defined in FAR 2.101, or DFARS 252.227-7014 (June 1995), as applicable. For technical

data, use, duplication, or disclosure by the Government is subject to restrictions as set

forth in DFARS 202.227-7015 Technical Data, Commercial and Items (Nov 1995) and this

Agreement. For Software, in accordance with FAR 12-212 or DFARS 227-7202, as applicable,

use, duplication or disclosure by the Government is subject to the restrictions set forth in this Agreement.

C.Warranties and Disclaimers.

1.This publication and/or website may include technical or typographical errors or other inaccuracies . Changes are periodically added to the information herein; these changes will be incorporated in new editions of the publication

and/or website. Unicode may make improvements and/or changes in the product(s) and/or

program(s) described in this publication and/or website at any time.

2.If this file has been purchased on magnetic or optical media from Unicode, Inc. the

sole and exclusive remedy for any claim will be exchange of the defective media within

ninety (90) days of original purchase.
