

<b>Properties</b>	<b>Basic (BA)</b>	<b>Standard (ST)</b>	<b>High Feature (HF)</b>	<b>High Speed (HS)</b>
Application	- optimized for price - for basic requirements	- optimized for low stock keeping - for standard requirements	- optimized for rapid error location - for high performance requirements	- optimized for short reaction times - for rapid data exchange
Diagnostics	basic diagnostics	Diagnostics per module(wire break and short circuit, for example)	Diagnostics by channel	Diagnostics by module or channel
Special features	-	-	- flexible utilization through high adjustability via parameters - alternative operating modes and extended module functions	- flexible utilization through high adjustability via parameters - alternative operating modes and extended module functions
